US 57 Corridor Interstate Feasibility Study

Notice of a Virtual Public Meeting

Notice of Virtual Public Meeting

US 57 CORRIDOR INTERSTATE FEASIBILITY STUDY

**From Eagle Pass International Bridge on the Texas-Mexico Border to I-35 in Moore, Texas.
Maverick, Zavala, and Frio counties, Texas**

The Texas Department of Transportation (TxDOT) is assessing the feasibility of interstate designation for the 100-mile-long US 57 Corridor from the Eagle Pass International Bridge on the Texas-Mexico border eastward to the Interstate 35 (I-35) junction in Moore, Texas. The study is also assessing how to improve east/west connectivity, enhance safety and freight movement, and promote international trade and economic opportunity at the border and along the corridor. Findings and recommendations will assist in developing a phased and prioritized improvement strategy for the US 57 Corridor. **This notice advises the public that TxDOT will be conducting an online virtual public meeting for participants to obtain information on the feasibility study process and improvement options, as well as submit comments on corridor needs. There will not be an in-person option for this public meeting.**

The virtual meeting will consist of a pre-recorded video presentation and other visual components. The virtual public meeting will be available by 5 p.m. on Thursday, October 13, 2022. To view the virtual public meeting presentation and meeting materials go to [TxDOT.gov](https://www.txdot.gov), search “US 57 Corridor – Virtual Public Meeting”. There will be no live meeting or presentation. Participants may view the pre-recorded presentation and other materials, and submit a comment at any time during the official public comment period.

If you do not have internet access, you may call TxDOT Project Manager Paul Truban, AICP, PTOE, at (512) 839-7256 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access virtual public meeting materials during the project development process. Formal comments may be submitted electronically through the virtual public meeting website or provided by mail or email as explained below.

The virtual public meeting will be conducted in English and Spanish. If you need an interpreter or document translator because English or Spanish is not your primary language or you have difficulty communicating effectively in English or Spanish, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public meeting, please contact Paul Truban via the methods listed below no later than 4 p.m. on October 11, 2022. Please be aware that advance notice is required as some services and accommodations may require time for the Texas Department of Transportation to arrange.

Written comments from the public regarding the proposed project are requested and may be submitted electronically through the virtual public meeting website, by mail to Paul S Truban, AICP, PTOE, TxDOT Project Manager, 6230 E. Stassney Lane, Austin, TX 78744. Written comments may also be submitted by email to Paul.Truban1@TxDOT.gov. Verbal comments may be submitted by leaving a voicemail at (956) 508-3580. Voicemails will be transcribed and included in the official public meeting summary. Messages

US 57 Corridor Interstate Feasibility Study

Notice of a Virtual Public Meeting

left for the project team at this number will not be returned, members of the public wishing to speak to the project team should call the TxDOT project manager at the number below.

All comments must be received or postmarked by 11:59 p.m. on Friday, October 28, 2022. Responses to comments received will be available online at the TxDOT project webpage noted above once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the virtual meeting, please contact TxDOT Project Manager Paul Truban, AICP, PTOE, at Paul.Truban1@TxDOT.gov or (512) 839-7256.

Estudio de Factibilidad Interestatal del Corredor US 57

Aviso de Reunión Pública Virtual

Aviso de Reunión Pública Virtual

ESTUDIO DE FACTIBILIDAD INTERESTATAL DEL CORREDOR US 57

Desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hasta la I-35 en Moore, Texas

Condados Maverick, Zavala, y Frio, Texas

El Departamento de Transportes de Texas (TxDOT) está evaluando la viabilidad de la designación interestatal para el Corredor US 57 de 100 millas de largo desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hacia el este hasta el cruce de la Interestatal 35 (I-35) en Moore, Texas. El estudio también está evaluando cómo mejorar la conectividad este/oeste, mejorar la seguridad y el movimiento de fletes y promover el comercio internacional y las oportunidades económicas en la frontera y a lo largo del corredor. Los hallazgos y recomendaciones ayudarán a desarrollar una estrategia de mejoras por fases y prioridades para el Corredor US 57. **Este aviso informa al público que el TxDOT llevará a cabo una reunión pública virtual en línea para que los participantes puedan obtener información sobre el proceso del estudio de factibilidad y las opciones de mejora, así como para enviar comentarios sobre las necesidades del corredor. No habrá una opción en persona para esta reunión pública.**

La reunión virtual consistirá en una presentación de video pregrabada y otros componentes visuales. La reunión pública virtual estará disponible a las 5 p.m. del jueves 13 de octubre de 2022. Para ver la presentación de la reunión pública virtual y los materiales de la reunión, vaya a [TxDOT.gov](https://www.txdot.gov), busque "US 57 Corridor – Virtual Public Meeting". No habrá reunión ni presentación en vivo. Los participantes pueden ver la presentación pregrabada y otros materiales, y enviar un comentario en cualquier momento durante el periodo oficial de comentarios del público.

Si no tiene acceso a Internet, puede llamar al Gerente de Proyectos de TxDOT Paul Truban, AICP, PTOE, al (512) 839-7256 entre las 8 a.m. y las 5 p.m., de lunes a viernes, para hacer preguntas y acceder a materiales de reuniones públicas virtuales durante el proceso de desarrollo del proyecto. Los comentarios formales pueden enviarse electrónicamente a través del sitio web de la reunión pública virtual o proporcionarse por correo postal o correo electrónico como se explica a continuación.

La reunión pública virtual se llevará a cabo en inglés y español. Si necesita un intérprete o traductor de documentos porque el inglés o el español no es su idioma principal o tiene dificultades para comunicarse de manera efectiva en inglés o español, se le proporcionará uno. Si tiene una discapacidad y necesita asistencia, se pueden hacer arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicios de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual, comuníquese con Paul Truban a través de los métodos que se enumeran a continuación a más tardar a las 4 p.m. del 11 de octubre de 2022. Tenga en cuenta que se requiere un aviso previo ya que algunos servicios y adaptaciones pueden requerir tiempo para que los organice el Departamento de Transportes de Texas.

Se solicitan comentarios escritos del público con respecto al proyecto propuesto y pueden enviarse electrónicamente a través del sitio web de la reunión pública virtual, por correo postal al Paul Truban, AICP, PTOE, TxDOT Project Manager, 6230 E. Stassney Lane, Austin, TX 78744. Los comentarios por

Estudio de Factibilidad Interestatal del Corredor US 57

Aviso de Reunión Pública Virtual

escrito también pueden enviarse por correo electrónico a Paul.Truban1@TxDOT.gov. Los comentarios orales pueden enviarse dejando un mensaje por correo de voz al (956) 508-3580. Los mensajes por correo de voz se transcribirán e incluirán en el resumen oficial de la reunión pública. No se devolverán las llamadas con mensajes para el equipo del proyecto que se dejen en este número; los miembros del público que deseen hablar con el equipo del proyecto deben llamar al gerente del proyecto TxDOT al número a continuación.

Todos los comentarios deben recibirse o llevar matasellos de correo de o antes de las 11:59 p.m. del viernes, 28 de octubre de 2022.

Si tiene alguna pregunta o inquietud general con respecto al proyecto propuesto o la reunión virtual, comuníquese con el Gerente de Proyectos de TxDOT Paul Truban, AICP, PTOE, al Paul.Truban1@TxDOT.gov o al (512) 839-7256.

U.S. DEPARTMENT OF COMMERCE INVESTS \$3.3 MILLION IN AMERICAN RESCUE PLAN FUNDS FOR ROADWAY EXPANSION

To Support
Business Growth
in Eagle Pass, Texas

State
NEWS

WASHINGTON – Today, U.S. Secretary of Commerce Gina Raimondo announced the Department's Economic Development Administration (EDA) is awarding a \$3.3 million grant to the city of Eagle Pass, Texas, to expand Patsy Winn Boulevard and support development of an industrial park. This grant is funded by the American Rescue Plan and EDA's \$300 million Coal Communities Commitment.

This grant will create new opportunities for manufacturing business growth in Southwestern Texas, a region impacted by the declining use of coal. The EDA investment will be matched with \$3.4 million in local funds and is expected to create 215 jobs and generate \$5.4 million in private investment, according to grantee estimates.

"The Biden-Harris Administration is committed to providing communities with the support needed to grow and expand their regional economies," said Secretary of Commerce Gina Raimondo. "This EDA investment will build the foundation for new businesses to establish in Eagle Pass, creating a robust, diverse regional economy."

"The Economic Development Administration is dedicated to working with communities to support their locally-driven strategies to recover and rebuild from the pandemic," said Assistant Secretary of Commerce for Economic Development Alejandra Y. Castillo. "This project announced today will create the necessary infrastructure to bring new businesses and good-paying jobs to Eagle Pass and the surrounding region."

"The Economic Development Administration's grant to Eagle Pass will help the city make critical infrastructure improvements, create jobs, and boost the region's growing economy," said Governor Greg Abbott. "The critical roadway expansion and the development of an industrial park will help attract new businesses to the area and create more opportunities for hardworking Texans in the community."

This project was made possible by the regional planning efforts led by the Middle Rio Grande Development Council (MRGDC). EDA funds MRG-

DC to bring together the public and private sectors to create an economic development roadmap to strengthen the regional economy, support private capital investment and create jobs.

This project is funded under EDA's American Rescue Plan Economic Adjustment Assistance program, which makes \$500 million in Economic Adjustment Assistance grants available to American communities. The Economic Adjustment Assistance program is EDA's most

flexible program, and grants made under this program will help hundreds of communities across the nation plan, build, innovate, and put people back to work through construction or non-construction projects designed to meet local needs. Effective May 26, 2022, EDA has officially closed all of its American Rescue Plan programs for applications. The \$3 billion program funding will be awarded on a rolling basis through September 30, 2022.

EDA's Coal Communities Commitment allocates \$300 million of EDA's \$3 billion American Rescue Plan appropriation to support coal communities as they recover from the pandemic and to help them create new jobs and opportunities, including through the creation or expansion of a new industry sector. Specifically, EDA has dedicated \$100 million of its Build Back Better Regional Challenge funds and \$200 million of its Economic Adjustment Assistance funds to directly support coal communities.

Invierten \$3,3 millones en fondos del Plan de Rescate Estadounidense para la expansión de carreteras

WASHINGTON – Hoy, la Secretaria de Comercio de EE. UU., Gina Raimondo, anunció que la Administración de Desarrollo Económico (EDA, por sus siglas en inglés) del Departamento está otorgando una subvención de \$3.3 millones a la ciudad de Eagle Pass, Texas, para expandir Patsy Winn Boulevard y apoyar el desarrollo de un parque industrial. Esta subvención está financiada por el Plan de Rescate Estadounidense y el Compromiso de Comunidades de Carbón de \$300 millones de EDA.

Esta subvención creará nuevas oportunidades para el crecimiento del negocio de fabricación en el suroeste de Texas, una región afectada por la disminución del uso del carbón. La inversión de EDA se equiparára con \$3,4 millones en fondos locales y se espera que cree 215 puestos de trabajo y genere \$5,4 millones en inversión privada, según estimaciones de los concesionarios.

US 57 CORRIDOR INTERSTATE FEASIBILITY STUDY VIRTUAL PUBLIC MEETING

Interstate Feasibility Study

The Texas Department of Transportation is assessing the feasibility of interstate designation for the 100-mile-long US 57 Corridor from the Eagle Pass International Bridge on the Texas-Mexico border eastward to the Interstate 35 (I-35) junction in Moore, Texas. The study is also assessing how to improve east/west connectivity, enhance safety and freight movement, and promote international trade and economic opportunity at the border and along the corridor.

Virtual Public Meeting

The virtual public meeting will consist of a pre-recorded video presentation and other visual components. Participants can obtain information on the study process and improvement options and submit comments on corridor needs.

Thursday, October 13, 2022,
at 5 p.m. to Friday, October
28, 2022, at 11:59 p.m.

To view the virtual public
meeting presentation and
meeting materials, go to
TxDOT.gov and search:
"US 57 Corridor – Virtual
Public Meeting"

There will be no live meeting or
presentation; participants may
view the virtual public meeting and
comment at any time during the
dates noted above.

ESTUDIO DE FACTIBILIDAD INTERESTATAL DEL CORREDOR US 57 REUNIÓN PÚBLICA VIRTUAL

Estudio de Factibilidad Interestatal

El Departamento de Transportes de Texas está evaluando la viabilidad de la designación interestatal para el Corredor US 57 de 100 millas de largo desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hacia el este hasta el cruce de la Interestatal 35 (I-35) en Moore, Texas. El estudio también está evaluando cómo mejorar la conectividad este/oeste, mejorar la seguridad y el movimiento de fletes, y promover el comercio internacional y las oportunidades económicas en la frontera y a lo largo del corredor.

Reunión Pública Virtual

La reunión pública virtual consistirá en una presentación de video pregrabada y otros componentes visuales. Los participantes pueden obtener información sobre el proceso del estudio y las opciones de mejora y enviar comentarios sobre las necesidades del corredor.

Desde el jueves, 13 de octubre
de 2022, a las 5 p.m. hasta
el viernes, 28 de octubre de
2022, a las 11:59 p.m.

Para ver la presentación de la
reunión pública virtual y los
materiales de la reunión, vaya a
TxDOT.gov y busque:
"US 57 Corridor – Virtual
Public Meeting"

No habrá reunión ni presentación en
vivo; los participantes pueden ver la
reunión pública virtual y comentar
en cualquier momento durante las
fechas indicadas anteriormente.

The virtual public meeting presentation will be in English and Spanish. If you need an interpreter or document translator because English or Spanish is not your primary language or you have difficulty communicating effectively in English or Spanish, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to participate in the meetings, please contact the TxDOT Project Manager at (512) 839-7256 no later than 4 p.m. on Tuesday, October 11, 2022. Advance notice is required as services and accommodations require time to arrange.

La reunión pública virtual estará disponible en inglés y español. Si necesita un intérprete o traductor de documentos porque el inglés o el español no es su idioma principal o tiene dificultades para comunicarse de manera efectiva en inglés o español, se le proporcionará uno. Si tiene una discapacidad y necesita asistencia, se pueden hacer arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicios de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual, comuníquese con Paul Truban a través de los métodos que se enumeran a continuación a más tardar a las 4 p.m. del 11 de octubre de 2022. Se requiere notificación previa ya que los servicios y adaptaciones requieren tiempo para organizarse.

^Investment (Continued from page 10)

that when we assemble a team of expert researchers and leaders, while simultaneously staying focused on being responsive to the needs of Texas and key priority areas, that real magic can happen. We're proud to be creating meaningful solutions for the people of Texas."

Project partners will be tasked with providing technical and financial assistance to producers to implement climate-smart production practices on a

voluntary basis on working lands.

"Sustainable production systems that strengthen economies and bolster human health are cornerstone priorities for our research enterprise," said Cliff Lamb, Ph.D., director of AgriLife Research. "Over the next five years, we will build on all the competitive advantages that make AgriLife Research the premier agency to lead a research initiative of this

magnitude in Texas."

Texas A&M AgriLife's internal members for this initiative include AgriLife Research, Texas A&M AgriLife Extension Service, Texas A&M Forest Service and the Texas A&M College of Agriculture and Life Sciences.

For The Texas Climate-Smart Initiative, AgriLife Research will partner with the Texas Soil and Water Conservation Board, Prairie View A&M University, University of Texas – Rio Grande Valley, Tarleton State University, BCarbon, Nori, Plains Cotton Growers Association, Texas Wheat Producers Board, Texas Corn Producers Board, Texas Sorghum Producers Board, Texas Rice Producers Board, U.S. Rice Producers Association, Texas Organic Farmers and Gardeners Association,

Texas International Produce Association, Texas Citrus Mutual, Texas Pecan Growers Association, Texas Small Farmers and Ranchers Organization, 100Ranchers, Texas Cattle Feeders Association, Texas Association of Dairymen, Texas Poultry Federation, Texas Forestry Association, Texas Chapter of National Women in Agriculture, Global Revive, Small Producers Initiative and American Plant Food.

Texas A&M AgriLife also will serve as a major contributor to four other partnership projects totaling \$185 million that focus on cotton, beef and bison production, and sorghum systems:

U.S. Climate-Smart Cotton Program, led by US Cotton Trust Protocol: This project, with potential funding up to \$90 million, will build markets for

climate-smart cotton and aid more than 1,000 cotton farmers, including historically underserved cotton producers, across the country.

Climate-Smart Cotton through a Sustainable & Innovative Supply Chain Approach, led by ECOM USA, LLC: This project, with potential funding of \$30 million, will strive to implement methods to restore soil and ecosystem health in cotton production through regenerative farming and best practices based on specific regions and needs.

Climate-Smart Beef and Bison Commodities, led by South Dakota State University: This project, with potential funding up to \$80 million, will create stronger market opportunities for beef and bison producers, educate producers on practices best

suited for their operations and manage large-scale data.

National Sorghum Producers Partnerships for Climate-Smart Commodities Project, led by National Sorghum Producers Association: This project, with potential funding up to \$65 million, plans to implement climate-smart production practices across hundreds of thousands of acres of sorghum working lands over a five-year period, with the goal to reduce hundreds of millions of pounds of carbon emissions and develop markets for sorghum as a climate-smart commodity.

For a comprehensive listing of projects and participating organizations included, visit: <https://www.usda.gov/climate-solutions/climate-smart-commodities/projects>.

^Armyworms (Continued from page 10)

mostly short with some areas reporting very short and some areas reporting adequate moisture levels. Some scattered showers were reported in eastern and southern parts of the district. Conditions remained warm with temperatures in the mid-90s, but nighttime temperatures were cooling. Peanut harvest was

underway though some fields continued to develop. Cotton harvest continued in some areas while other fields continued to mature. Strawberry producers continued to prepare fields. Farmers were pre-irrigating fields for winter vegetables. Pasture and rangeland conditions were fair to excellent but declining in most areas due to the heat.

Forage production and hay baling continued amid reports of armyworms, and some producers were spraying fields for the pest. Cattle and forage producers were watching armyworm numbers closely. Hay was being fed to livestock. Producers were preparing

for wheat and oat plantings. Producers were also spraying pastures and fields for weeds. Cattle prices were steady, and sale volumes were lower. Some ranchers were buying replacement cattle. Feed prices remained high. Dove hunting was below average this season.

ESTUDIO DE FACTIBILIDAD INTERESTATAL DEL CORREDOR US 57 REUNIÓN PÚBLICA VIRTUAL

Estudio de Factibilidad Interestatal

El Departamento de Transportes de Texas está evaluando la viabilidad de la designación interestatal para el Corredor US 57 de 100 millas de largo desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hacia el este hasta el cruce de la Interestatal 35 (I-35) en Moore, Texas. El estudio también está evaluando cómo mejorar la conectividad este/oeste, mejorar la seguridad y el movimiento de fletes, y promover el comercio internacional y las oportunidades económicas en la frontera y a lo largo del corredor.

Reunión Pública Virtual

La reunión pública virtual consistirá en una presentación de video pregrabada y otros componentes visuales. Los participantes pueden obtener información sobre el proceso del estudio y las opciones de mejora y enviar comentarios sobre las necesidades del corredor.

Desde el jueves, 13 de octubre de 2022, a las 5 p.m. hasta el viernes, 28 de octubre de 2022, a las 11:59 p.m.

Para ver la presentación de la reunión pública virtual y los materiales de la reunión, vaya a TxDOT.gov y busque: "US 57 Corridor – Virtual Public Meeting"

No habrá reunión ni presentación en vivo; los participantes pueden ver la reunión pública virtual y comentar en cualquier momento durante las fechas indicadas anteriormente.

The virtual public meeting presentation will be in English and Spanish. If you need an interpreter or document translator because English or Spanish is not your primary language or you have difficulty communicating effectively in English or Spanish, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to participate in the meetings, please contact the TxDOT Project Manager at (512) 839-7256 no later than 4 p.m. on Tuesday, October 11, 2022. Advance notice is required as services and accommodations require time to arrange.

La reunión pública virtual estará disponible en inglés y español. Si necesita un intérprete o traductor de documentos porque el inglés o el español no es su idioma principal o tiene dificultades para comunicarse de manera efectiva en inglés o español, se le proporcionará uno. Si tiene una discapacidad y necesita asistencia, se pueden hacer arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicios de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual, comuníquese con Paul Truban a través de los métodos que se enumeran a continuación a más tardar a las 4 p.m. del 11 de octubre de 2022. Se requiere notificación previa ya que los servicios y adaptaciones requieren tiempo para organizarse.

Springs of “Living Water”

by Pastor Dino Espinoza

THE VALUE OF A GOOD NAME

I have always been attracted to the wise pearls found in the Book of Proverbs. This poetic masterpiece written by King Solomon offers many life principles. Consider Proverbs 22:1 *“A good name is to be chosen rather than great riches.”*

A good name? This goes beyond the eloquence, the root meaning or even the popularity of a name. A good name is the external identity of inward character, virtues and positive influence. Here’s a short list of some good names: Lincoln-honesty Edison-inventions

Shakespeare-drama Beethoven-music Nightingale-nursing and one more JESUS-Lord and Savior.

Let’s look into a mirror of our own mind – What does my name mean to others? Hopefully it will include some of these: honesty, friendship, integrity, kindness, joy, love and faithfulness. LET’S TAKE CARE OF OUR NAME.

EL VALOR DE UN BUEN NOMBRE

Siempre he sido atraído a las perlas de sabiduría encontradas en el Libro de los Proverbios. Esta obra maestro escrita por el Rey

Salomón ofrece muchos principios de vida. Considere Proverbios 22:1 *“de más estima es el buen nombre que las muchas riquezas”*

Un buen nombre? Esto va más allá que la elocuencia, el significado de origen o aún la popularidad de un nombre. Un buen nombre es la identidad externa de carácter interno, virtudes y la influencia positiva. Aquí esta una lista: Lincoln- honestidad Edison-invencciones Shakespeare-drama Beethoven-música Nightingale-enfermería y uno más JESUS-Señor y Salvador.

Veamos un espejo en nuestra propia mente – Que significa mi nombre a otros? Esperamos que incluya algunas de estas: honestidad, amistad, integridad, gentilez, gozo, amor y fidelidad. CUIDEMOS DE NUESTRO NOMBRE.

IQ
"Inteligencia Conciente"
Que tan inteligente eres tu que eres? Para mi esa inteligencia deve consistir de una habilidad mental de lo maxismo.

Claro muchas personas son muy intligentes en algunas areas pero en sentido comun no mas no, que lastima. Existen varias areas de inteligencia. Examena las y tu decides en cual cayes tu. O.K.?

Una es Linguistico-el saber el significado de cada palabra y el como utilizarla.

Dos es reconocer el patron de las palabras, ya en oracion-eso es ser una persona logica.

El genio musical entiende del ritmo. La sensitivo del la melodía, los tonos. La inteligencia del como usar. Tu energía cinetica habilmente tener la habilidad de re-poner como correr el mundo poder transformar cosas para que sean mas favorables para el mejoramiento del ser human.

Tener esa inteligencia para poder comprender al ser humano en sus relaciones cual fueran.

Ponder entender los sentimientos a las emociones de la vida tendras que entenderte tus propia luego las de los demas "me quieres si, me quieres no.

"Esto es algo en que pensar cuidado de conociendo falso porque pueden ser mas peligrosas que lo ignorancia."

Esta es una declaracion del escritor G.B. Shaw

Heramienta para vivir mejor

En vez de crear un infierno mejor hasta tu propio paraiso usa el poder que Dios te da para que brille tu camino. Recuerdo-EL ES LA LUZ DEL MUNDO

Vive a tu alcance para que no caigas en deuda ganas poco, gasta poco y mas que lo material. La salvacion es GRATIS.

No vayas por la vida jugando al proximo quien crees que eres? "El que se crea limpio de pecado que tire la primera piedra" DIOS ES EL MAXIMO JUES.

No permitas que los demonios bloqueen tu relacion con Cristo. "Hablale con corazon sincero." El te va escuchar siempre.

Tu cuerpo-cuidalo pues es el templo de Dios. Alimentate de Dios. Alimentate bien. Ejercicio, es la agrada

Al Padre Celestial dale tu vida porque EL ES EL CAMINO, LA VERDAD Y LA VIDA. 1/15/2022

Los Medios de Comunicacion
Es dificil ser de los medios de comunicacion. Porque? Porque si dan mal su infor-

macion-ya valio por problemas legales vendran.

Los medios de comunicacion nos afectan nuestras emociones que lado tomamos. Nos dicen el come, donde y porque del suceso. Nos exponen a toda clase de informacion.

Tal parece que entre mas exsajeran la noticia mas alta la clasificacion tendra esa estacion televisora.

Porque es que nosotros mismos nos dejamos obsecionar por los medios de comunicacion como que le pone mas sensacionalismo al crimen, sea cual sea.

A veces eso reporteros no tienen todos los datos y sin embargo lo publican como si ellos presenciaron el suceso.

Eso y diria-es una ofensa para los seguidores. Nosotros devemos estar consientes y escuchar todos la dos de el suceso.

Como Cristianos es nuestro dever no depender de hysteria y mal informacion sino pedirle a Dios por comprension y compasion.

Analizar las noticias dadas por los medios de comunicacion y uno mismo hacer nuestra propia conviccion. Hay que esta atentos! Gracias. 6/4/2022

Mi Pildorita Semanal

US 57 CORRIDOR INTERSTATE FEASIBILITY STUDY VIRTUAL PUBLIC MEETING

Interstate Feasibility Study

The Texas Department of Transportation is assessing the feasibility of interstate designation for the 100-mile-long US 57 Corridor from the Eagle Pass International Bridge on the Texas-Mexico border eastward to the Interstate 35 (I-35) junction in Moore, Texas. The study is also assessing how to improve east/west connectivity, enhance safety and freight movement, and promote international trade and economic opportunity at the border and along the corridor.

Virtual Public Meeting

The virtual public meeting will consist of a pre-recorded video presentation and other visual components. Participants can obtain information on the study process and improvement options and submit comments on corridor needs.

Thursday, October 13, 2022, at 5 p.m. to Friday, October 28, 2022, at 11:59 p.m.

To view the virtual public meeting presentation and meeting materials, go to **TxDOT.gov** and search: **“US 57 Corridor – Virtual Public Meeting”**

There will be no live meeting or presentation; participants may view the virtual public meeting and comment at any time during the dates noted above.

Subject: TxDOT US 57 Interstate Corridor Feasibility Study – Virtual Public Meeting

Dear US 57 Corridor Stakeholders:

Thank you for your involvement in the US 57 Corridor Interstate Feasibility Study to date. As many of you are aware, our Virtual Public Meeting launched on October 13 and will remain open until 11:59 p.m. CST on October 28, 2022. **We ask that you please share this information with your communities and organizations, including posting on social media, as collecting public input is the primary objective of this meeting.** The Virtual Public Meeting can be found online here as both a video presentation and link to an interactive site: <https://www.txdot.gov/projects/hearings-meetings/statewide/us-57-corridor.html>

Written comments may be submitted electronically through the Virtual Public Meeting website, by email to Paul.Truban1@TxDOT.gov, or by mail to TxDOT at 6230 E. Stassney Lane, Austin, TX 78744 [Attention: Paul Truban (TPP Division)]. Verbal comments may be submitted by leaving a voicemail at (956) 508-3580. All comments must be submitted by October 28, 2022, to be included in the final study report.

We look forward to your continued participation regarding the US 57 Corridor. Please let us know if you have any questions.

Catherine Pearl Castaneda

You should also consider Hwy 277. With all the immigrants crossing in the Normandy-Quemado area, the Hwy is full of buses and Border Patrol vehicles that is added to the normal truck traffic. Highway is overloaded and a safety is a concern.

Please leave your comment.

It is great work and presentation But to add to this is the finished leg or extension needed on Loop 480 from HWY 57 to HWY 277 North to increase the flow of semi tractor trailers in and out of Eagle Pass This will elevate congestion in town and also congestion coming from the two international bridges when a semi trailer breaks down in town Also on another note to better the 57 corridor is the 57 Border Patrol checkpoint which is a big problem during the holidays.

If this goes thru. And if I understood the study correctly. Hwy 57 in 10 years will go around La Pryor and Batesville . I believe that would hurt the only two towns between eagle pass and 35. People stop in both towns for snacks , food and restroom. Many people cannot hold to go to the restroom till they reach 35 intersection. Assuming I understood the video correctly. I and many other businesses would Not want Hwy 57 to go around La Pryor or Batesville. Rather that improvements be solely made only on the existing Hwy 57 in a way that all businesses in La Pryor and Batesville can continue to serve customers Thank you for your time Jose Luevano The Ice Box Store Family owned Since 1968

Hwy. 57 is a solution to bring aid to the traffic congestion issues in Laredo. Mexico has prioritized Hwy. 57 and will be making sizeable improvements that will increase traffic on the Piedras Negras and Eagle Pass border. We must do the work now to get ahead of the game. A 4 lane divided highway has been in need for years and will help reduce the traffic accidents and fatalities which the study showed is 3x as much as the rest of Texas.

Hwy 57 is a heavily trafficked Hwy that stretches 98 miles fro the border to i35 Along the way there some dangerous curves and blind spots. The Hwy is dotted with memorial to loved ones that have died on the Hwy. It's time to expand the HWY for both commercial and safety purposes.

I believe that improvements to the Highway 57 Corridor would benefit Maverick county, improving the safety of travelers and making the Eagle Pass/Piedras Negras border a better option for transit, relieving some of that traffic from Laredo. A significant investment in this stretch of Highway 57 will have a positive financial impact on Maverick County and the City of Eagle Pass residents.

The need to have a permanent US Border patrol inspection station. I can't believe the theirs on on highway 90 between Bracketville Tx and Uvalde and they have less traffic then the one lane inspection station on highway 57. Also they need to complete highway 57 pass 1021 and connect to loop 480 by the river so the holidays traffic won't block the Eagle Pass street when the out of towners travel to México. Connecting 57 all they way to 480 would be for no comercial traffic while 480 would be the truck route to and from México.

HWY 57 Corridor

We are Maverick Holdings, LLC owners of Mavala Ranch 17 miles west of La Pryor just inside Maverick County. Address is [REDACTED]

We prefer 4 lane non divided highway corridor. Our entrance gate and part of our property has highway frontage along with a critical water well that services our ranch in many ways. Water is critical in Maverick County. We would lose property and our water well if divided 4 lane was chosen. An interstate designated is not feasible nor justified. Thanks for your interest.

Robert and Risa Parker, owners Mavala Ranch

1	10/14/2022	Online Comment Form	Roberto H Tarin	It is great work and presentation But to add to this is the finished leg or extension needed on Loop 480 from HWY 57 to HWY 277 North to increase the flow of semi tractor trailers in and out of Eagle Pass This will elevate congestion in town and also congestion coming from the two international bridges when a semi trailer breaks down in town Also on another note to better the 57 corridor is the 57 Border Patrol checkpoint which is a big problem during the holidays	TxDOT has received your comment and appreciates your participation in the US 57 Corridor Interstate Feasibility Study. Your input will be considered in the final report. Border patrol inspection stations were not evaluated as part of this study but will be included should the project progress. State Loop 480 is also a top priority project for the TxDOT Laredo District. TxDOT advanced this project with right-of-way (ROW) acquisition, environmental clearance, utility relocations, and design. Once funding is allocated, it will advance to construction advertisement.
2	10/17/2022	Email	Jose Luevano	If this goes thru. And if I understood the study correctly. Hwy 57 in 10 years will go around La Pryor and Batesville . 11	10/21/2022	Email	David Morris	HWY 57 Corridor We are Tecomate Properties, the game manager and business partner of Maverick Holdings, LLC, which owns Mavala Ranch 17 miles west of La Pryor just inside Maverick County. [REDACTED] We strongly prefer a 4-lane non-divided highway corridor. Part of our 2,150-acre ranch has highway frontage where our gate is located. More importantly, we have a critical high-volume water well, two 30-foot water tanks, and associated infrastructure immediately adjacent to Hwy. 57. The water produced here serves two 30-acre irrigation pivots, the lodge and headquarters, and about a dozen waterpoints and small ponds for wildlife and fishing throughout the ranch. Water is particularly critical in Maverick County since much of the county does not have obtainable ground water. We would not only lose some of our property, but we would lose our water well, the life blood of the ranch, if a divided 4-lane is chosen. An interstate designate is not feasible nor justified. Thank you for your consideration. David Morris with Tecomate Properties, game manager and business partner of Mavala Ranch, [REDACTED]	TxDOT has received your comment and appreciates your participation in the US 57 Corridor Interstate Feasibility Study. Your input will be considered in the final report. Right-of-way needs will be determined at the next stage of project development when schematic and environmental are developed. Existing lanes and right-of-way will be utilized to the extent possible to minimize potential impacts to property, as well as constraints and resources identified in the next phase of design. D2 Survey Responses

US 57 Corridor Virtual Public Meeting: Survey Summary

Question	Response
1. Which of the following describes you? Please check all that apply.	I am an interested commuter
2. What is your name?	Jackson Hurst
3. Address	
4. City, State, Zip Code	
5. Would you like to subscribe to email updates about the study?	Yes
6. Email Address	
7. What challenges, if any, do you experience along US 57?	
8. Please rank the following priorities regarding our evaluation of US 57, bringing your highest priority to the top of the list.	N/A
8a. Improve east/west connectivity	1
8b. Support freight demand	2
8c. Enhance safety	4
8d. Support future economic growth	3
8e. Other priority	
9. What other priorities should we consider when evaluating US 57?	
10a. Please indicate your level of support for safety improvements to US 57 (center barrier, signs, striping, lighting), with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.	5
10b. Please indicate your level of support for intersection, signalization, and grade separation (underpass or overpass) improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.	5
10c. Please indicate your level of support for roadway widening improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.	5
10d. Please indicate your level of support for alternate freight route improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.	5
11. In which locations would these improvements be most helpful?	
12. Please rank the following corridor-wide improvement options to US 57, bringing your highest priority to the top of the list.	N/A
12a. Four-lane undivided highway (two lanes of traffic in either direction)	3
12b. Four-lane divided highway (two lanes of traffic in either direction separated by an interior median and inner shoulders to enhance safety)	2
12c. Interstate with frontage roads (two lanes of uninterrupted traffic in either direction with two-lane frontage roads in either direction)	1
12d. No improvements	4
12e. Other	
13. Do you have any additional comments?

US 57 Corridor Interstate Feasibility Study Overview

Approximately 100 miles

**Eagle Pass
Port of Entry**

2 Bridge Crossings
+ Rail Crossing

2

TxDOT Districts

3

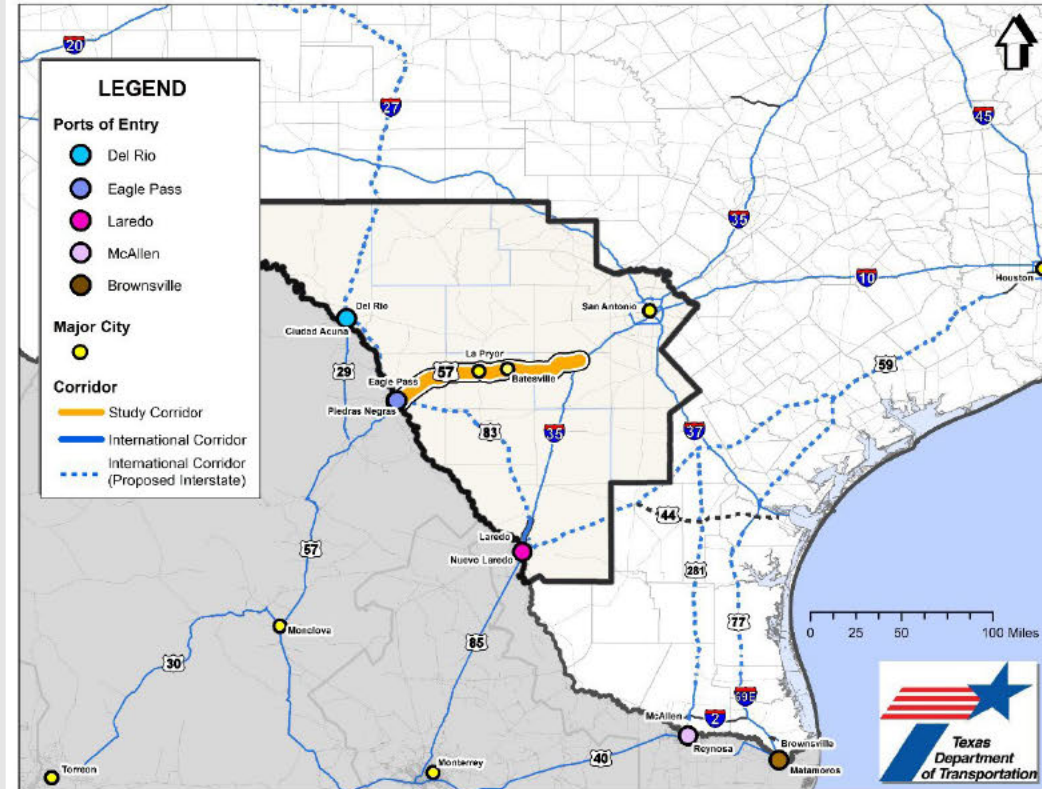

Counties

3

Cities

Source: TxDOT Open Data Portal, 2022

**STUDY
PURPOSE:**
Evaluate the
feasibility of
upgrading
US 57 as an
interstate
highway

THE STUDY IS ASSESSING HOW TO:

- Improve east/west connectivity and capacity while considering local and regional transportation plans
- Enhance corridor safety
- Align with the Texas Freight Mobility Plan, Border Transportation Master Plan, and Strategic Highway Safety Plan
- Support border and community development plans, as well as economic opportunities

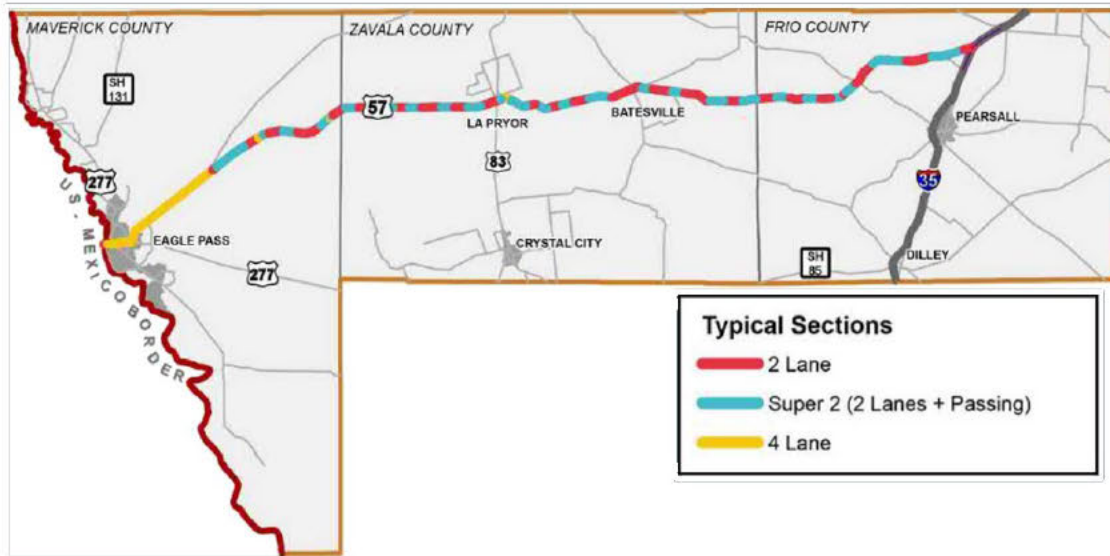

SOME OF THE REASONS TXDOT IS CONDUCTING THE STUDY INCLUDE:

- US 57 serves the Eagle Pass Port of Entry, an international trade gateway that supports heavy freight flow-reaching regions of Texas, the United States, and into Canada
- The border region population grew 70%, from 4.37M to 7.45M, and employment grew 97%, from 1.49M to 2.93M, from 1990 to 2019
- US 57 serves major industries and is expected by local leaders to attract future economic opportunities
- Select sections of US 57 in the study area have a crash rate of three times the statewide average
- The Eagle Pass Port of Entry ranks eighth nationally based on border crossings by value, with \$34 billion dollars moving through in 2021. However, there is no direct connection from the Eagle Pass Port of Entry to an interstate, which is a limiting factor for growth in the Eagle Pass area and US 57 corridor.

Existing Conditions

Most of the corridor is a two-lane roadway with and without a passing lane

State Loop 480 currently serves as a two-lane freight relief route south of Eagle Pass

DATA & ANALYSIS

Population, employment, and international trade growth projections

Current and future freight movement

Key industries served along corridor

Current and future traffic flow and congestion

Safety analysis including crash data for privately-owned and commercial motor vehicles, pedestrians, and cyclists

Safety corridor-wide

- From January 2017 to July 2022, there were **27** fatalities on US 57
- The majority (**89%**) of fatal crashes occurred along **two-lane** sections of the corridor

Safety in Eagle Pass

- **3x** the statewide average crash rate*
- **2/3** of crashes on the corridor occurred in Eagle Pass, including **all 8** pedestrian and cyclist-related crashes

*2017- July 2022 TxDOT Crash Records Information System (CRIS) Data
Compared to statewide average crash rate for a rural US highway reported in
crashes per 100 million vehicle miles traveled.

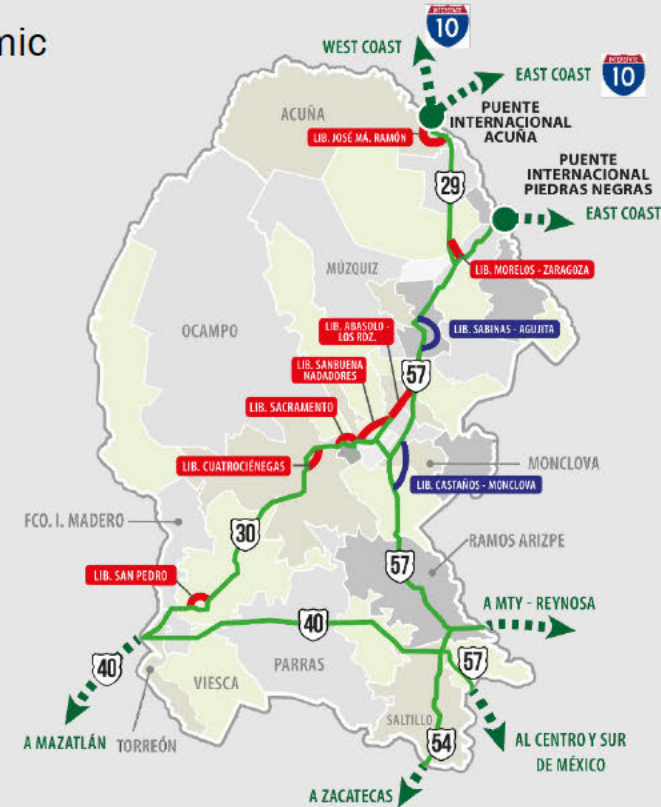

Highlights from Visit to Coahuila, Mexico

- The Texas-Mexico border is critical for the prosperity and economic competitiveness of both countries
- Eagle Pass POE complements other Ports of Entry, such as the Laredo POE, providing a resilient system
- Cross-border trade has increased, and is expected to continue growing due to plans for mega-industrial developments

\$270M PLEDGED INVESTMENT BY COAHUILA

- Plans to build six State Loops along Federal Highways 57 and 30 from Torreón to the border
- Expansion of freight bridge at Piedras Negras from 6 to 12 lanes

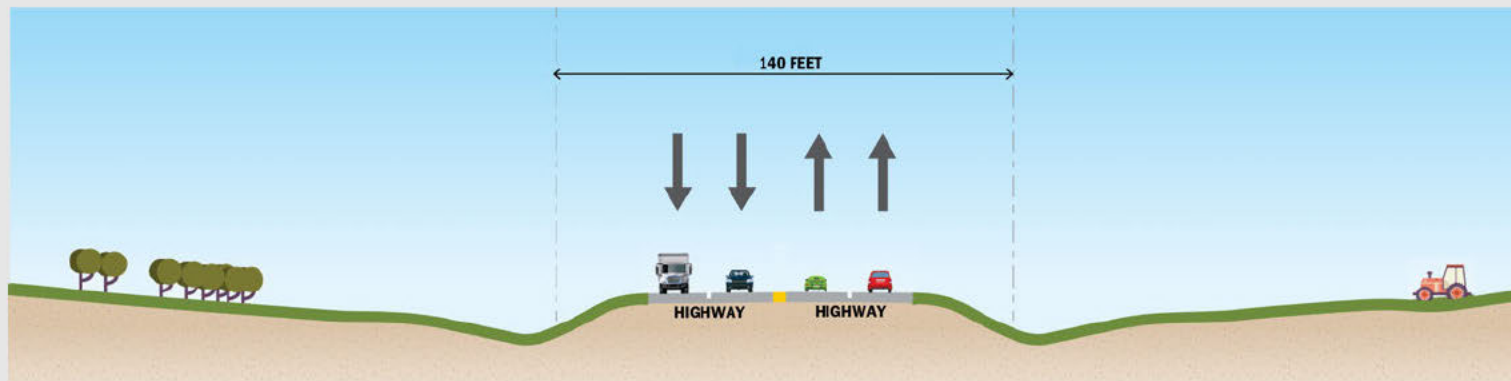

STUDY FINDINGS & RECOMMENDATIONS

The following improvement options were evaluated for the US 57 Corridor east of Loop 480 in Eagle Pass to the I-35 junction in Moore:

- Expanding the corridor to a **four-lane undivided** highway
- Expanding the corridor to a **four-lane divided** highway
- Expanding the corridor to a **four-lane interstate** with two-lane frontage roads in either direction

Improvement Option: Four-Lane Undivided Highway (\$420M)

Maintains driveway access to local businesses and residences

Requires **additional right-of-way**, though **less than an interstate**

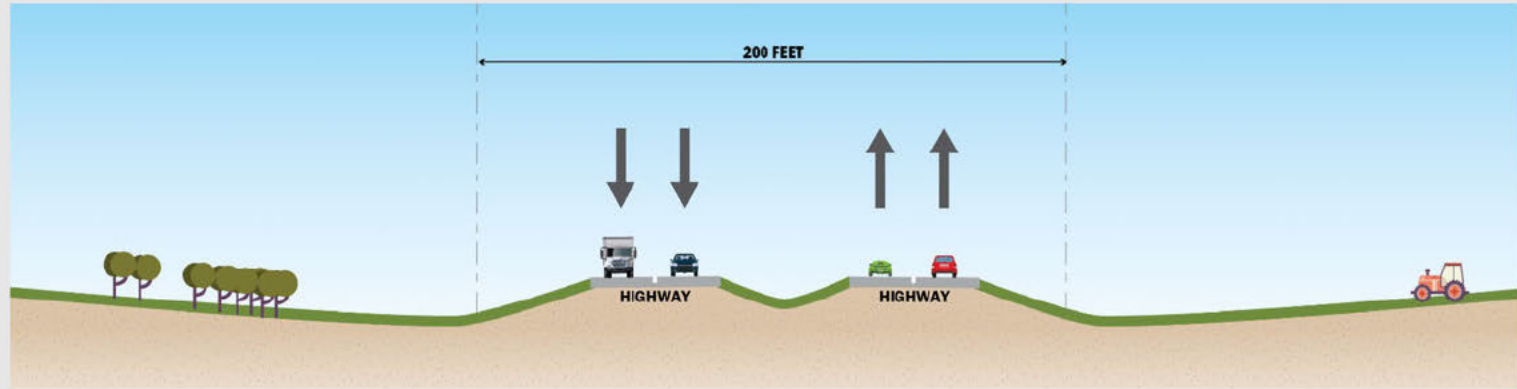

Maintains at-grade intersections with other roadways

Does not expand shoulders or increase separation of traffic in either direction

Improvement Option: Four-Lane Divided Highway (\$510M)

Maintains driveway access to local businesses and residences

Requires **additional right-of-way**, though **less than an interstate**

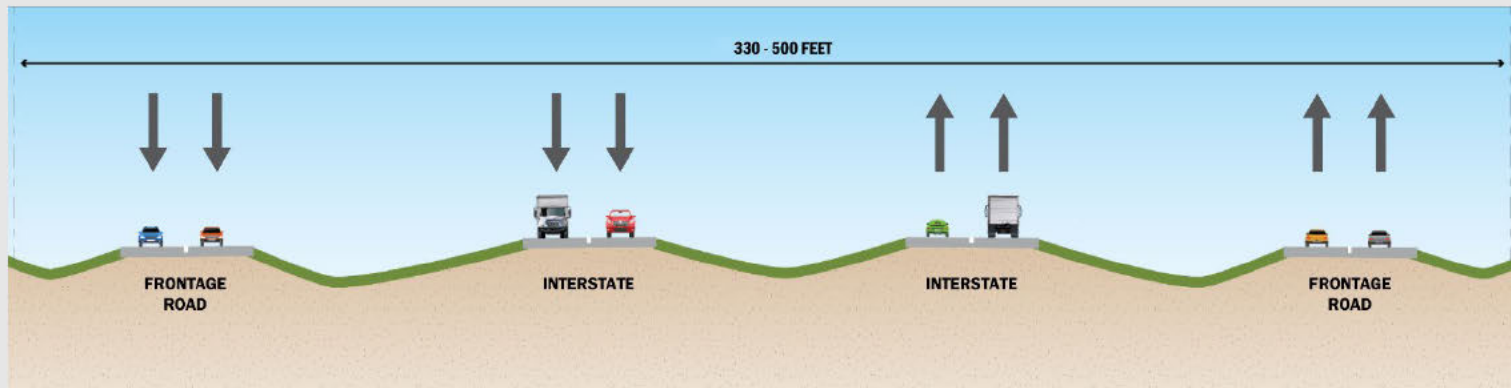

Maintains **at-grade intersections** with other roadways

Provides **additional inside shoulders** for both directions of traffic

Improvement Option: Interstate with Frontage Roads (\$2B)

Two additional mainlanes and four lanes of frontage roads to increase capacity for anticipated trade growth

No driveways connecting to mainlanes

No stop signs or traffic signals on mainlanes

Traffic would flow uninterrupted from one end of the highway to the other. To accomplish this, **overpasses would be necessary**

Option	Four-Lane Undivided Highway	Four-Lane Divided Highway	Interstate with Frontage Roads
Cost	\$420 million	\$510 million	\$2 billion
Benefit-Cost Ratio	1.12	1.30	0.40
Safety & Capacity Benefits	Improves capacity by adding two lanes	- Improves capacity by adding two lanes - Improves safety by separating directions of traffic and adding inner shoulders	- Improves capacity by adding six lanes - Improves safety by separating directions of traffic and adding inner shoulders

Based on the study data analysis, the US 57 Corridor **does not currently meet the criteria to upgrade to an interstate**. However, the US 57 Corridor should be improved for the following reasons:

There are **safety incidents** along the corridor, with 89% of fatalities occurring on two-lane sections of the corridor and areas in Eagle Pass with a crash rate 3x the statewide average

Freight connectivity is currently limited between the Eagle Pass Port of Entry and major interstates, and providing a **redundant route for freight traffic** would strengthen supply chains and help relieve traffic at other Ports of Entry

Future population, employment, and trade growth will need to be accommodated

To better promote **international trade and improvements** to related infrastructure, especially as more manufacturers relocate operations closer to home due to shifts in the global supply chain, as well as support **economic development** in both the United States and Mexico

Making improvements to the corridor **aligns with other regional planning efforts**, including the 2023 Texas Freight Mobility Plan and Texas-Mexico Border Transportation Master Plan 2021

- Plan and implement **short-term spot improvements within the City of Eagle Pass** to improve safety and connectivity
- Develop a segmented and phased implementation plan for a **Four-Lane Divided Highway** east of SL 480 to the I-35 junction, that will:
 - Facilitate reuse of existing lanes, where possible, to reduce cost
 - Enhance safety and operations
 - Improve connectivity, freight mobility, and economic vitality
 - Consider potential freight relief routes around La Pryor and Batesville
 - Minimize impact to adjacent properties
 - **Serve as a logical progression towards an interstate-level freeway**

SHORT-TERM (0-5 YEARS)

Safety / Operational Improvements	Within the City of Eagle Pass, \$1M
Intersection Improvements (Turn Pockets)	Within the City of Eagle Pass, \$10M
Traffic Signal	At US 57/US 83 in the City of La Pryor, \$400,000

PROPOSITO DEL ESTUDIO:

Evaluar la viabilidad de mejorar el corredor US 57 como una carretera interestatal

EL ESTUDIO EVALUA CÓMO:

- Mejorar la conectividad y la capacidad este/oeste tomando en cuenta también los planes de transporte locales y regionales
Mejorar la seguridad del corredor
- Mejorar la seguridad en el corredor
- Alinearse con el Plan de Movilidad de Carga de Texas, el Plan Maestro de Transporte Fronterizo, y el Plan Estratégico de Seguridad Vial
- Apoyar los planes de desarrollo fronterizo y comunitario, así como las oportunidades económicas

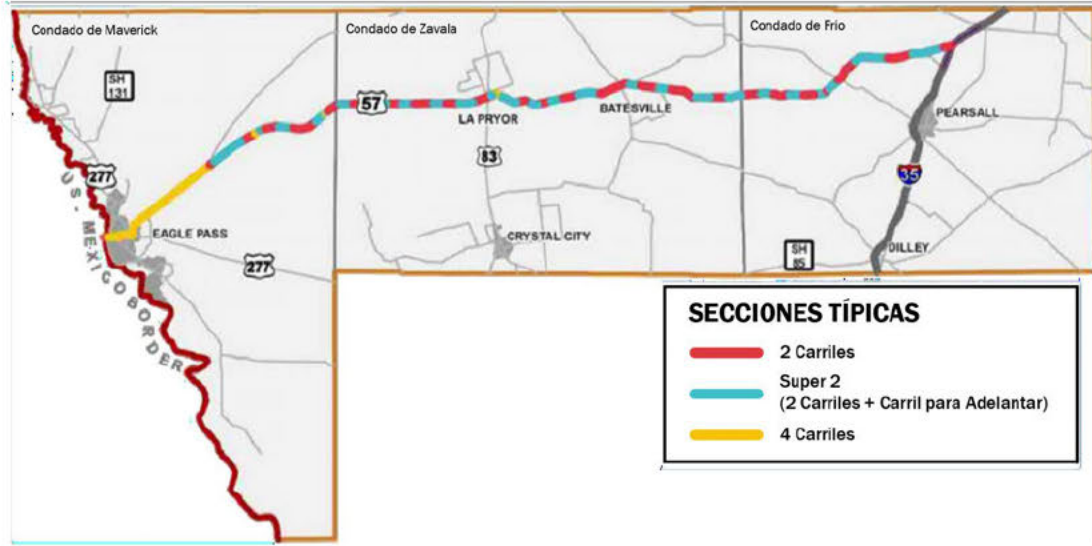

MOTIVOS DEL ESTUDIO:

- El corredor US 57 conecta el puerto de Eagle Pass, el cual es una vía importante para el flujo comercial internacional hacia diversos puntos en Texas, el resto de Estados Unidos, y Canada
- De 1990 a 2019, la población de la región fronteriza creció de 4.37 millones de habitantes a 7.45 millones de habitantes, lo que representa un aumento del 70% y, el empleo creció de 1.49 millones de empleos a 2.93 millones lo que equivale a un aumento del 97%
- El corredor US 57 sirve a las principales industrias y los líderes locales esperan que atraiga futuras oportunidades de desarrollo económico
- Algunos tramos del estudio sobre el corredor US 57, tienen un índice de accidentes de 3 veces mayor al promedio estatal
- El puerto de Eagle Pass ocupa el octavo lugar a nivel nacional, según los cruces fronterizos clasificados por valor, con \$34 mil millones de dólares en 2021. Sin embargo, no hay conexión directa desde el puerto de entrada a una carretera interestatal, lo cual es un factor limitante para el crecimiento en el área de Eagle Pass y el corredor US 57.

La mayor parte del corredor es una carretera de dos carriles con y sin un carril para rebasar

La carretera State Loop 480 actualmente sirve como una ruta de alivio de carga de dos carriles al sur de Eagle Pass

Seguridad en el Corredor

- De Enero 2017 a Julio 2022, hubo **27** muertes en el corredor US 57
- La mayoría (**89%**) de los choques mortales ocurrieron a lo largo de secciones de **dos carriles** del corredor

Seguridad en Eagle Pass

- 3x** la tasa de choques promedio en todo el estado*
- 2/3** de los choques en el corredor ocurrieron en Eagle Pass, incluyendo los **8** relacionados con peatones y ciclistas

***Datos del Sistema de Información de Registros de choques (CRIS) TxDOT 2017-2021**

En comparación con el índice promedio de choques en todo el estado para una carretera rural de los Estados Unidos reportada en choques por cada 100 millones de millas recorridas por vehículos.

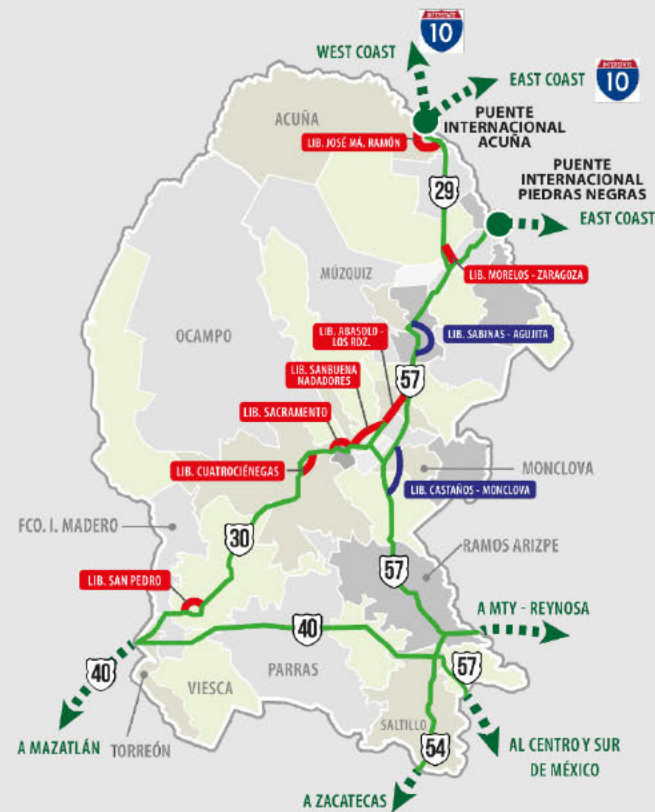

Aspectos Destacados de la Visita a Coahuila, México

- La frontera Texas-México es importante para la prosperidad y competitividad económica de ambos países
- El Puerto de Entrada (PDE) de Eagle Pass complementa otros puertos de entrada, como el PDE de Laredo, proporcionando un sistema resiliente
- El comercio transfronterizo ha aumentado y se espera que siga creciendo debido a los planes de desarrollo industrial

\$270M DE INVERSIÓN PROMETIDA POR COAHUILA

- Planes para construir seis carreteras en circuito estatales a lo largo de las carreteras federales 57 y 30 desde Torreón hasta la frontera
- Ampliación de puente de carga en Piedras Negras de 6 a 12 carriles

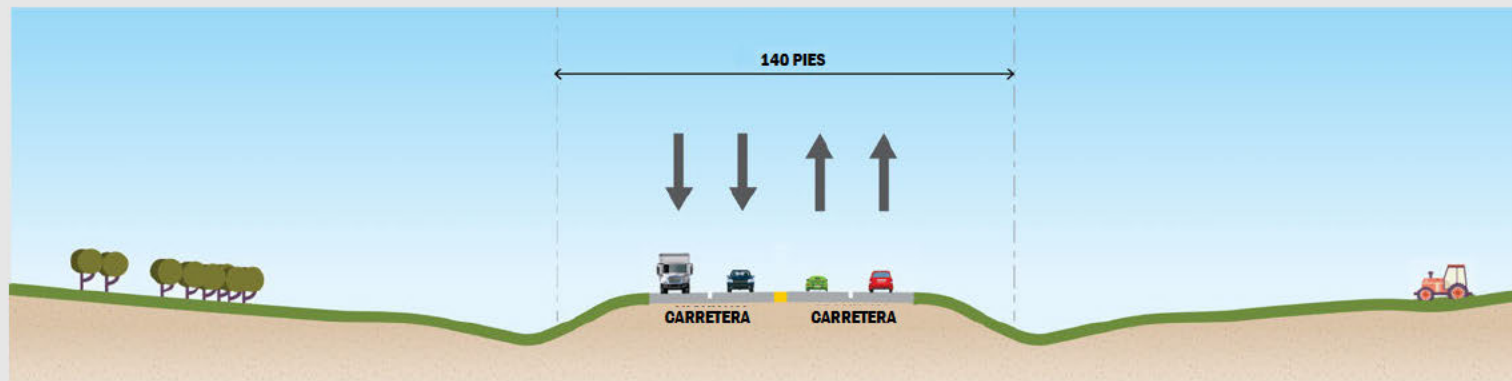

HALLAZGOS & RECOMENDACIONES

Las siguientes opciones se evaluaron para mejorar el corredor US 57 al este de la carretera Loop 480 en Eagle Pass hasta el cruce de la carretera I-35 en Moore:

- Ampliar el corredor a una carretera **no dividida de cuatro carriles**
- Ampliar el corredor a una carretera **dividida de cuatro carriles**
- Expandir el corredor a una **carretera interestatal de cuatro carriles** con caminos laterales de dos carriles en cualquier dirección

Opción de Mejora: Autopista No Dividida de Cuatro Carriles (\$420M)

Mantiene el acceso a negocios y residencias locales

Requiere **derecho de paso adicional**, aunque **menos que una carretera interestatal**

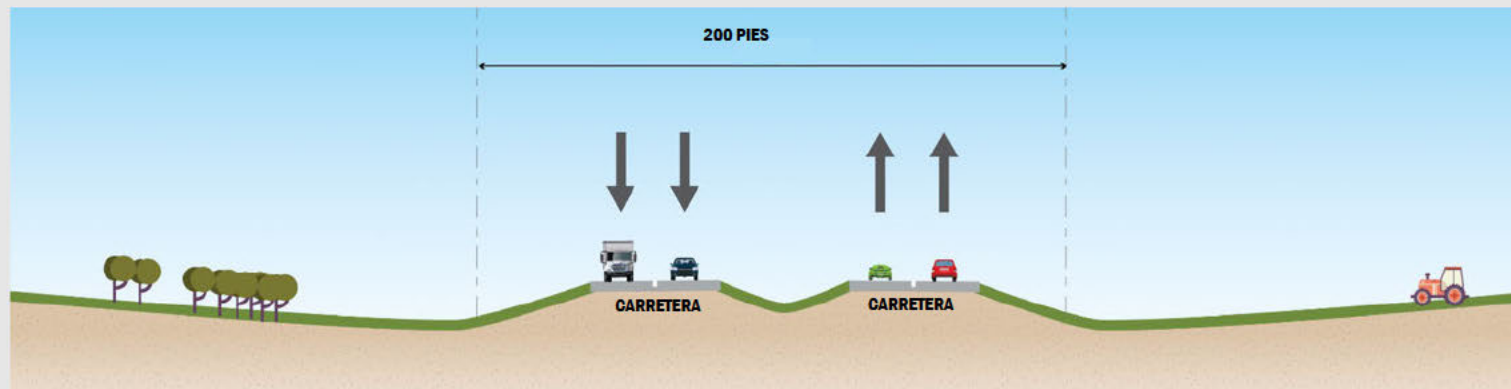

Mantiene las intersecciones a nivel con otras carreteras

No expande carriles laterales o aumenta la separación del tráfico en cualquier dirección

Opción de Mejora: Autopista Dividida en Cuatro Carriles (\$510M)

Mantiene el acceso a los negocios y residencias locales

Mantiene las intersecciones a nivel con otras carreteras

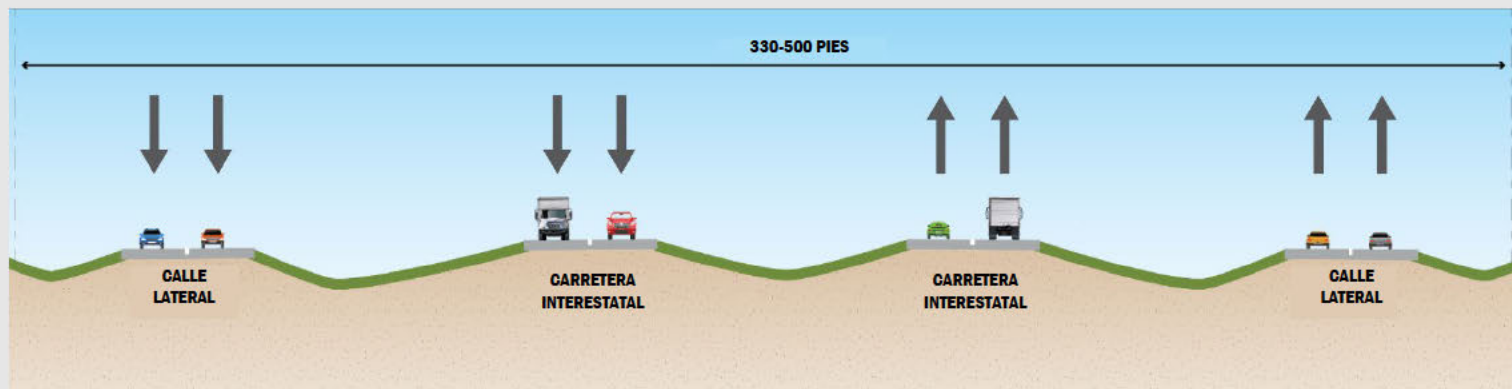

Requiere **derecho de paso adicional**, aunque **menos que una carretera interestatal**

Proporciona **carriles laterales adicionales** para ambas direcciones de tráfico

Opción de Mejora: Interestatal con Caminos Secundarios (\$2B)

Dos carriles principales adicionales y cuatro carriles de carreteras secundarias para aumentar la capacidad para el crecimiento comercial anticipado

No hay accesos que conecten a los carriles principales

No hay altos o semáforos en los carriles principales

El tráfico fluiría sin interrupciones de un extremo a otro de la carretera. Para ello, **serían necesarios pasos elevados**

Opción	Autopista No Dividida de Cuatro Carriles	Autopista Dividida de Cuatro Carriles	Interestatal con Caminos Secundarios
Costo	\$420 millones	\$510 millones	\$2 mil millones
Proporción Beneficio-Costo	1.12	1.30	0.40
Beneficios de Seguridad & Capacidad	Mejora la capacidad al agregar dos carriles	- Mejora la capacidad al agregar dos carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos	- Mejora la capacidad al agregar seis carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos

En base a los datos que ha recopilado TxDOT, el corredor US 57 **no cumple con los criterios para mejorar a una carretera interestatal**. Sin embargo, el corredor US 57 debe mejorarse por las siguientes razones:

Hay **incidentes de seguridad** a lo largo del corredor, con el 89 % de los choques mortales ocurriendo en secciones de dos carriles del corredor y áreas en Eagle Pass con una tasa de choques 3 veces mayor al promedio estatal

La conectividad de carga actualmente está limitada entre el puerto de entrada de Eagle Pass y las principales carreteras interestatales, y **proporcionar una ruta adicional para el tráfico de carga** fortalecería las cadenas de suministro y ayudaría a aliviar el tráfico en otros puertos de entrada

Será necesario acomodar el **crecimiento futuro de la población, el empleo y el comercio**

Para promover mejor el **comercio internacional y las mejoras** a la infraestructura relacionada, especialmente a medida que más fabricantes trasladan sus operaciones más cerca de casa debido a los cambios en la cadena de suministro global, así como apoyar el **desarrollo económico** tanto en los Estados Unidos como en México.

Hacer mejoras en el corredor se **alinea con otros esfuerzos de planificación regional**, incluido el Plan de Movilidad de Carga de Texas 2023 y el Plan Maestro de Transporte Fronterizo Texas-México 2021

- Planificar e implementar **mejoras a corto plazo dentro de la ciudad de Eagle Pass** para mejorar la seguridad y la conectividad
- Desarrollar un plan de implementación segmentado y por etapas para una **autopista dividida de cuatro carriles** al este de la carretera State Loop 480 hasta el cruce de la I-35, que:
 - Facilite la reutilización de los carriles existentes, cuando sea posible, para reducir costos
 - Mejore la seguridad y operatividad
 - Mejorar la conectividad, la movilidad de carga y economía
 - Considere posibles rutas de alivio para carga alrededor de La Pryor y Batesville
 - Minimice el impacto en las propiedades adyacentes
 - **Servir como una progresión lógica hacia una autopista a nivel interestatal**

CORTO PLAZO (0-5 AÑOS)

Seguridad / Mejoras operativas	Dentro de la ciudad de Eagle Pass, \$1M
Mejoras en intersecciones (Espacio de Giro)	Dentro de la ciudad de Eagle Pass, \$10M

From Eagle Pass International Bridge to I-35
CORRIDOR INTERSTATE FEASIBILITY STUDY

Virtual Public Meeting

October 13 to October 28, 2022

Slide 1:

Hello and welcome to the Virtual Public Meeting for the US 57 Corridor Interstate Feasibility Study from the Eagle Pass International Bridge on the Texas-Mexico border to the Interstate 35 (I-35) junction in Moore, Texas.

The Texas Department of Transportation, also called TxDOT, appreciates your interest in this study and thanks you for your participation. TxDOT is hosting this Virtual Public Meeting and concurrent public comment period from October 13 to October 28 of 2022 to share study data and gather your feedback on our recommendations.

All information can be found on [txdot.gov](https://www.txdot.gov) by searching the key phrase "US 57." This presentation is about 12 and a half minutes long. We suggest pausing if you need more time to observe the content on a slide.

HELP #EndTheStreakTX

End the streak of daily deaths on Texas roadways.

TxDOT.gov (Keyword: #EndTheStreakTX)

#EndTheStreakTX Toolkit

Slide 2:

Before we provide study details, let's take a moment to acknowledge that Texas hasn't experienced a single deathless day on its roads since November 7, 2001. More information about TxDOT's End the Streak Campaign can be found using the information on the slide.

US 57 Corridor Interstate Feasibility Study Overview

Approximately 100 miles

Eagle Pass Port of Entry

2 Bridge Crossings
+ Rail Crossing

2

TxDOT Districts

3

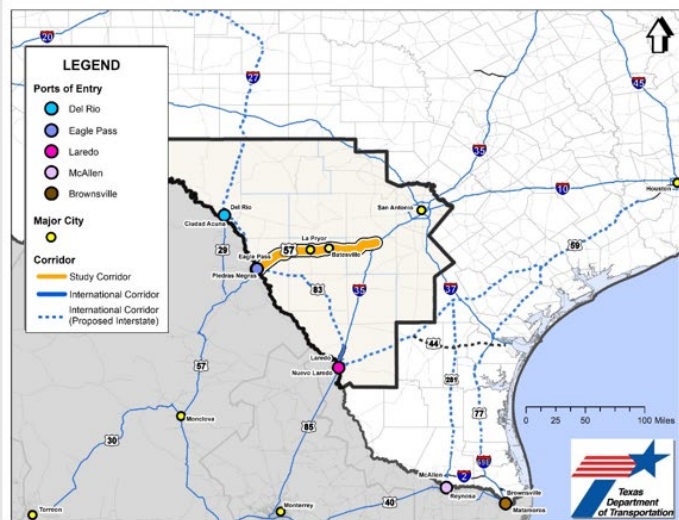

Counties

3

Cities

Source: TxDOT Open Data Portal, 2022

Slide 3:

The US 57 study corridor extends approximately 100 miles, from the Eagle Pass International Bridge on the Texas-Mexico border eastward to I-35 in Moore.

The corridor traverses the Laredo and San Antonio Districts for TxDOT. It runs through Maverick, Zavala, and Frio counties and the cities of Eagle Pass, La Pryor, and Batesville.

US 57 crosses US 277 in Eagle Pass, US 83 in La Pryor, Farm to Market 117 in Batesville, and I-35 in Moore.

There are 3 border crossings at the western end of the corridor in Eagle Pass.

STUDY PURPOSE:

Evaluate the
feasibility of
upgrading
US 57 as an
interstate
highway

THE STUDY IS ASSESSING HOW TO:

- Improve east/west connectivity and capacity while considering local and regional transportation plans
- Enhance corridor safety
- Align with the Texas Freight Mobility Plan, Border Transportation Master Plan, and Strategic Highway Safety Plan
- Support border and community development plans, as well as economic opportunities

Slide 4:

TxDOT is assessing the feasibility of upgrading US 57 as an interstate highway, as well as how to improve connectivity and capacity, enhance corridor safety, align with existing plans, and support future development and economic opportunities.

SOME OF THE REASONS TXDOT IS CONDUCTING THE STUDY INCLUDE:

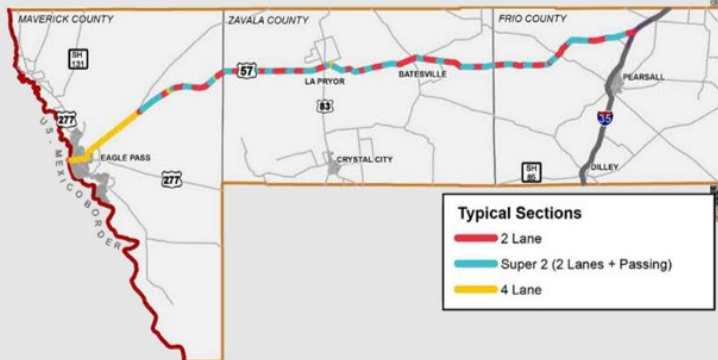

- US 57 serves the Eagle Pass Port of Entry, an international trade gateway that supports heavy freight flow-reaching regions of Texas, the United States, and into Canada
- The border region population grew 70% and employment grew 97% from 1990 to 2019
- US 57 serves major industries and is expected by local leaders to attract future economic opportunities
- Select sections of US 57 in the study area have a crash rate of three times the statewide average
- The Eagle Pass Port of Entry ranks eighth nationally based on border crossings by value, with \$34 billion dollars moving through in 2021. However, there is no direct connection from the Eagle Pass Port of Entry to an interstate, which is a limiting factor for growth in the Eagle Pass area and US 57 corridor.

Slide 5:

TxDOT is conducting the study for many reasons, including the corridor's significance to international trade, anticipated growth, and high crash rate in certain sections.

Existing Conditions

Most of the corridor is a two-lane roadway with and without a passing lane

State Loop 480 currently serves as a two-lane freight relief route south of Eagle Pass

Slide 6:

As shown on the map, the area in and near Eagle Pass is four lanes and the rest of the corridor is two lanes with and without a passing lane.

State Loop 480, which is a two-lane roadway, currently serves as a freight relief route south of Eagle Pass.

DATA & ANALYSIS

US 57 Corridor Interstate Feasibility Study

October 13 to October 28, 2022

7

Slide 7:

Let's move on to a high-level overview of the study data that was collected and analyzed.

Data Gathered

Population, employment, and international trade growth projections

Current and future freight movement

Key industries served along corridor

Current and future traffic flow and congestion

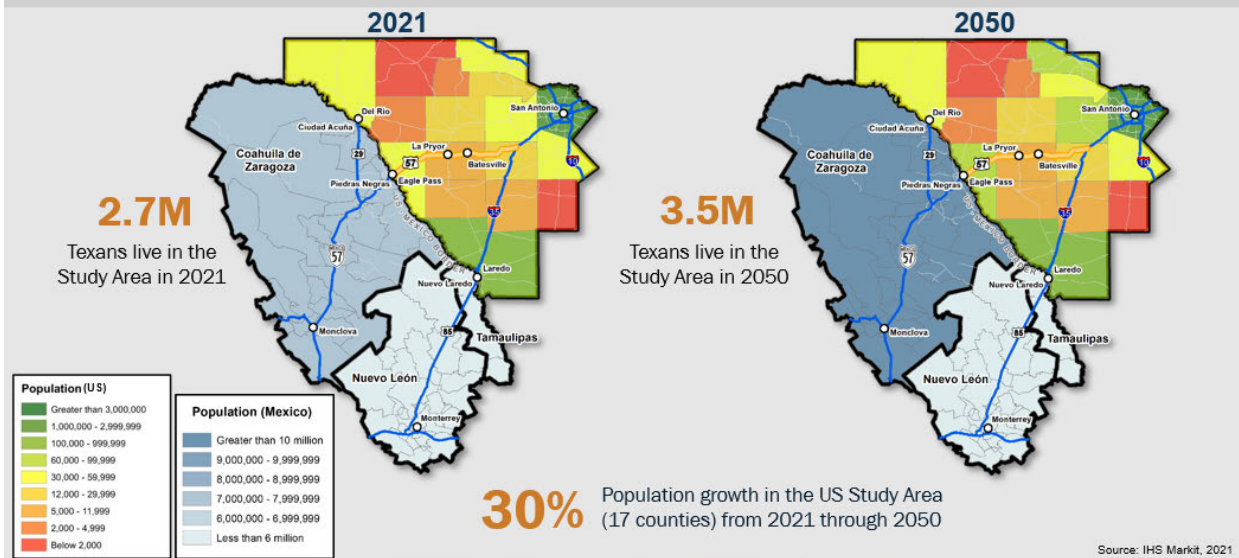

Safety analysis including crash data for privately-owned and commercial motor vehicles, pedestrians, and cyclists

Slide 8:

The study team collected a wide range of data for the study area including but not limited to:

- Growth projections
- Freight movement
- Key industries served along the corridor in both Texas and Mexico
- Traffic flow, and
- Safety analysis.

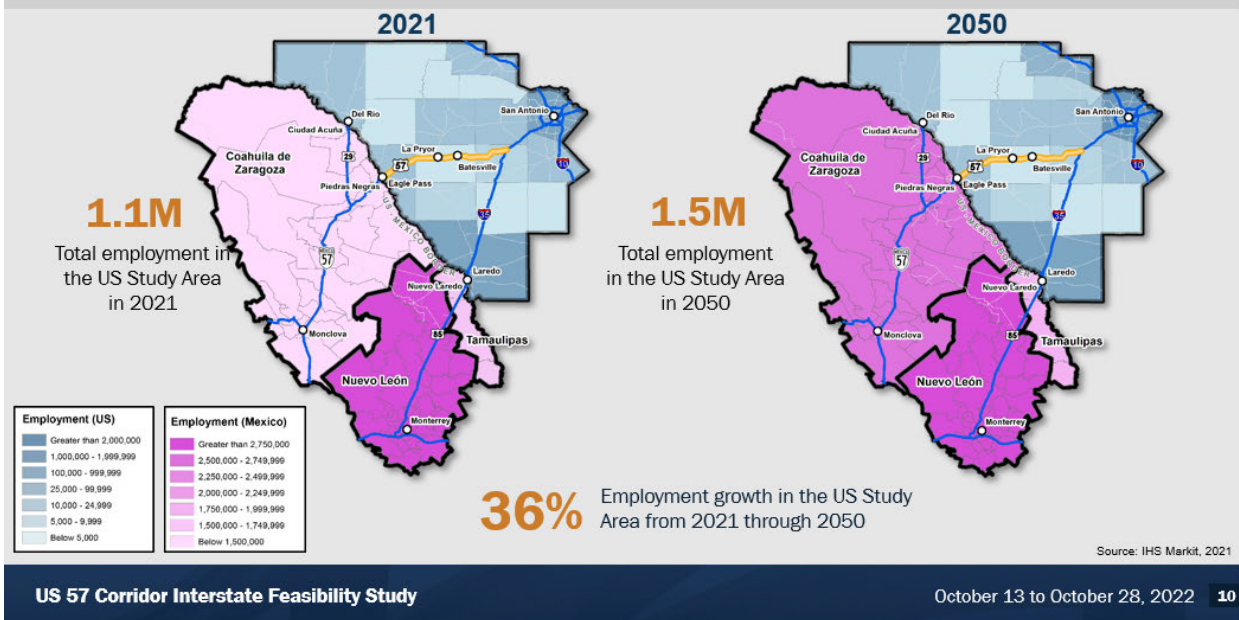

US 57 Corridor Population Trends: 2021 - 2050

Slide 9:

These maps show population trends from 2021 to 2050 in the study area. A 30 percent population growth is estimated over that time period.

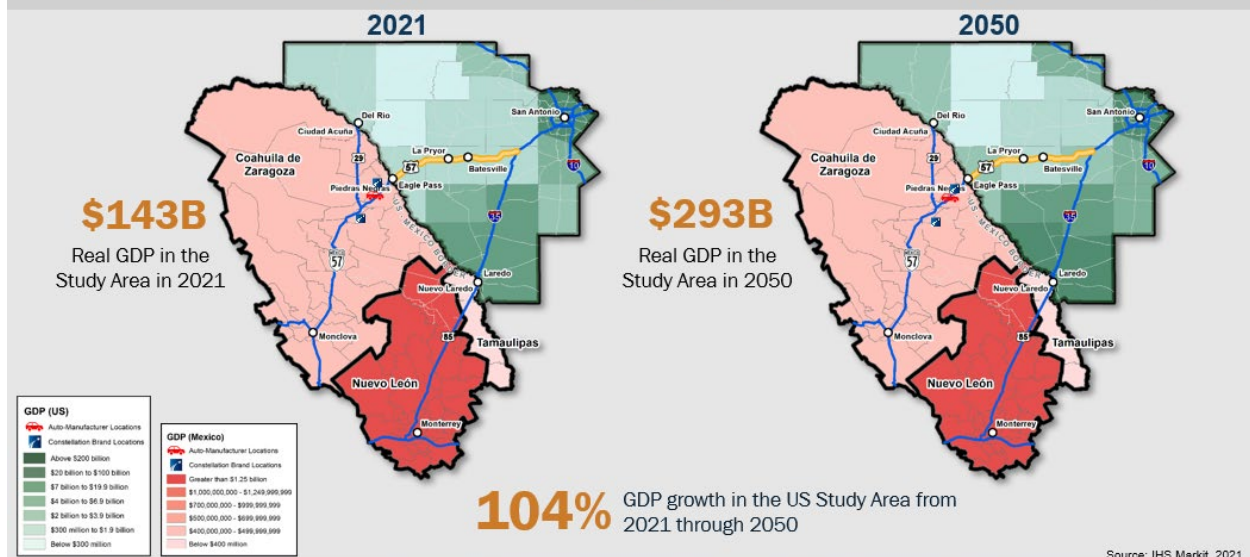

US 57 Corridor Employment Trends: 2021 - 2050

Slide 10:

A 36 percent employment growth is estimated from 2021 to 2050 in the study area.

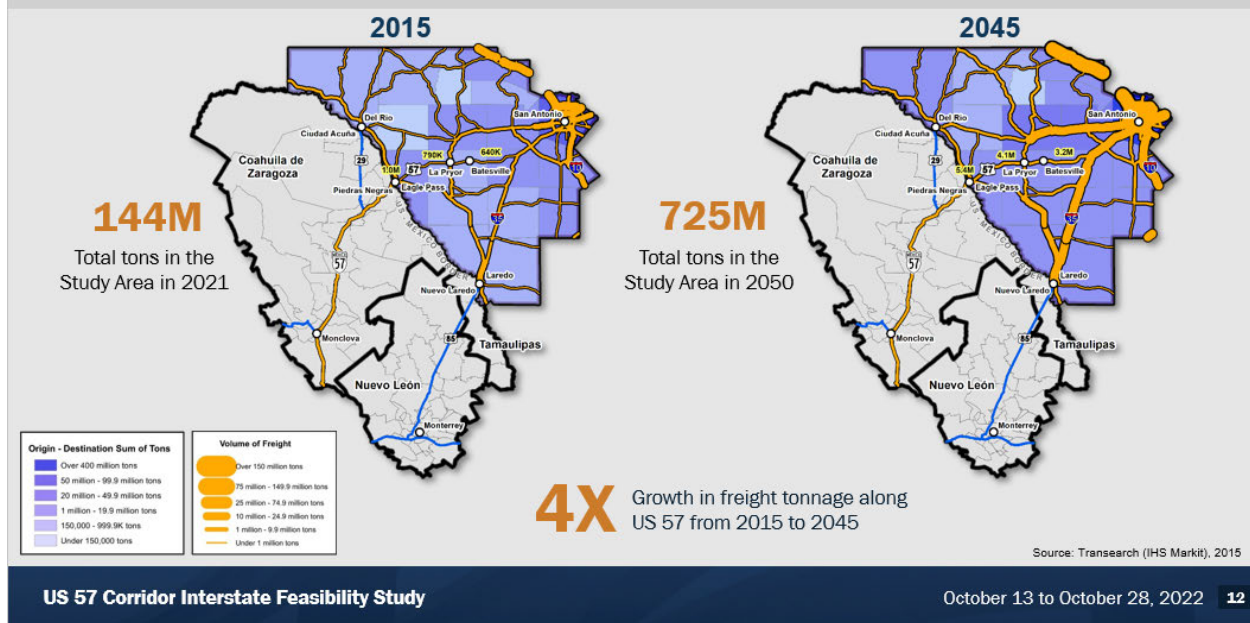

US 57 Corridor Gross Domestic Product (GDP) Trends: 2021 - 2050

Slide 11:

A 104 percent GDP growth is estimated from 2021 to 2050 in the study area.

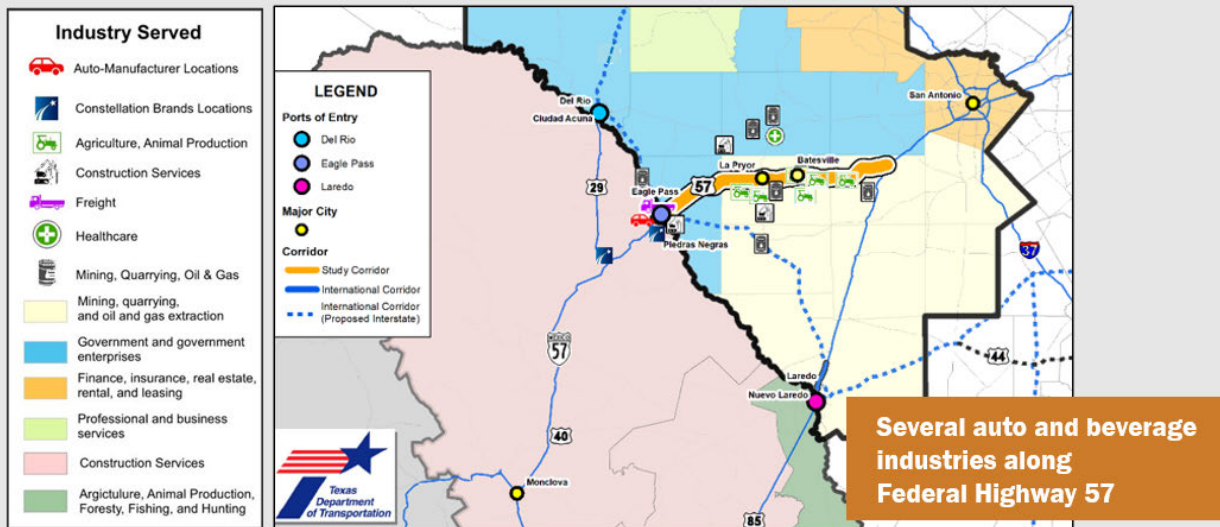

US 57 Corridor Freight Tonnage Trends: 2015 - 2045

Slide 12:

From 2015 to 2045, growth in freight tonnage along the US 57 Corridor is projected to quadruple.

US 57 Corridor: Industries Served

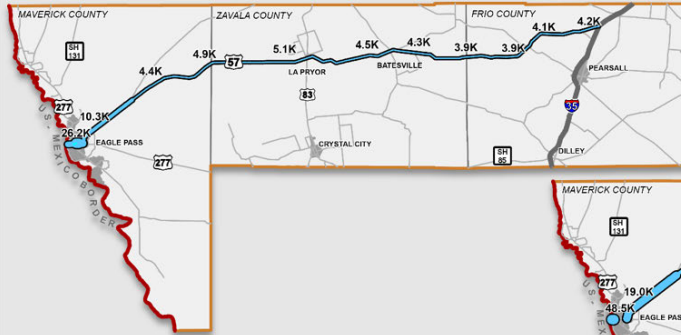

Slide 13:

This map shows major industries served in the study area. Several auto manufacturers and beverage industries are located along Federal Highway 57 corresponding to the top imports through the Eagle Pass Port of Entry.

Corridor Average Daily Traffic (All Vehicles)– 2019 - 2050

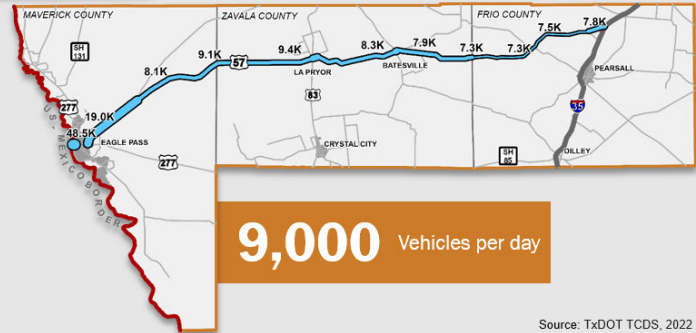

2019

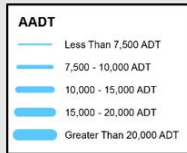

5,000 Vehicles per day

2050

9,000 Vehicles per day

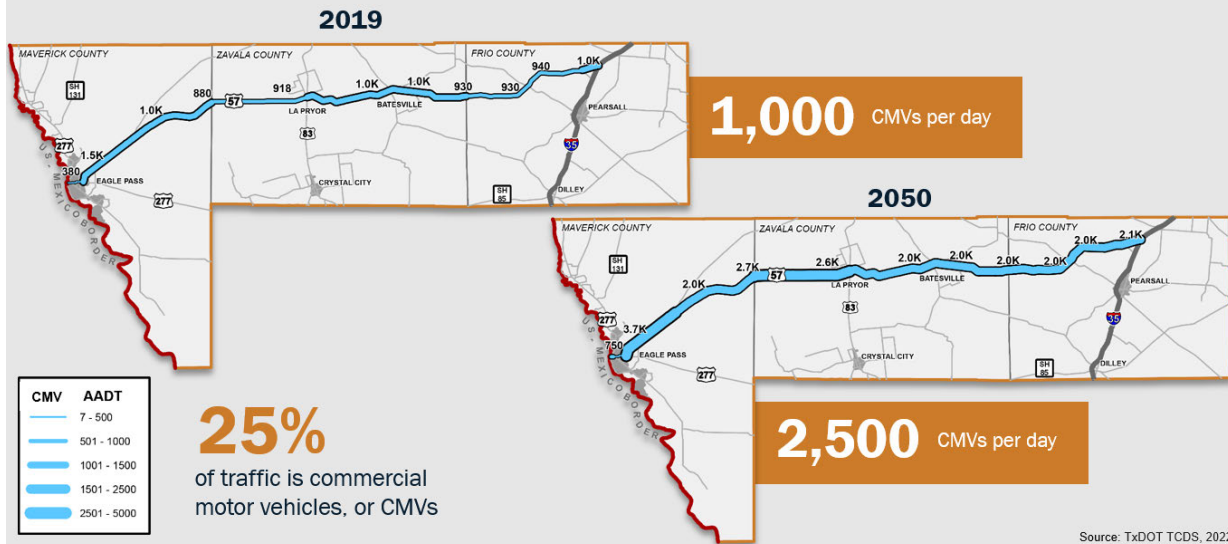

AADT = annual average daily traffic

Source: TxDOT TCDS, 2022

Slide 14:

US 57 currently carries about 5,000 vehicles per day and is anticipated to carry about 9,000 vehicles per day in 2050.

Corridor Average Daily Traffic (CMV Only) – 2019 - 2050

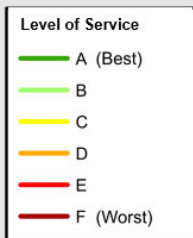

Slide 15:

Commercial motor vehicles constitute 25 percent of all vehicles along US 57, which is higher than a typical CMV percentage for similar facilities.

Corridor Existing and Future Levels of Service (LOS) – 2019 vs 2050

Level of Service
measures the quality of motor vehicle traffic service based on performance measures like travel delay, density, and congestion

Source: Highway Capacity Manual

Slide 16:

The data shows acceptable existing and future traffic level of service along the majority of US 57. There are a few locations within Eagle Pass that will be at unacceptable traffic level of service, meaning more congestion and density, in the future.

Safety Analysis

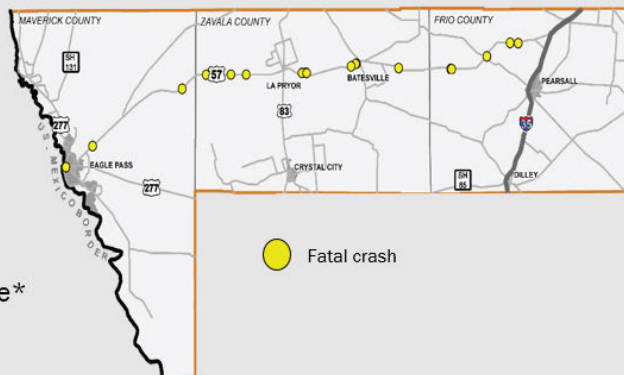

Safety corridor-wide

- From January 2017 to July 2022, there were **27** fatalities on US 57
- The majority (**89%**) of fatal crashes occurred along **two-lane** sections of the corridor

Safety in Eagle Pass

- **3x** the statewide average crash rate*
- **2/3** of crashes on the corridor occurred in Eagle Pass, including **all 8** pedestrian and cyclist-related crashes

*2017- July 2022 TxDOT Crash Records Information System (CRIS) Data
Compared to statewide average crash rate for a rural US highway reported in
crashes per 100 million vehicle miles traveled.

Slide 17:

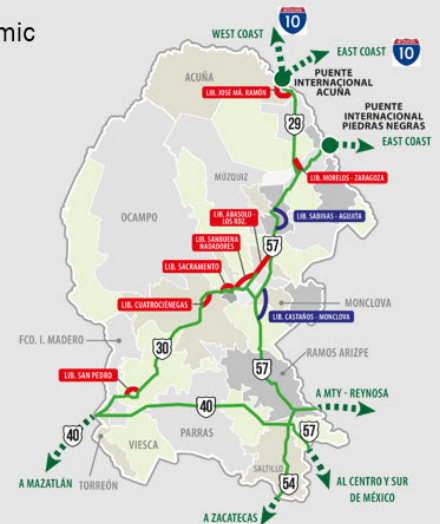

Two thirds of all crashes on the corridor occurred in Eagle Pass and in select sections of the city, the crash rate is three times the statewide average. However, 89 percent of fatal crashes occurred outside Eagle Pass, along two-lane sections of the corridor.

Highlights from Visit to Coahuila, Mexico

- The Texas-Mexico border is critical for the prosperity and economic competitiveness of both countries
- Eagle Pass POE complements other Ports of Entry, such as the Laredo POE, providing a resilient system
- Cross-border trade has increased, and is expected to continue growing due to plans for mega-industrial developments

\$270M PLEDGED INVESTMENT BY COAHUILA

- Plans to build six State Loops along Federal Highways 57 and 30 from Torreón to the border
- Expansion of freight bridge at Piedras Negras from 6 to 12 lanes

Slide 18:

The study team visited Coahuila, Mexico in July 2022 to meet with local government and industry leaders. Coahuila has pledged \$270 million of investments to improve the Eagle Pass Port of Entry and roadway infrastructure due to anticipated development and cross-border trade growth.

STUDY FINDINGS & RECOMMENDATIONS

US 57 Corridor Interstate Feasibility Study

October 13 to October 28, 2022 19

Slide 19:

We have shared some of the study data collected. Let's move on now to discuss our findings and recommendations for the corridor.

Improvement Options Evaluated

The following improvement options were evaluated for the US 57 Corridor east of Loop 480 in Eagle Pass to the I-35 junction in Moore:

- Expanding the corridor to a **four-lane undivided** highway
- Expanding the corridor to a **four-lane divided** highway
- Expanding the corridor to a **four-lane interstate** with two-lane frontage roads in either direction

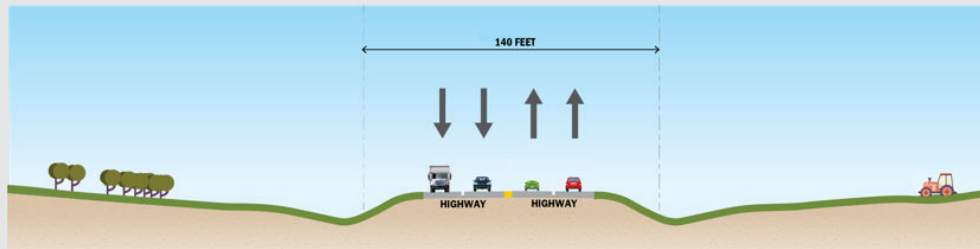

Slide 20:

The Study Team evaluated the following improvement options for the portion of the US 57 Corridor east of Loop 480 outside Eagle Pass to the I-35 junction:

- Expanding the corridor to a four-lane undivided highway
- Expanding the corridor to a four-lane divided highway
- And expanding the corridor to a four-lane interstate with two-lane frontage roads in either direction

The improvement options will be reviewed on the following slides.

Improvement Option: Four-Lane Undivided Highway (\$420M)

Maintains driveway access to local businesses and residences

Requires **additional right-of-way**, though **less than an interstate**

Maintains at-grade intersections with other roadways

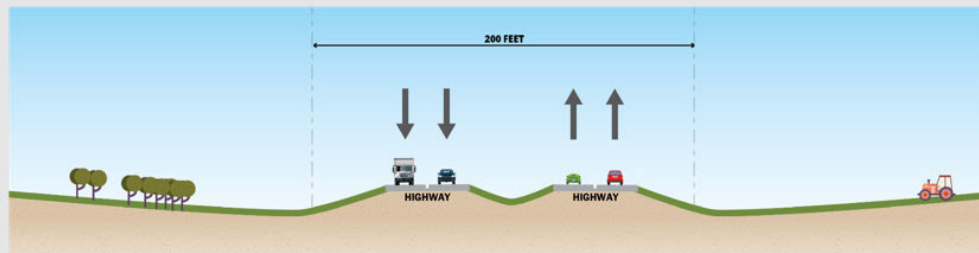

Does not expand shoulders or increase separation of traffic in either direction

Slide 21:

The Four-Lane Undivided Highway option establishes two lanes of traffic in either direction, increasing capacity.

This design maintains driveway access and currently posted speeds, as well as at-grade intersections with other roadways. It does not include expanded shoulders or separation of traffic that would enhance safety.

Improvement Option: Four-Lane Divided Highway (\$510M)

Maintains driveway access to local businesses and residences

Requires **additional right-of-way**, though **less than an interstate**

Maintains at-grade intersections with other roadways

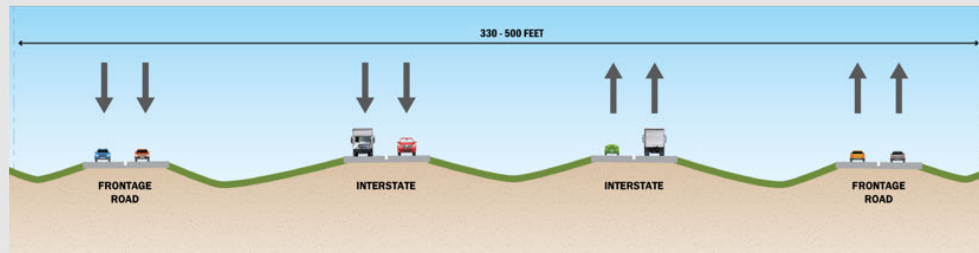

Provides **additional inside shoulders** for both directions of traffic

Slide 22:

The Four-Lane Divided Highway option includes two lanes of traffic in either direction separated by an interior median and inner shoulders to enhance safety.

This design, similar to the four-lane undivided highway option, also maintains driveway access, currently posted speeds, and at-grade intersections.

Improvement Option: Interstate with Frontage Roads (\$2B)

Two additional mainlanes and four lanes of frontage roads to increase capacity for anticipated trade growth

No driveways connecting to mainlanes

No stop signs or traffic signals on mainlanes

Traffic would flow uninterrupted from one end of the highway to the other. To accomplish this, **overpasses would be necessary**

Slide 23:

The Interstate option establishes a four-lane interstate with two-lane frontage roads in either direction.

Traffic would flow uninterrupted from one end of the highway to the other to increase capacity and traffic flow efficiency, which would require overpasses. Driveways would connect to frontage roads as opposed to the interstate mainlanes.

Options Comparison

Option	Four-Lane Undivided Highway	Four-Lane Divided Highway	Interstate with Frontage Roads
Cost	\$420 million	\$510 million	\$2 billion
Benefit-Cost Ratio	1.12	1.30	0.40
Safety & Capacity Benefits	Improves capacity by adding two lanes	- Improves capacity by adding two lanes - Improves safety by separating directions of traffic and adding inner shoulders	- Improves capacity by adding six lanes - Improves safety by separating directions of traffic and adding inner shoulders

Slide 24:

The four-lane highway options would cost almost a quarter as much as the interstate option. The four-lane divided highway and interstate options both improve safety by separating directions of traffic and adding inner shoulders. While the interstate option provides greater capacity, it is much less cost-effective than the other two options. The four-lane divided highway is the most cost-effective and provides both safety and capacity benefits.

Study Findings

Based on the study data analysis, the US 57 Corridor **does not currently meet the criteria to upgrade to an interstate**. However, the US 57 Corridor should be improved for the following reasons:

There are **safety incidents** along the corridor, with 89% of fatalities occurring on two-lane sections of the corridor and areas in Eagle Pass with a crash rate 3x the statewide average

Freight connectivity is currently limited between the Eagle Pass Port of Entry and major interstates, and providing a **redundant route for freight traffic** would strengthen supply chains and help relieve traffic at other Ports of Entry

Future population, employment, and trade growth will need to be accommodated

To better promote **international trade and improvements** to related infrastructure, especially as more manufacturers relocate operations closer to home due to shifts in the global supply chain, as well as support **economic development** in both the United States and Mexico

Making improvements to the corridor **aligns with other regional planning efforts**, including the 2023 Texas Freight Mobility Plan and Texas-Mexico Border Transportation Master Plan 2021

Slide 25:

Based on our analysis, the US 57 Corridor does not currently meet the criteria to upgrade to an interstate. However, the US 57 Corridor should be improved for several reasons including:

- Safety incidents along the corridor
- Limited freight connectivity
- Projected population, employment, and trade growth
- To better promote international trade and improvements to related infrastructure, especially as more manufacturers relocate operations closer to home due to shifts in the global supply chain, and
- To align with other regional planning efforts.

Recommendations

- Plan and implement **short-term spot improvements within the City of Eagle Pass** to improve safety and connectivity
- Develop a segmented and phased implementation plan for a **Four-Lane Divided Highway** east of SL 480 to the I-35 junction, that will:
 - Facilitate reuse of existing lanes, where possible, to reduce cost
 - Enhance safety and operations
 - Improve connectivity, freight mobility, and economic vitality
 - Consider potential freight relief routes around La Pryor and Batesville
 - Minimize impact to adjacent properties
 - **Serve as a logical progression towards an interstate-level freeway**

Slide 26:

The Study Team recommended short-term spot improvements within the City of Eagle Pass and a segmented and phased implementation plan for a Four-Lane Divided Highway that will serve as a logical progression towards an interstate-level freeway.

Implementation Plan

SHORT-TERM (0-5 YEARS)		MID-TERM (6-10 YEARS)		LONG-TERM (10+ YEARS)	
Safety / Operational Improvements	Within the City of Eagle Pass, \$1M	Four-lane Divided Highway	Outside the City of Eagle Pass, \$510M	Re-evaluate for interstate upgrade	
Intersection Improvements (Turn Pockets)	Within the City of Eagle Pass, \$10M	Grade Separation	At US 57/US 83 in the City of La Pryor, \$20M	Interstate Upgrade	Along US 57, \$2B
Traffic Signal	At US 57/US 83 in the City of La Pryor, \$400,000	Grade Separation	At US 57/FM 117 in the City of Batesville, \$20M	Relief Route	Around the City of La Pryor*
Traffic Signal	At US 57/FM 117 in the City of Batesville, \$400,000			Relief Route	Around the City of Batesville*
				* Cost not yet determined	

Slide 27:

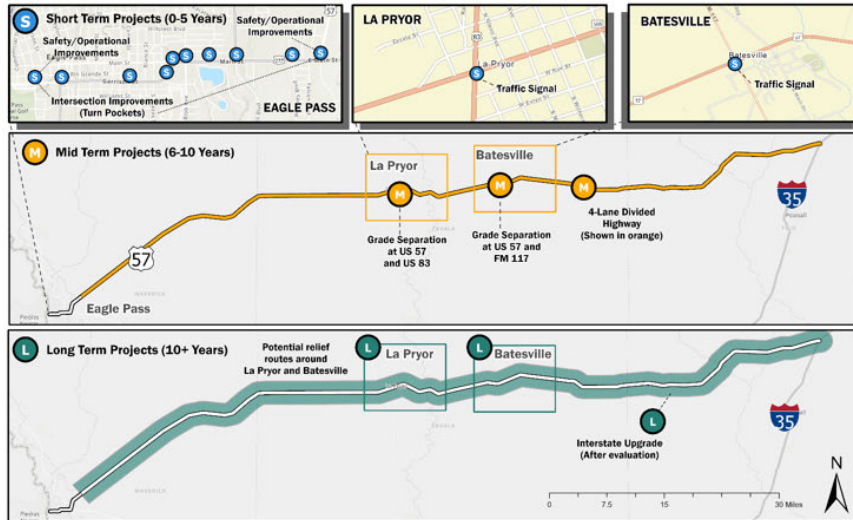

In the short-term, over the next five years, spot safety, operational, and intersection improvements should be planned and implemented in Eagle Pass, as well as traffic signals at the intersections with US 83 in La Pryor and Farm to Market 117 in Batesville.

In the mid-term, over the next six to ten years, the current study recommendation is to further develop the Four-Lane Divided Highway improvement option for the US 57 Corridor east of State Loop 480 to I-35. Grade separation is recommended at the two locations recommended for signalization in the short-term.

Long-term, the study recommends further assessment of interstate upgrade along US 57 as well as potential relief routes around La Pryor and Batesville.

Implementation Map

US 57 Corridor Implementation Plan for Recommended Improvements

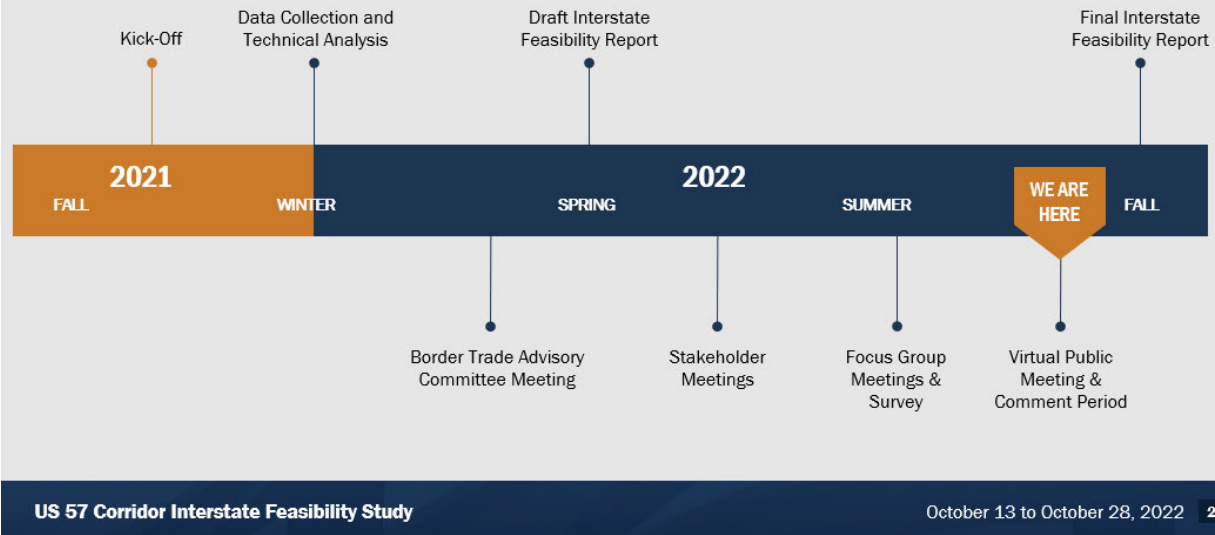

Slide 28:

This map shows the approximate locations of the proposed study recommendations. The short-term recommendations are shown at the top in blue: safety and operational, as well as intersection improvements in Eagle Pass, a traffic signal in La Pryor, and a traffic signal in Batesville.

The mid-term recommendations are shown in the middle in orange, including the four-lane divided highway throughout the corridor and grade separation at two locations.

Finally, the long-term recommendations are shown at the bottom in green: potential relief routes around La Pryor and Batesville and interstate upgrade, after future evaluation.

Study Schedule

Slide 29:

This study is being conducted over a 12-month timeline that is reflected in the schedule you see here. Throughout the process, our team has gathered input from stakeholders that included small group meetings and focus group meetings targeting different areas of the corridor.

Following this Virtual Public Meeting, TxDOT will release the Final Interstate Feasibility Report in late Fall of 2022. The final report will include more detail on the study data and recommendations discussed in this presentation.

Project Development Process

POTENTIAL NEXT STEPS IF RECOMMENDED IMPROVEMENTS ARE INCLUDED IN THE UNIFIED TRANSPORTATION PROGRAM (UTP) AND STATEWIDE TRANSPORTATION IMPROVEMENT PLAN (STIP)

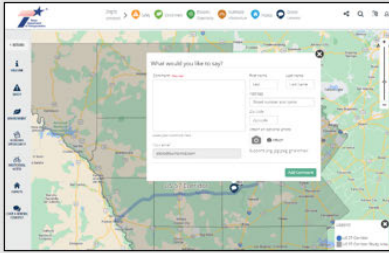

Slide 30:

We are currently in the feasibility study stage of the process, where we've focused on data gathering and preliminary analysis to assess the practicality of upgrading US 57 as an interstate highway.

Should the corridor-wide study recommendations move forward, the project must be included in the Unified Transportation Program and go through TxDOT's project development process. Several major tasks and more opportunities for public input would follow before construction can begin, including securing construction funding for the project in the Statewide Transportation Improvement Plan.

How to Submit Your Comments

Comment and Complete Survey

Visit the Virtual Public Meeting website to submit a comment and take a survey

**COMMENTS MUST BE SUBMITTED BY FRIDAY, OCTOBER 28, 2022
to be considered in the development of the Final Study report.**

Slide 31:

More information about the data and recommendations discussed today can be found on our virtual public meeting website. Your input is a vital part of this process and will be considered as the final study report is completed.

Input can be provided in three ways: visiting the project website, mailing your comment to TxDOT, or leaving a voicemail comment.

To find the Virtual Public Meeting website, visit the URL on the slide, which can also be found by visiting [txdot.gov](https://www.txdot.gov) and searching the keyword "US 57". The study map is interactive and allows you to place your comment on a specific location on the corridor. A survey and general comment form are also available on the website.

Please address any mailed comments to the address shown on the slide. Comments must be postmarked by the comment deadline to be considered in the development of the final study report.

To leave a comment by voicemail, call 956-508-3580 and leave your comment after the recording.

All comments must be submitted by Friday, October 28, 2022, at 11:59 p.m. to be considered in the final report.

THANK YOU!

US 57 Corridor Interstate Feasibility Study October 13 to October 28, 2022 **32**

Slide 32:

This concludes our presentation on the US 57 Corridor Interstate Feasibility Study. If you have any additional input or questions, please reach out. If you would like to sign up to receive study updates, including future public meeting notices and the final report when available, you can do so from the Virtual Public Meeting website.

Thank you for your time and interest in the US 57 Corridor. Your input and involvement are invaluable components of this study.

US 57

Del Puente Internacional Eagle Pass hacia la Carretera Interestatal 35 (I-35)
ESTUDIO DE FACTIBILIDAD DEL CORREDOR INTERESTATAL

Reunión Pública Virtual

Del 13 al 28 de octubre de 2022

Diapositiva 1:

Hola y bienvenidos a la reunión pública virtual para el estudio de factibilidad interestatal del corredor US 57 desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hacia el cruce de la Interestatal 35 (I-35) en Moore, Texas.

El Departamento de Transporte de Texas, también conocido como TxDOT, aprecia su interés en este estudio y le agradece por su participación.

TxDOT está organizando esta reunión pública virtual y un periodo de comentarios del público concurrente del 13 al 28 de octubre de 2022 para compartir información del estudio y recomendaciones para el corredor.

Toda esta información se puede encontrar en [txdot.gov](https://www.txdot.gov) buscando la frase clave “US 57”. Esta presentación dura aproximadamente 15 minutos. Le sugerimos pausar la presentación si necesita más tiempo para observar el contenido de la diapositiva.

HELP #EndTheStreakTX

Pongamos fin a las muertes diarias en las carreteras de Texas.

TxDOT.gov (Busque: #EndTheStreakTX)

#EndTheStreakTX Toolkit

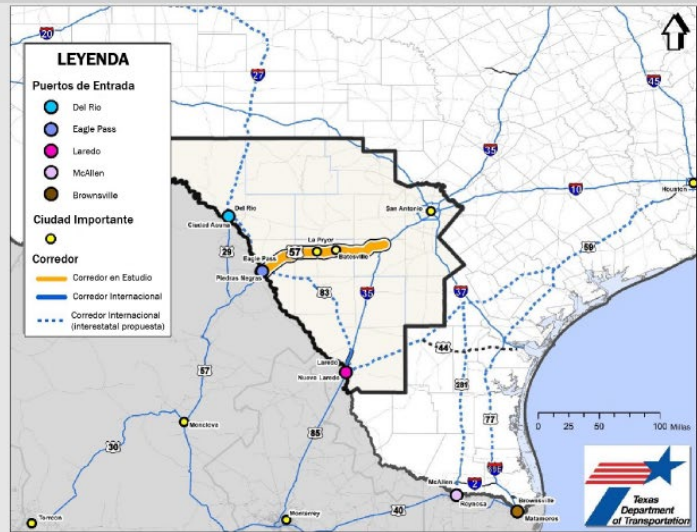

Diapositiva 2:

Antes de proveer detalles del estudio, tomemos un momento para reconocer que Texas no ha experimentado un solo día sin muerte en sus carreteras desde Noviembre 7, 2001. Puede encontrar mas información sobre la campaña “End the Streak” (Pongamos Fin a las Muertes) de TxDOT utilizando la información que aparece en la diapositiva.

Descripción General del Estudio de Factibilidad Interestatal del Corredor US 57

Aproximadamente 100 millas

Puente Internacional Eagle Pass		2 Puentes + 1 Cruce de ferrocarril
2		Distritos de TxDOT
3		Condados
3		Ciudades

Fuente: Portal de datos abiertos del TxDOT, 2022

Estudio de Factibilidad Corredor Interestatal

Del 13 al 28 de octubre de 2022

3

Diapositiva 3:

El estudio del corredor US 57 se extiende aproximadamente 100 millas desde el Puente Internacional Eagle Pass en la frontera entre Texas y México hacia el este hasta el cruce de la Interestatal 35 (I-35) en Moore, Texas.

El corredor atraviesa los distritos de Laredo y San Antonio para TxDOT. Recorre por los condados de Maverick, Zavala y Frio, y las ciudades de Eagle Pass, La Pryor, y Batesville.

US 57 cruza la US 277 en Eagle Pass, US 83 en La Pryor, FM 117 en Batesville, y la Interestatal 35 (I-35) en Moore.

Hay 3 cruces fronterizos en el extremo oeste del corredor en Eagle Pass.

PROPOSITO DEL ESTUDIO:

Evaluar la viabilidad de mejorar el corredor US 57 como una carretera interestatal

EL ESTUDIO EVALUA CÓMO:

- Mejorar la conectividad y la capacidad este/oeste tomando en cuenta también los planes de transporte locales y regionales
Mejorar la seguridad del corredor
- Mejorar la seguridad en el corredor
- Alinearse con el Plan de Movilidad de Carga de Texas, el Plan Maestro de Transporte Fronterizo, y el Plan Estratégico de Seguridad Vial
- Apoyar los planes de desarrollo fronterizo y comunitario, así como las oportunidades económicas

Diapositiva 4:

TxDOT esta evaluando la viabilidad de mejorar US 57 como una carretera interestatal, así como mejorar la conectividad y capacidad, mejorar la seguridad del corredor, alinearse con los planes existentes, y apoyar el desarrollo futuro y las oportunidades económicas.

MOTIVOS DEL ESTUDIO:

- El corredor US 57 conecta el puerto de Eagle Pass, el cual es una vía importante para el flujo comercial internacional hacia diversos puntos en Texas, el resto de Estados Unidos, y Canadá
- De 1990 a 2019, la población de la región fronteriza creció de 4.37 millones de habitantes a 7.45 millones de habitantes, lo que representa un aumento del 70% y, el empleo creció de 1.49 millones de empleos a 2.93 millones lo que equivale a un aumento del 97%
- El corredor US 57 sirve a las principales industrias y los líderes locales esperan que atraiga futuras oportunidades de desarrollo económico
- Algunos tramos del estudio sobre el corredor US 57, tienen un índice de accidentes de 3 veces mayor al promedio estatal
- El puerto de Eagle Pass ocupa el octavo lugar a nivel nacional, según los cruces fronterizos clasificados por valor, con \$34 mil millones de dólares en 2021. Sin embargo, no hay conexión directa desde el puerto de entrada a una carretera interestatal, lo cual es un factor limitante para el crecimiento en el área de Eagle Pass y el corredor US 57.

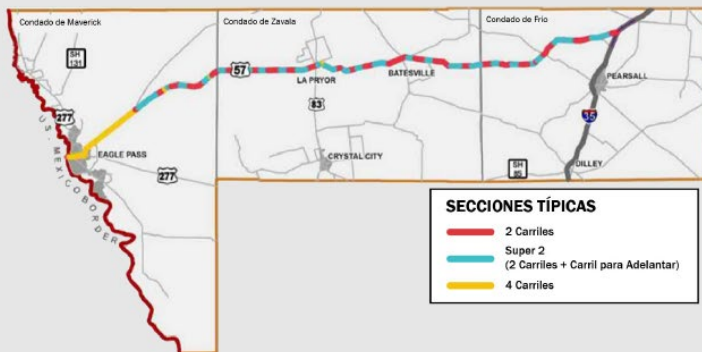

Diapositiva 5:

TxDOT esta llevando a cabo el estudio por muchas razones, incluyendo la importancia del corredor para el comercio internacional, el crecimiento anticipado, y la alta tasa de accidentes en ciertas secciones.

Condiciones Actuales

La mayor parte del corredor es una carretera de dos carriles con y sin un carril para rebasar

La carretera State Loop 480 actualmente sirve como una ruta de alivio de carga de dos carriles al sur de Eagle Pass

Diapositiva 6:

Como se muestra en el mapa, el área dentro y cerca de Eagle Pass consta de cuatro carriles y el resto del corredor se compone de carreteras de 2 carriles con y sin un carril para adelantar.

La carretera State Loop 480, la cual es una carretera de dos carriles, actualmente sirve como ruta de alivio de fletes al sur de Eagle Pass.

DATOS & ANÁLISIS

Estudio de Factibilidad Corredor Interestatal

Del 13 al 28 de octubre de 2022 7

Diapositiva 7:

Pasemos a una descripción general de alto nivel de los datos del estudio que se recopilamos y analizamos.

Datos Recopilados

Proyecciones de crecimiento de población, empleo y comercio internacional

Movimientos de carga actuales y a futuro

Industrias clave a lo largo del corredor

Flujo de tráfico y congestión actuales y futuros

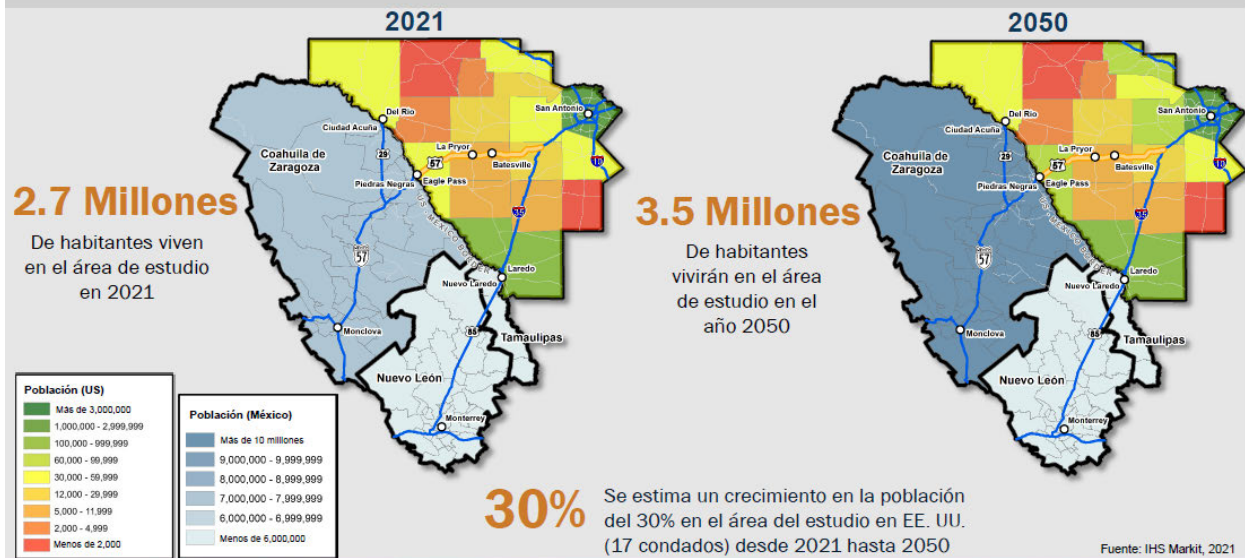

Análisis de seguridad incluyendo datos de accidentes de vehículos privados y comerciales, peatones y ciclistas

Diapositiva 8:

El equipo de estudio recopiló una amplia gama de datos para el área de estudio, incluidos, entre otros, los siguientes:

- Proyecciones de crecimiento
- Movimientos de carga
- Industrias clave atendidas a lo largo del corredor tanto en Texas como en México
- Flujo del tráfico, y
- Análisis de seguridad.

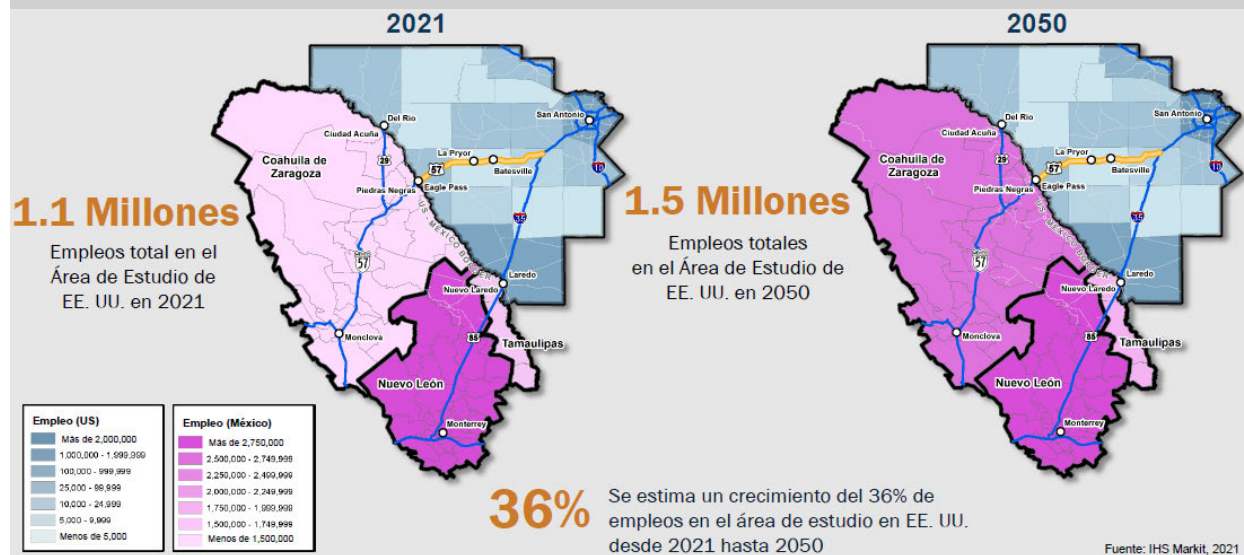

Tendencias de Población del Corredor US 57: 2021 - 2050

Diapositiva 9:

Estos mapas muestran las tendencias de la población desde 2021 hasta 2050 en el área de estudio. Se estima un crecimiento de la población del 30 por ciento durante ese período de tiempo.

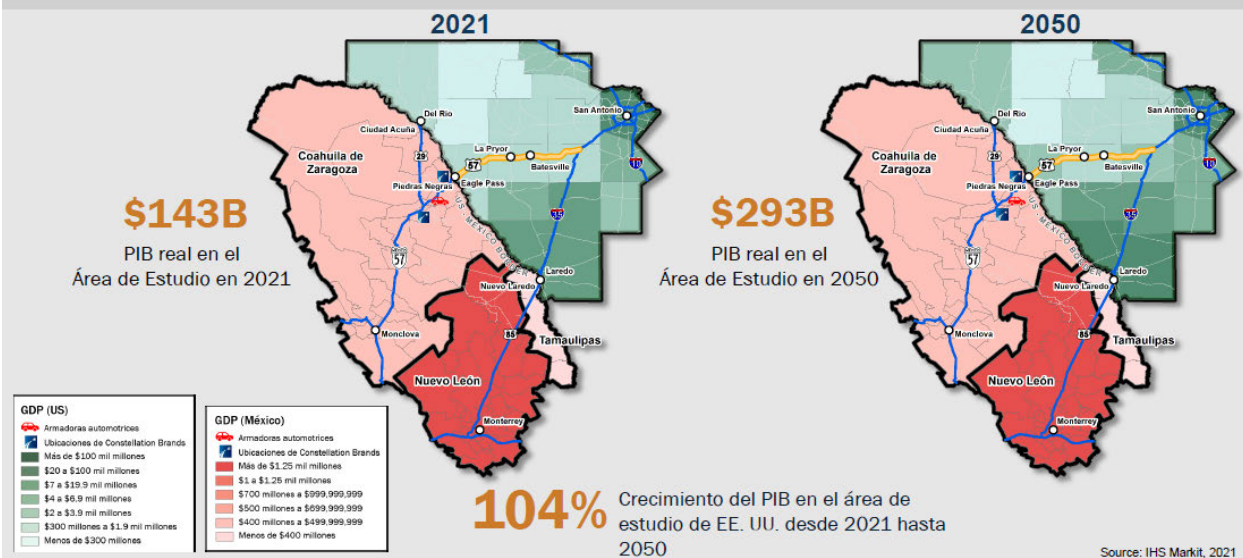

Tendencias de Empleo en el Corredor US 57: 2021 - 2050

Diapositiva 10:

Se estima un crecimiento del 36 por ciento de empleos en el área de estudio desde 2021 hasta 2050.

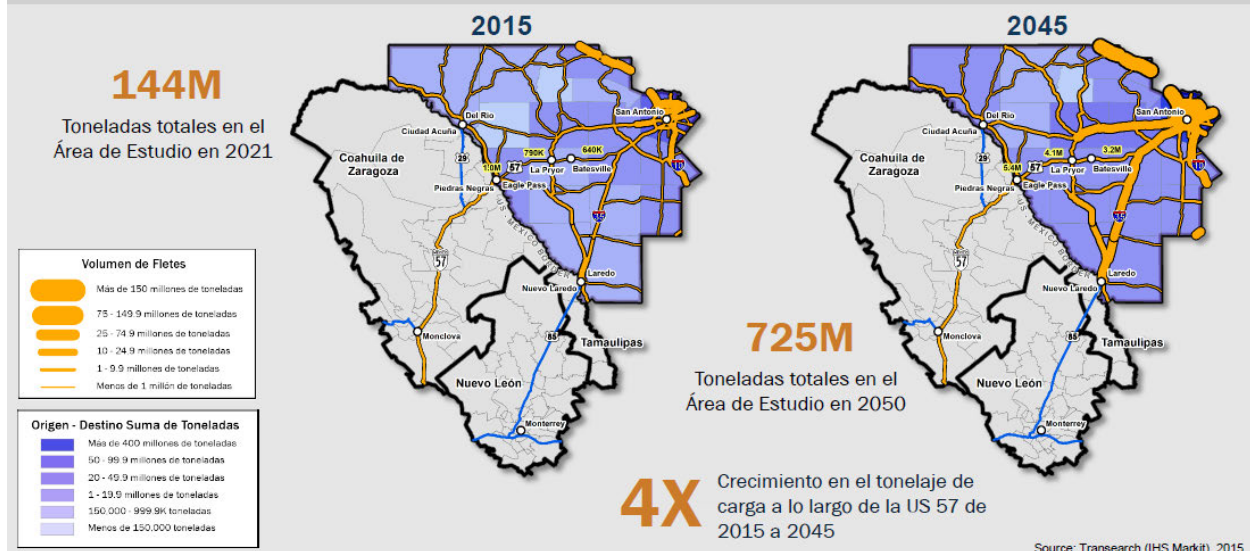

Tendencias del Producto Interno Bruto (PIB) del corredor US 57: 2021 - 2050

Diapositiva 11:

Se estima un crecimiento del PIB del 104 por ciento en el área de estudio desde 2021 hasta 2050.

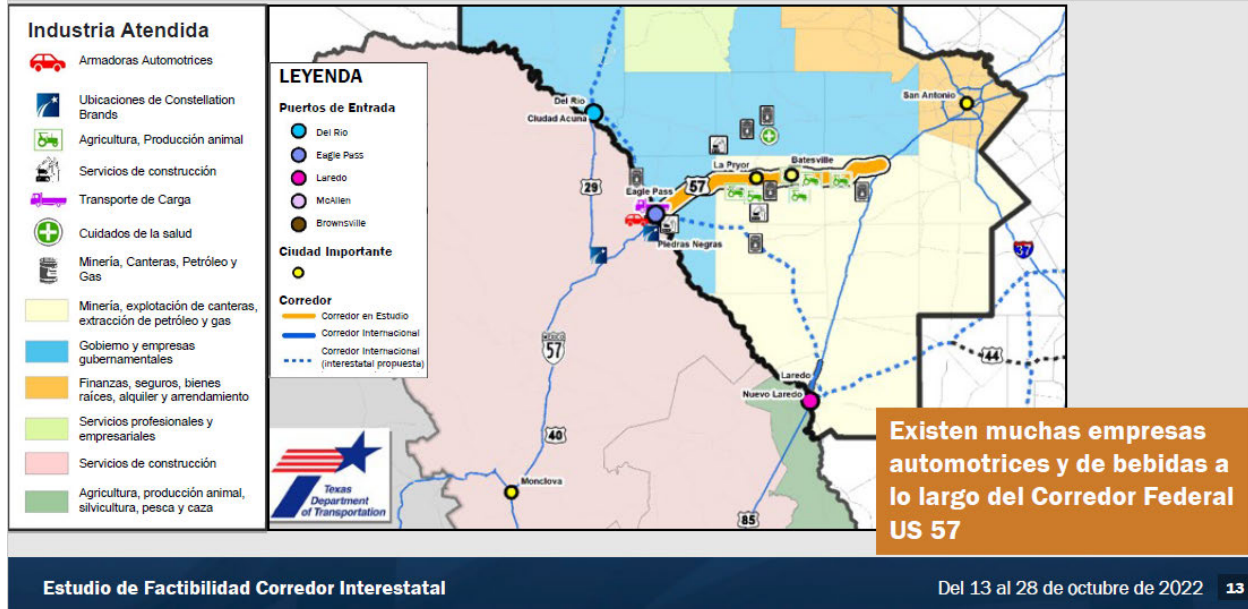

Tendencias de Tonelaje de Carga en el Corredor US 57: 2015 - 2045

Diapositiva 12:

De 2015 a 2045, se proyecta que el crecimiento en el tonelaje de carga a lo largo del Corredor US 57 se cuadruplicará.

Corredor US 57: Industrias

Diapositiva 13:

Este mapa muestra las principales industrias atendidas en el área de estudio. Varios armadoras automotrices e industrias de bebidas están ubicados a lo largo de la Carretera Federal 57 correspondiente a las principales importaciones a través del Puerto de Entrada de Eagle Pass.

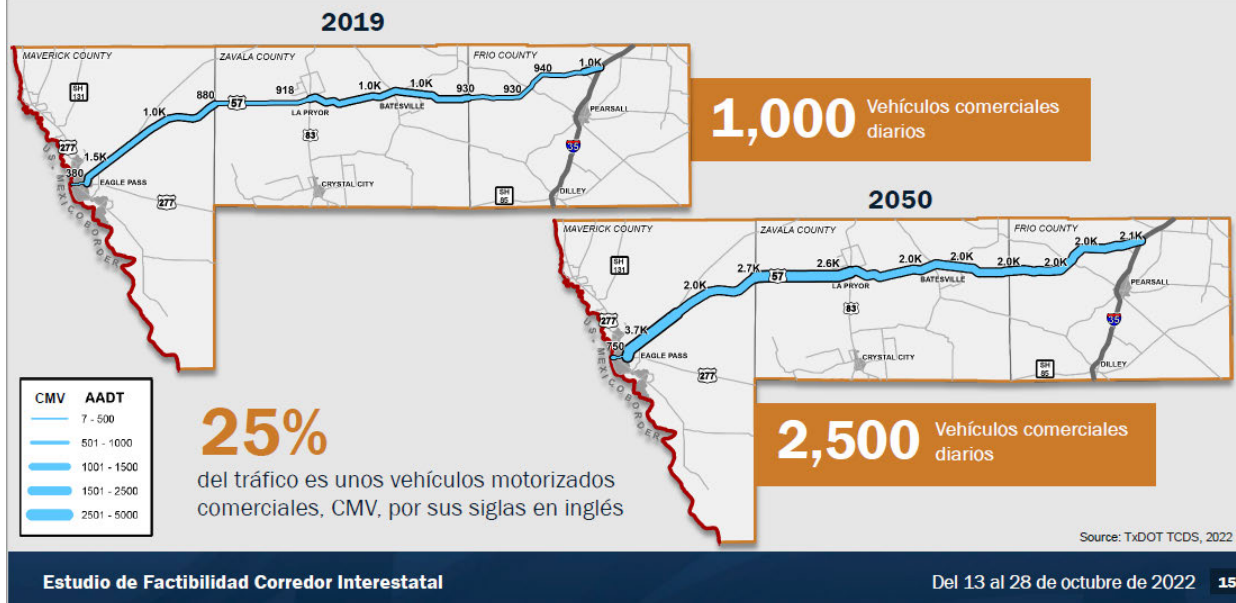

Tráfico Diario Promedio del Corredor (Todos los Vehículos)- 2019 - 2050

Diapositiva 14:

Actualmente, el corredor US 57 transporta alrededor de 5,000 vehículos por día y se prevé que transporte alrededor de 9,000 vehículos por día en 2050.

Tráfico Diario Promedio del Corredor (Únicamente Vehículos Comerciales) 2019 - 2050

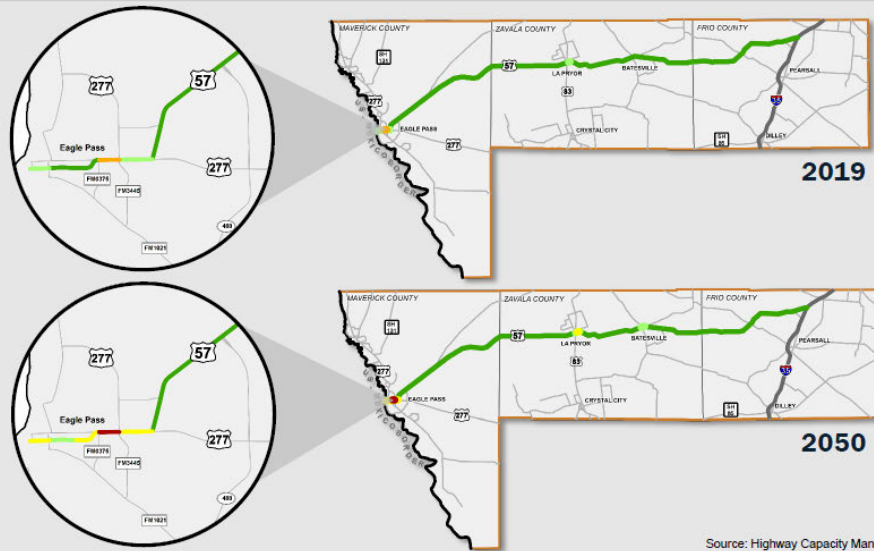

Diapositiva 15:

Los vehículos motorizados comerciales constituyen el 25% de todos los vehículos a lo largo del corredor US 57, que es más alto que el porcentaje típico de CMV para instalaciones similares.

Niveles de servicio actuales y a futuro del corredor: 2019 vs 2050

Nivel de Servicio mide la calidad del servicio de tráfico de vehículos motorizados en función de medidas de rendimiento como retrasos en los viajes, densidad y congestión.

Source: Highway Capacity Manual

Diapositiva 16:

Los datos muestran un nivel de servicio de tráfico existente y futuro aceptable a lo largo de la mayor parte del corredor US 57. Hay algunas ubicaciones dentro de Eagle Pass que tendrán un nivel de servicio de tráfico inaceptable, lo que significa más congestión y densidad en el futuro.

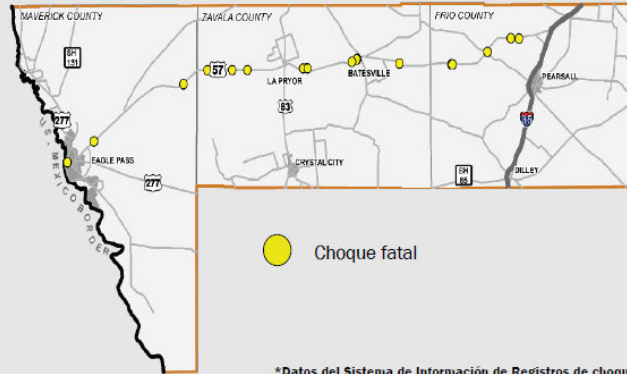

Seguridad en el Corredor

- De Enero 2017 a Julio 2022, hubo **27** muertes en el corredor US 57
- La mayoría (**89%**) de los choques mortales ocurrieron a lo largo de secciones de **dos carriles** del corredor

Seguridad en Eagle Pass

- 3x** la tasa de choques promedio en todo el estado*
- 2/3** de los choques en el corredor ocurrieron en Eagle Pass, incluyendo los **8** relacionados con peatones y ciclistas

*Datos del Sistema de Información de Registros de choques (CRIS) TxDOT 2017-2021

En comparación con el índice promedio de choques en todo el estado para una carretera rural de los Estados Unidos reportada en choques por cada 100 millones de millas recorridas por vehículos.

Diapositiva 17:

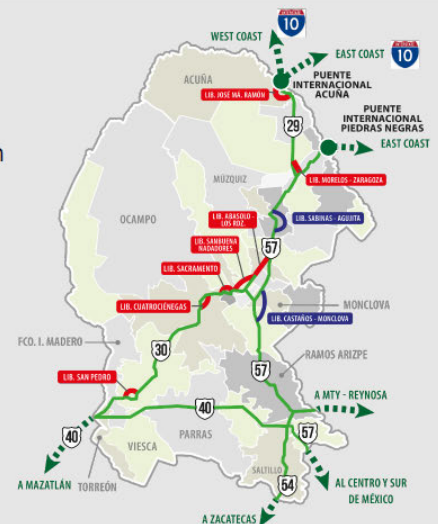

Dos tercios de todos los choques vehiculares en el corredor ocurrieron en Eagle Pass y en ciertas secciones de la ciudad, la tasa de choques es tres veces mayor que el promedio estatal. Sin embargo, el 89 por ciento de choques fatales ocurrieron a lo largo de las secciones de dos carriles del corredor fuera de Eagle Pass.

Aspectos Destacados de la Visita a Coahuila, México

- La frontera Texas-México es importante para la prosperidad y competitividad económica de ambos países
- El Puerto de Entrada (PDE) de Eagle Pass complementa otros puertos de entrada, como el PDE de Laredo, proporcionando un sistema resiliente
- El comercio transfronterizo ha aumentado y se espera que siga creciendo debido a los planes de desarrollo industrial

\$270M DE INVERSIÓN PROMETIDA POR COAHUILA

- Planes para construir seis carreteras en circuito estatales a lo largo de las carreteras federales 57 y 30 desde Torreón hasta la frontera
- Ampliación de puente de carga en Piedras Negras de 6 a 12 carriles

Diapositiva 18:

El equipo de estudio visitó Coahuila, México, en Julio de 2022 para reunirse con líderes del gobierno local y de la industria. Coahuila se comprometió a invertir \$270 millones para mejorar el puerto de entrada de Eagle Pass y la infraestructura vial debido al desarrollo anticipado y al crecimiento del comercio transfronterizo.

HALLAZGOS & RECOMENDACIONES

Estudio de Factibilidad Corredor Interestatal

Del 13 al 28 de octubre de 2022

19

Diapositiva 19:

Hemos compartido algunos de los datos del estudio recopilados. Pasemos ahora a discutir nuestros hallazgos y recomendaciones para el corredor.

Las siguientes opciones se evaluaron para mejorar el corredor US 57 al este de la carretera Loop 480 en Eagle Pass hasta el cruce de la carretera I-35 en Moore:

- Ampliar el corredor a una carretera **no dividida de cuatro carriles**
- Ampliar el corredor a una carretera **dividida de cuatro carriles**
- Expandir el corredor a una **carretera interestatal de cuatro carriles** con caminos laterales de dos carriles en cualquier dirección

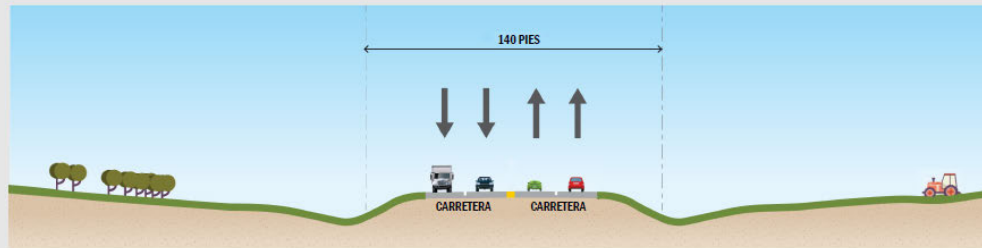

Diapositiva 20:

El equipo de estudio evaluó las siguientes opciones de mejora para la parte del corredor US 57 al este de la carretera Loop 480 fuera de Eagle Pass hasta el cruce de la I-35:

- Ampliar el corredor a una carretera no dividida de cuatro carriles
- Ampliar el corredor a una carretera dividida de cuatro carriles
- Y expandir el corredor a una carretera interestatal de cuatro carriles con caminos laterales de dos carriles en cualquier dirección

Las opciones de mejora se revisarán en las siguientes diapositivas.

Opción de Mejora: Autopista No Dividida de Cuatro Carriles (\$420M)

Mantiene el acceso a negocios y residencias locales

Mantiene las intersecciones a nivel con otras carreteras

Requiere **derecho de paso adicional**, aunque **menos que una carretera interestatal**

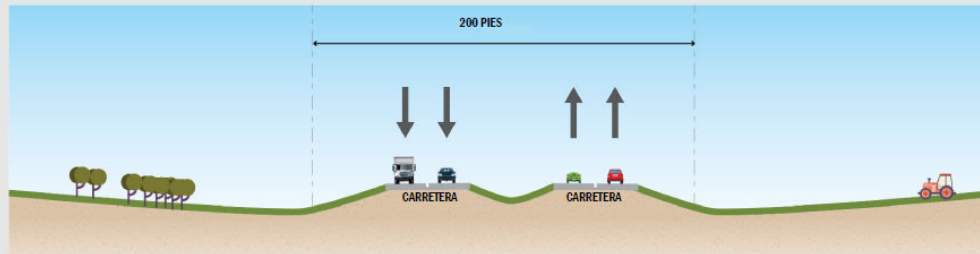

No expande carriles laterales o aumenta la separación del tráfico en cualquier dirección

Diapositiva 21:

La opción de autopista no dividida de cuatro carriles establece dos carriles de tráfico en cualquier dirección, lo que aumenta la capacidad.

Este diseño mantiene el acceso a negocios y residencias locales, y las velocidades publicadas actualmente, así como las intersecciones a nivel con otras carreteras. No expande carriles laterales o aumenta la separación del tráfico en cualquier dirección que mejoraría la seguridad.

Opción de Mejora: Autopista Dividida en Cuatro Carriles (\$510M)

Mantiene el **acceso** a los negocios y residencias locales

Mantiene las **intersecciones a nivel** con otras carreteras

Requiere **derecho de paso adicional**, aunque **menos que una carretera interestatal**

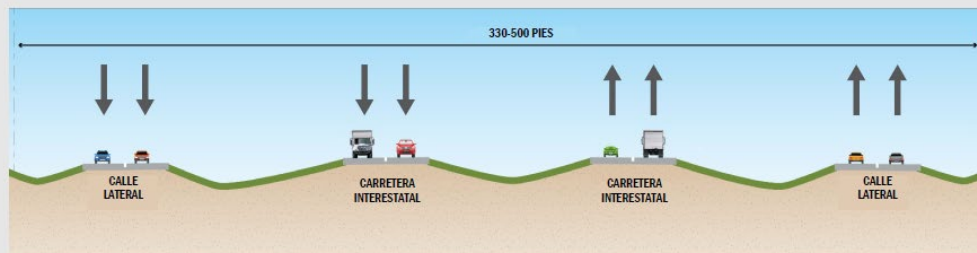

Proporciona **carriles laterales adicionales** para ambas direcciones de tráfico

Diapositiva 22:

La opción de Autopista Dividida de Cuatro Carriles incluye dos carriles de tráfico en cualquier dirección separados por una franja central y carriles laterales adicionales para mejorar la seguridad.

Este diseño, similar a la opción de carretera no dividida de cuatro carriles, también mantiene el acceso, las velocidades publicadas actualmente y las intersecciones a nivel.

Opción de Mejora: Interestatal con Caminos Secundarios (\$2B)

Dos carriles principales adicionales y cuatro carriles de carreteras secundarias para aumentar la capacidad para el crecimiento comercial anticipado

No hay accesos que conecten a los carriles principales

No hay altos o semáforos en los carriles principales

El tráfico fluiría sin interrupciones de un extremo a otro de la carretera. Para ello, **serían necesarios pasos elevados**

Diapositiva 23:

La opción Interestatal establece una interestatal de cuatro carriles con carreteras secundarias de dos carriles en cualquier dirección.

El tráfico fluiría sin interrupciones de un extremo a otro de la carretera para aumentar la capacidad y la eficiencia del flujo de tráfico, lo que requeriría pasos elevados. Los caminos de entrada se conectarían a las carreteras secundarias en lugar de los carriles principales interestatales.

Comparación de Opciones

Opción	Autopista No Dividida de Cuatro Carriles	Autopista Dividida de Cuatro Carriles	Interestatal con Caminos Secundarios
Costo	\$420 millones	\$510 millones	\$2 mil millones
Proporción Beneficio-Costo	1.12	1.30	0.40
Beneficios de Seguridad & Capacidad	Mejora la capacidad al agregar dos carriles	- Mejora la capacidad al agregar dos carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos	- Mejora la capacidad al agregar seis carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos

Diapositiva 24:

Las opciones de autopistas de cuatro carriles costarían casi un cuarto de lo que cuesta la alternativa interestatal.

La autopista dividida de cuatro carriles y las opciones interestatales mejoran la seguridad al separar las direcciones del tráfico y agregar arcenes internos. Si bien la opción interestatal brinda mayor capacidad, es mucho menos rentable que las otras dos opciones. La carretera dividida de cuatro carriles es la más rentable y brinda beneficios tanto de seguridad como de capacidad.

Hallazgos del Estudio

En base a los datos que ha recopilado TxDOT, el corredor US 57 **no cumple con los criterios para mejorar a una carretera interestatal**. Sin embargo, el corredor US 57 debe mejorarse por las siguientes razones:

Hay **incidentes de seguridad** a lo largo del corredor, con el 89 % de los choques mortales ocurriendo en secciones de dos carriles del corredor y áreas en Eagle Pass con una tasa de choques 3 veces mayor al promedio estatal

La conectividad de carga actualmente está limitada entre el puerto de entrada de Eagle Pass y las principales carreteras interestatales, y **proporcionar una ruta adicional para el tráfico de carga** fortalecería las cadenas de suministro y ayudaría a aliviar el tráfico en otros puertos de entrada

Será necesario acomodar el **crecimiento futuro de la población, el empleo y el comercio**

Para promover mejor el **comercio internacional y las mejoras** a la infraestructura relacionada, especialmente a medida que más fabricantes trasladan sus operaciones más cerca de casa debido a los cambios en la cadena de suministro global, así como apoyar el **desarrollo económico** tanto en los Estados Unidos como en México.

Hacer mejoras en el corredor se **alinea con otros esfuerzos de planificación regional**, incluido el Plan de Movilidad de Carga de Texas 2023 y el Plan Maestro de Transporte Fronterizo Texas-México 2021.

Diapositiva 25:

Según nuestro análisis, el Corredor US 57 actualmente no cumple con los criterios para mejorar US 57 como una carretera interestatal. Sin embargo, el corredor US 57 debe mejorarse por varias razones.

Recomendaciones

- Planificar e implementar **mejoras a corto plazo dentro de la ciudad de Eagle Pass** para mejorar la seguridad y la conectividad
- Desarrollar un plan de implementación segmentado y por etapas para una **autopista dividida de cuatro carriles** al este de la carretera State Loop 480 hasta el cruce de la I-35, que:
 - Facilite la reutilización de los carriles existentes, cuando sea posible, para reducir costos
 - Mejore la seguridad y operatividad
 - Mejorar la conectividad, la movilidad de carga y economía
 - Considere posibles rutas de alivio para carga alrededor de La Pryor y Batesville
 - Minimice el impacto en las propiedades adyacentes
 - **Servir como una progresión lógica hacia una autopista a nivel interestatal**

Diapositiva 26:

El equipo de estudio recomendó mejoras a corto plazo dentro de la ciudad de Eagle Pass y un plan de implementación segmentado y por etapas para una carretera dividida de cuatro carriles que servirá como una progresión lógica hacia una autopista a nivel interestatal.

Plan de Implementación

CORTO PLAZO (0-5 AÑOS)		MEDIANO PLAZO (6-10 AÑOS)		LARGO PLAZO (10+ AÑOS)	
Seguridad / Mejoras operativas	Dentro de la ciudad de Eagle Pass, \$1M	Carretera dividida de cuatro carriles	Fuera de la ciudad de Eagle Pass, \$510M	Reevaluar para la mejora interestatal	
Mejoras en intersecciones (Espacio de Giro)	Dentro de la ciudad de Eagle Pass, \$10M	Separación de nivel	En US 57/US 83 en la ciudad de La Pryor, \$20M	Mejora interestatal	A lo largo de US 57, \$2B
Semaforo	En US 57/US 83 en la ciudad de La Pryor, \$400,000	Separación de nivel	En US 57/FM 117 en la ciudad de Batesville, \$20M	Ruta del Alivio	Alrededor de la ciudad de La Pryor*
Semaforo	En US 57/FM 117 en la ciudad de Batesville, \$400,000			Ruta del Alivio	Alrededor de la Ciudad de Batesville*
				*Costo aún no determinado	

Diapositiva 27:

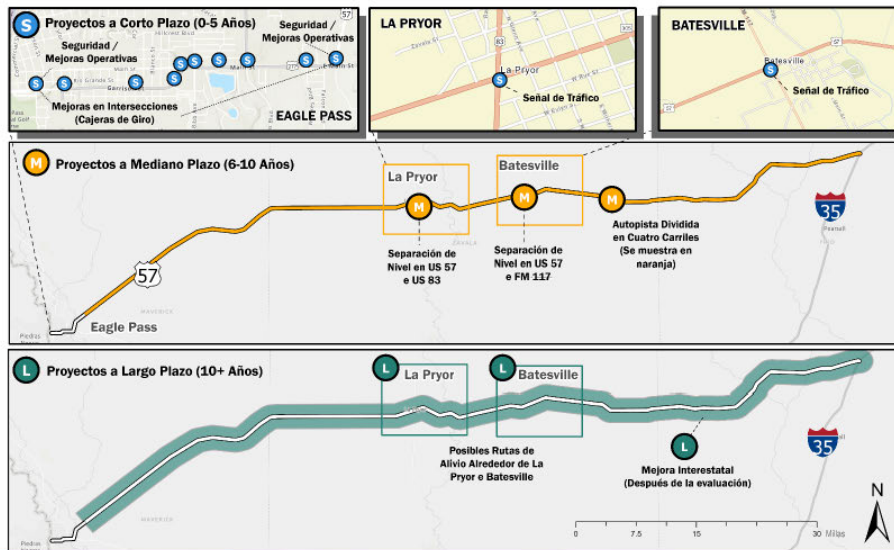

A corto plazo, durante los próximos cinco años, se deben planificar e implementar mejoras de seguridad, operativas y de intersección en Eagle Pass, así como semáforos en las intersecciones con US 83 en La Pryor y FM 117 en Batesville.

A mediano plazo, durante los próximos seis a diez años, la recomendación actual del estudio es seguir desarrollando la opción de mejora de la autopista dividida de cuatro carriles para el corredor US 57 al este del State Loop 480 hasta la I-35. Se recomienda la separación a desnivel en los dos lugares recomendados para la señalización en la opción de corto plazo.

A largo plazo, el estudio recomienda una mayor evaluación de la mejora interestatal a lo largo de la US 57, así como posibles rutas de alivio alrededor de La Pryor y Batesville.

Mapa de Implementación

Plan de Implementación del US 57 Corredor para las Mejoras Recomendadas

Estudio de Factibilidad Corredor Interestatal

Del 13 al 28 de octubre de 2022 28

Diapositiva 28:

Este mapa muestra las ubicaciones aproximadas de las recomendaciones del estudio propuesto. El código de color es azul para corto plazo, naranja para mediano plazo y verde para largo plazo.

Diapositiva 29:

Este estudio se lleva a cabo durante un período de 12 meses que se refleja en el cronograma que ve aquí. A lo largo del proceso, nuestro equipo recopiló aportes de las partes interesadas que incluyeron reuniones de grupos pequeños y reuniones de grupos de enfoque que se enfocaron en diferentes áreas del corredor.

Después de esta reunión pública virtual, TxDOT publicará el Informe final de viabilidad interestatal a finales del otoño de 2022.

El informe final incluirá más detalles sobre los datos del estudio y las recomendaciones discutidas en esta presentación.

Proceso de Desarrollo del Proyecto

LOS PRÓXIMOS PASOS POTENCIALES SI LAS MEJORAS RECOMENDADAS SE INCLUYEN EN EL PLAN DE TRANSPORTE UNIFICADO Y EL PLAN DE MEJORA DEL TRANSPORTE EN TODO EL ESTADO

Estudio de Factibilidad Corredor Interestatal

Del 13 al 28 de octubre de 2022

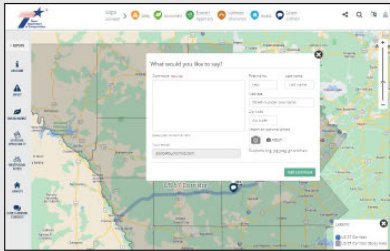

30

Diapositiva 30:

Actualmente nos encontramos en la etapa de estudio de factibilidad del proceso, donde nos hemos centrado en la recopilación de datos y el análisis preliminar para evaluar la viabilidad de mejorar el corredor US 57 como una carretera interestatal.

Si TxDOT decide proceder con las recomendaciones del estudio de todo el corredor, el proyecto debe incluirse en el Plan de Transporte Unificado y pasar por el proceso de desarrollo de proyectos de TxDOT. Varias tareas importantes y más oportunidades para la opinión del público seguirán antes de que pueda comenzar la construcción, incluida asegurar de la financiación de la construcción en el Plan de Mejora del Transporte en Todo el Estado para el proyecto.

**LOS COMENTARIOS DEBEN ENVIARSE ANTES DEL VIERNES 28 DE OCTUBRE DE 2022
para ser considerado en el desarrollo del informe del Estudio Final.**

Diapositiva 31:

Puede encontrar más información sobre los datos y las recomendaciones discutidas hoy en nuestro sitio web de reunión pública virtual. Su aporte es una parte vital de este proceso y se considerará cuando se complete el informe final del estudio.

La información se puede proporcionar de tres maneras: visitando el sitio web del proyecto, enviando su comentario por correo a TxDOT o dejando un comentario en el correo de voz.

Para encontrar el sitio web de la reunión pública virtual, visite la URL en la diapositiva, que también se puede encontrar visitando txdot.gov y buscando la palabra clave "US 57". El mapa de estudio es interactivo y le permite colocar su comentario en un lugar específico del corredor. Una encuesta y un formulario de comentarios generales también están disponibles en el sitio web.

Dirija cualquier comentario enviado por correo a la dirección que se muestra en la diapositiva. Los comentarios deben estar sellados antes de la fecha límite de comentarios para ser considerados en el desarrollo del informe final del estudio.

Para dejar un comentario por correo de voz, llame al 956-508-3580 y deje su comentario después de la grabación.

Todos los comentarios deben enviarse antes del viernes 28 de octubre de 2022 a las 11:59 p. m. para ser considerado en el informe final.

GRACIAS!

Public Meeting Presentation - English

Public Meeting Presentation - Spanish

US 57 Corridor Interstate Feasibility Study Area Map

The US 57 Corridor extends approximately 100 miles from Eagle Pass International Bridge on the Texas-Mexico border eastward to I-35 in Moore. The corridor traverses the Laredo and San Antonio Districts for TxDOT. It runs through Maverick, Zavala, and Frio counties and the cities of Eagle Pass, La Pryor, and Batesville.

US 57 crosses US 277 in Eagle Pass, US 83 in La Pryor, Farm to Market 117 in Batesville, and I-35 in Moore. There are 3 border crossings at the western end of the corridor in Eagle Pass.

Study Purpose

The purpose of the study is to evaluate the feasibility of upgrading US 57 as an interstate highway.

The study is assessing how to:

- Improve east/west connectivity and capacity while considering local and regional transportation plans
- Enhance corridor safety
- Align with the Texas Freight Mobility Plan, Border Transportation Master Plan, and the Strategic Highway Safety Plan
- Support border and community development plans, as well as economic opportunities

Some of the reasons TxDOT is conducting the study include:

- US 57 serves the Eagle Pass Port of Entry, an international trade gateway that supports heavy freight flow-reaching regions of Texas, the United States, and into Canada
- The border region population grew 70% and employment grew 97% from 1990 to 2019
- US 57 serves major industries and is expected by local leaders to attract future economic opportunities
- Select sections of US 57 in the study area have a crash rate of three times the statewide average
- The Eagle Pass Port of Entry ranks eighth nationally based on border crossings by value, with \$34 billion dollars moving through in 2021. However, there is no direct connection from the Eagle Pass Port of Entry to an Interstate, which is a limiting factor for growth in the Eagle Pass area and US 57 corridor

US 57 CORRIDOR INTERSTATE FEASIBILITY STUDY

Study Data

The US 57 Corridor Interstate Feasibility study team collected a wide range of data for the study area including but not limited to growth projections, freight movement, key industries served along the corridor in both Texas and Mexico, traffic flow, and safety analysis.

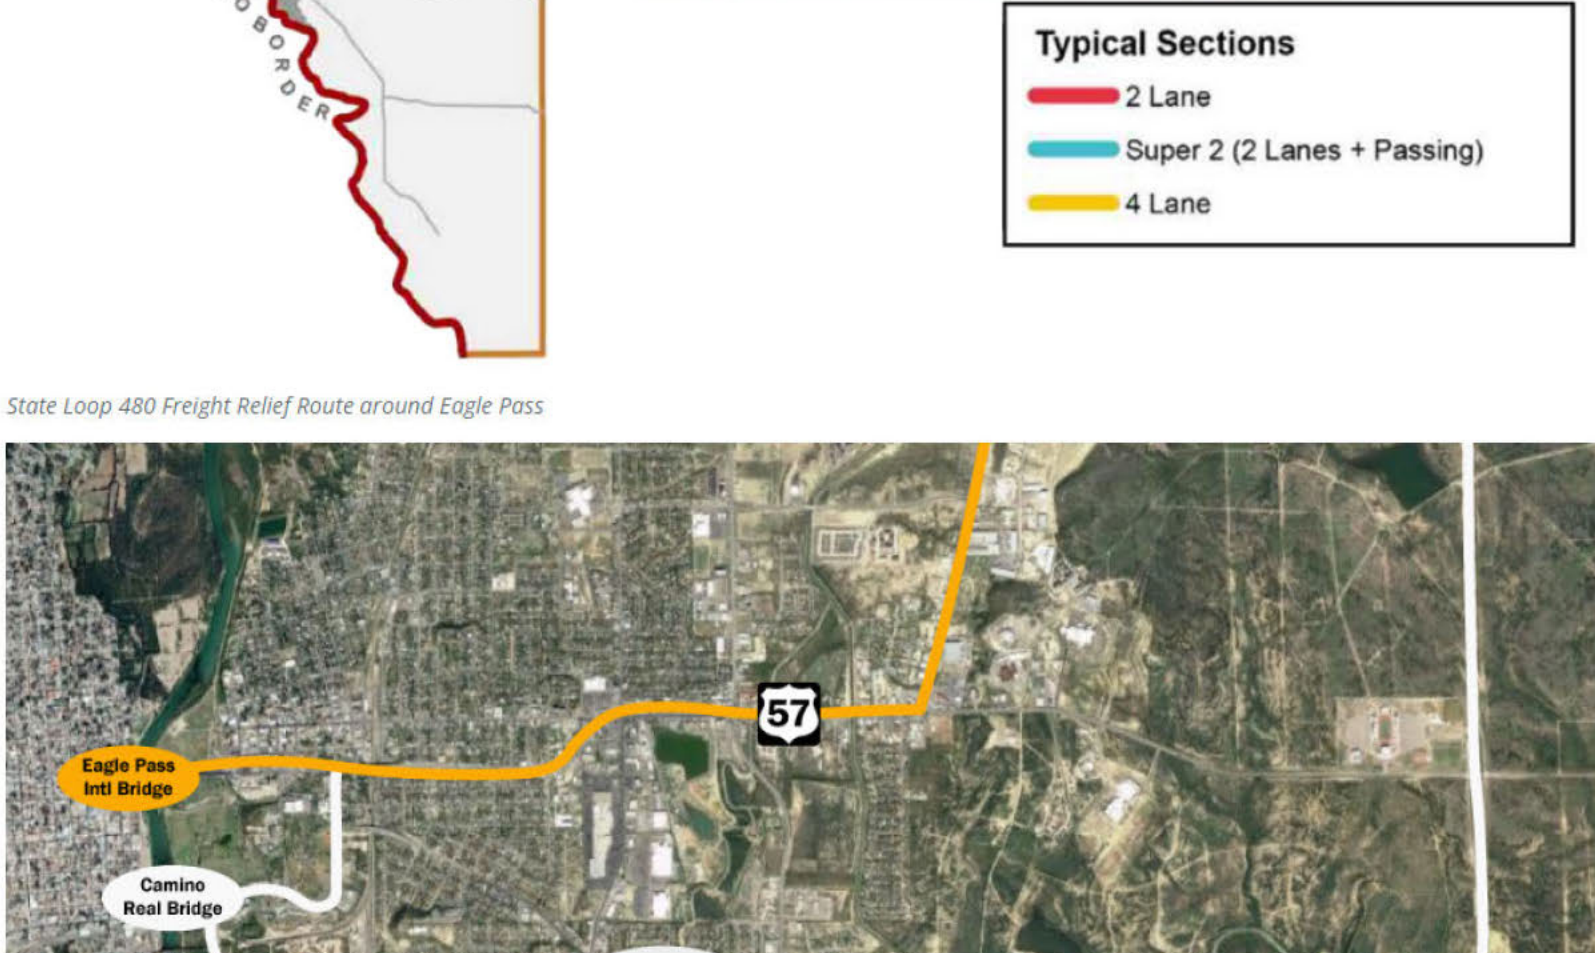

[Click to expand](#)

Existing Corridor Conditions

Today there are various roadway types from Eagle Pass to I-35 along US 57. As shown on the map, the area in and near Eagle Pass is four lanes and the rest of the corridor is a two-lane with and without a passing lane.

State Loop 480, which is a two-lane roadway, currently serves as a freight relief route south of Eagle Pass.

Roadway Width along the Corridor

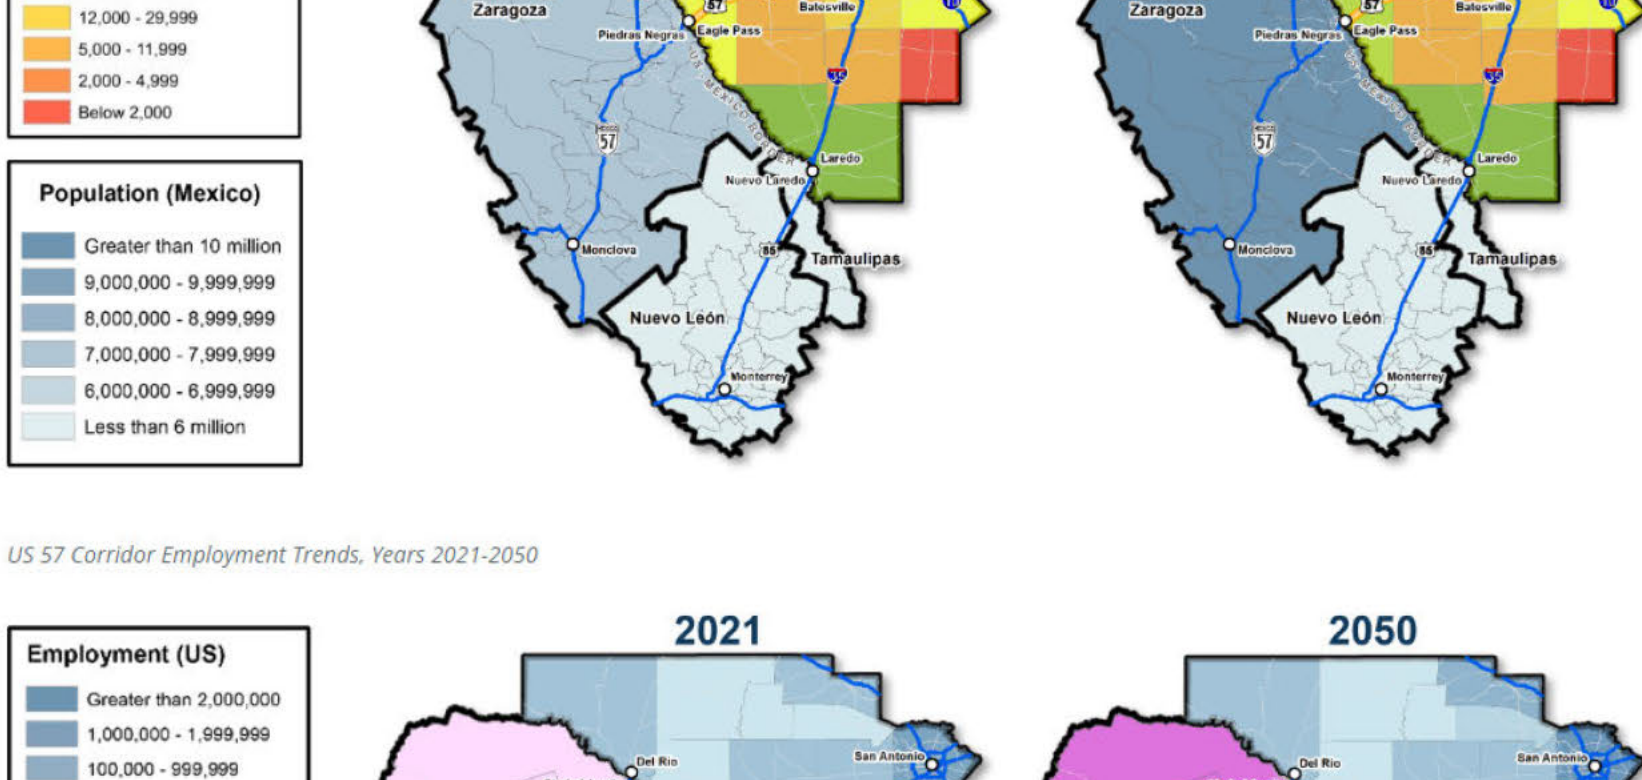

State Loop 480 Freight Relief Route around Eagle Pass

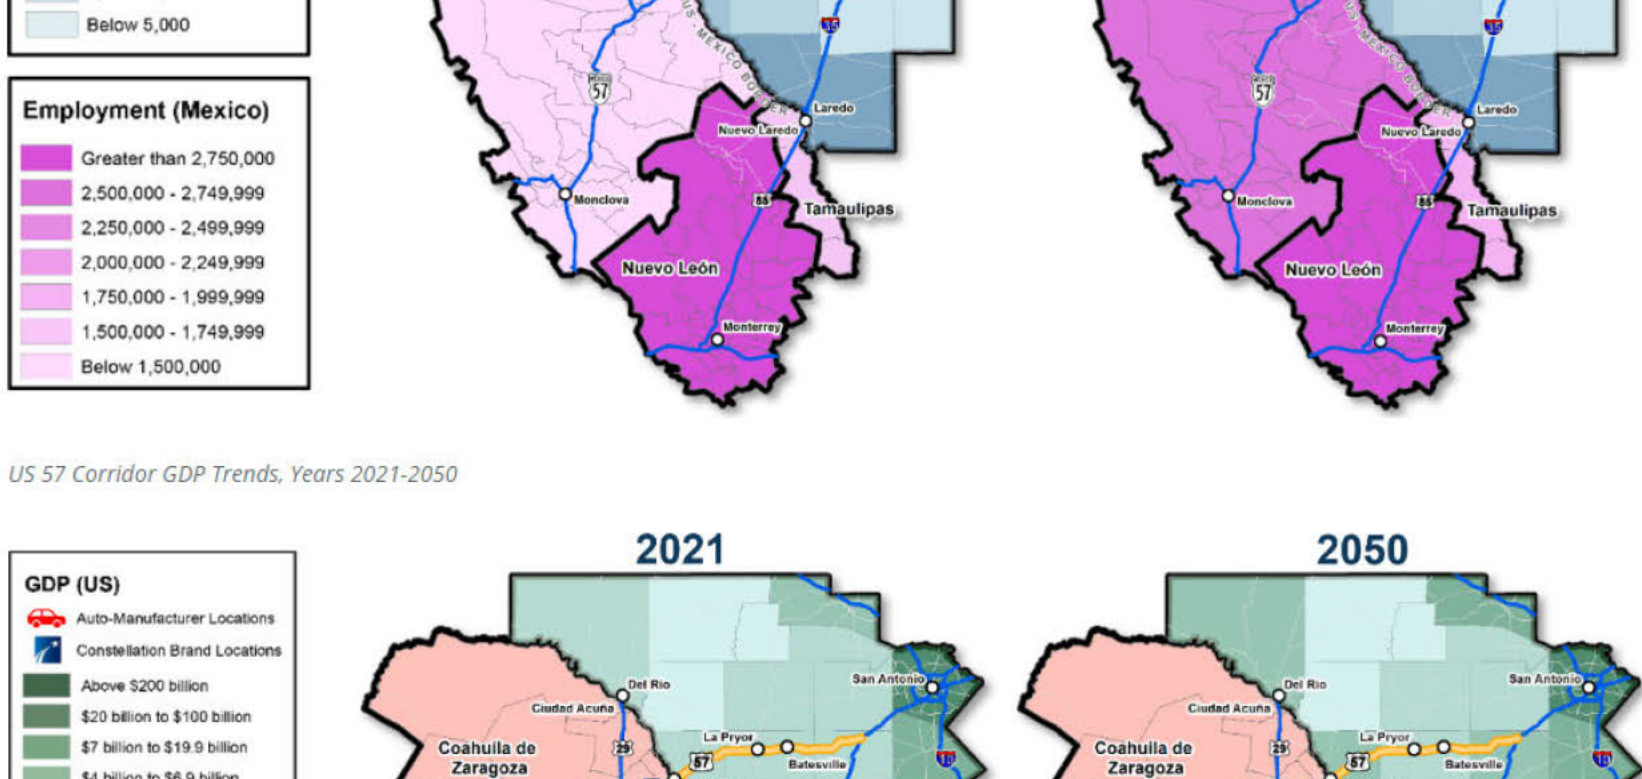

Anticipated Growth

A 30 percent population growth from 2.7 to 3.5 million Texans, 36 percent employment growth from 1.1 to 1.5 million US jobs, and 104 percent GDP (gross domestic product) growth from \$143 billion to \$293 billion are estimated from 2021 to 2050 in the study area.

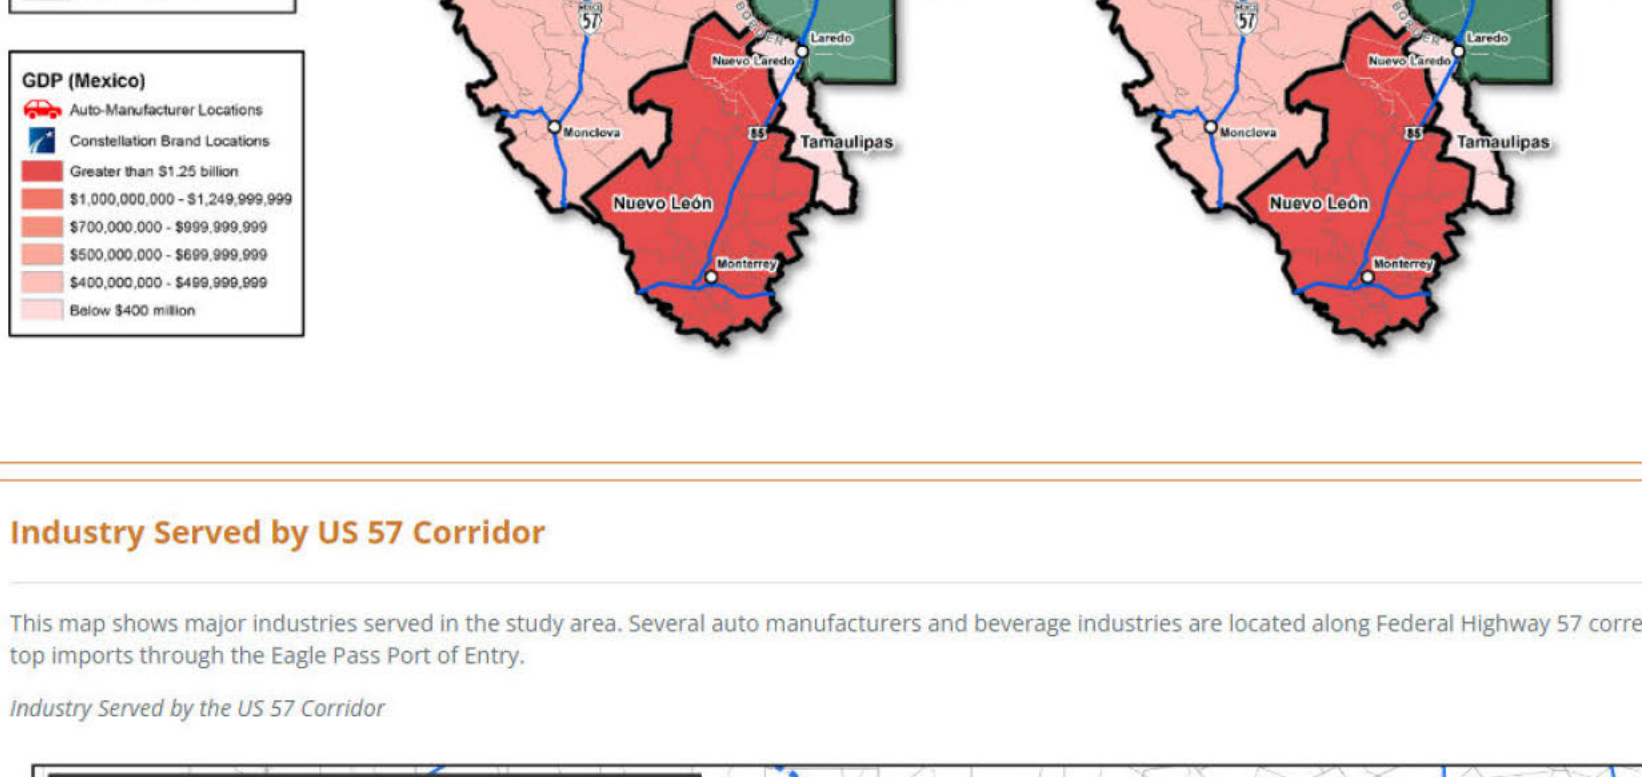

US 57 Corridor Population Trends, Years 2021-2050

US 57 Corridor Employment Trends, Years 2021-2050

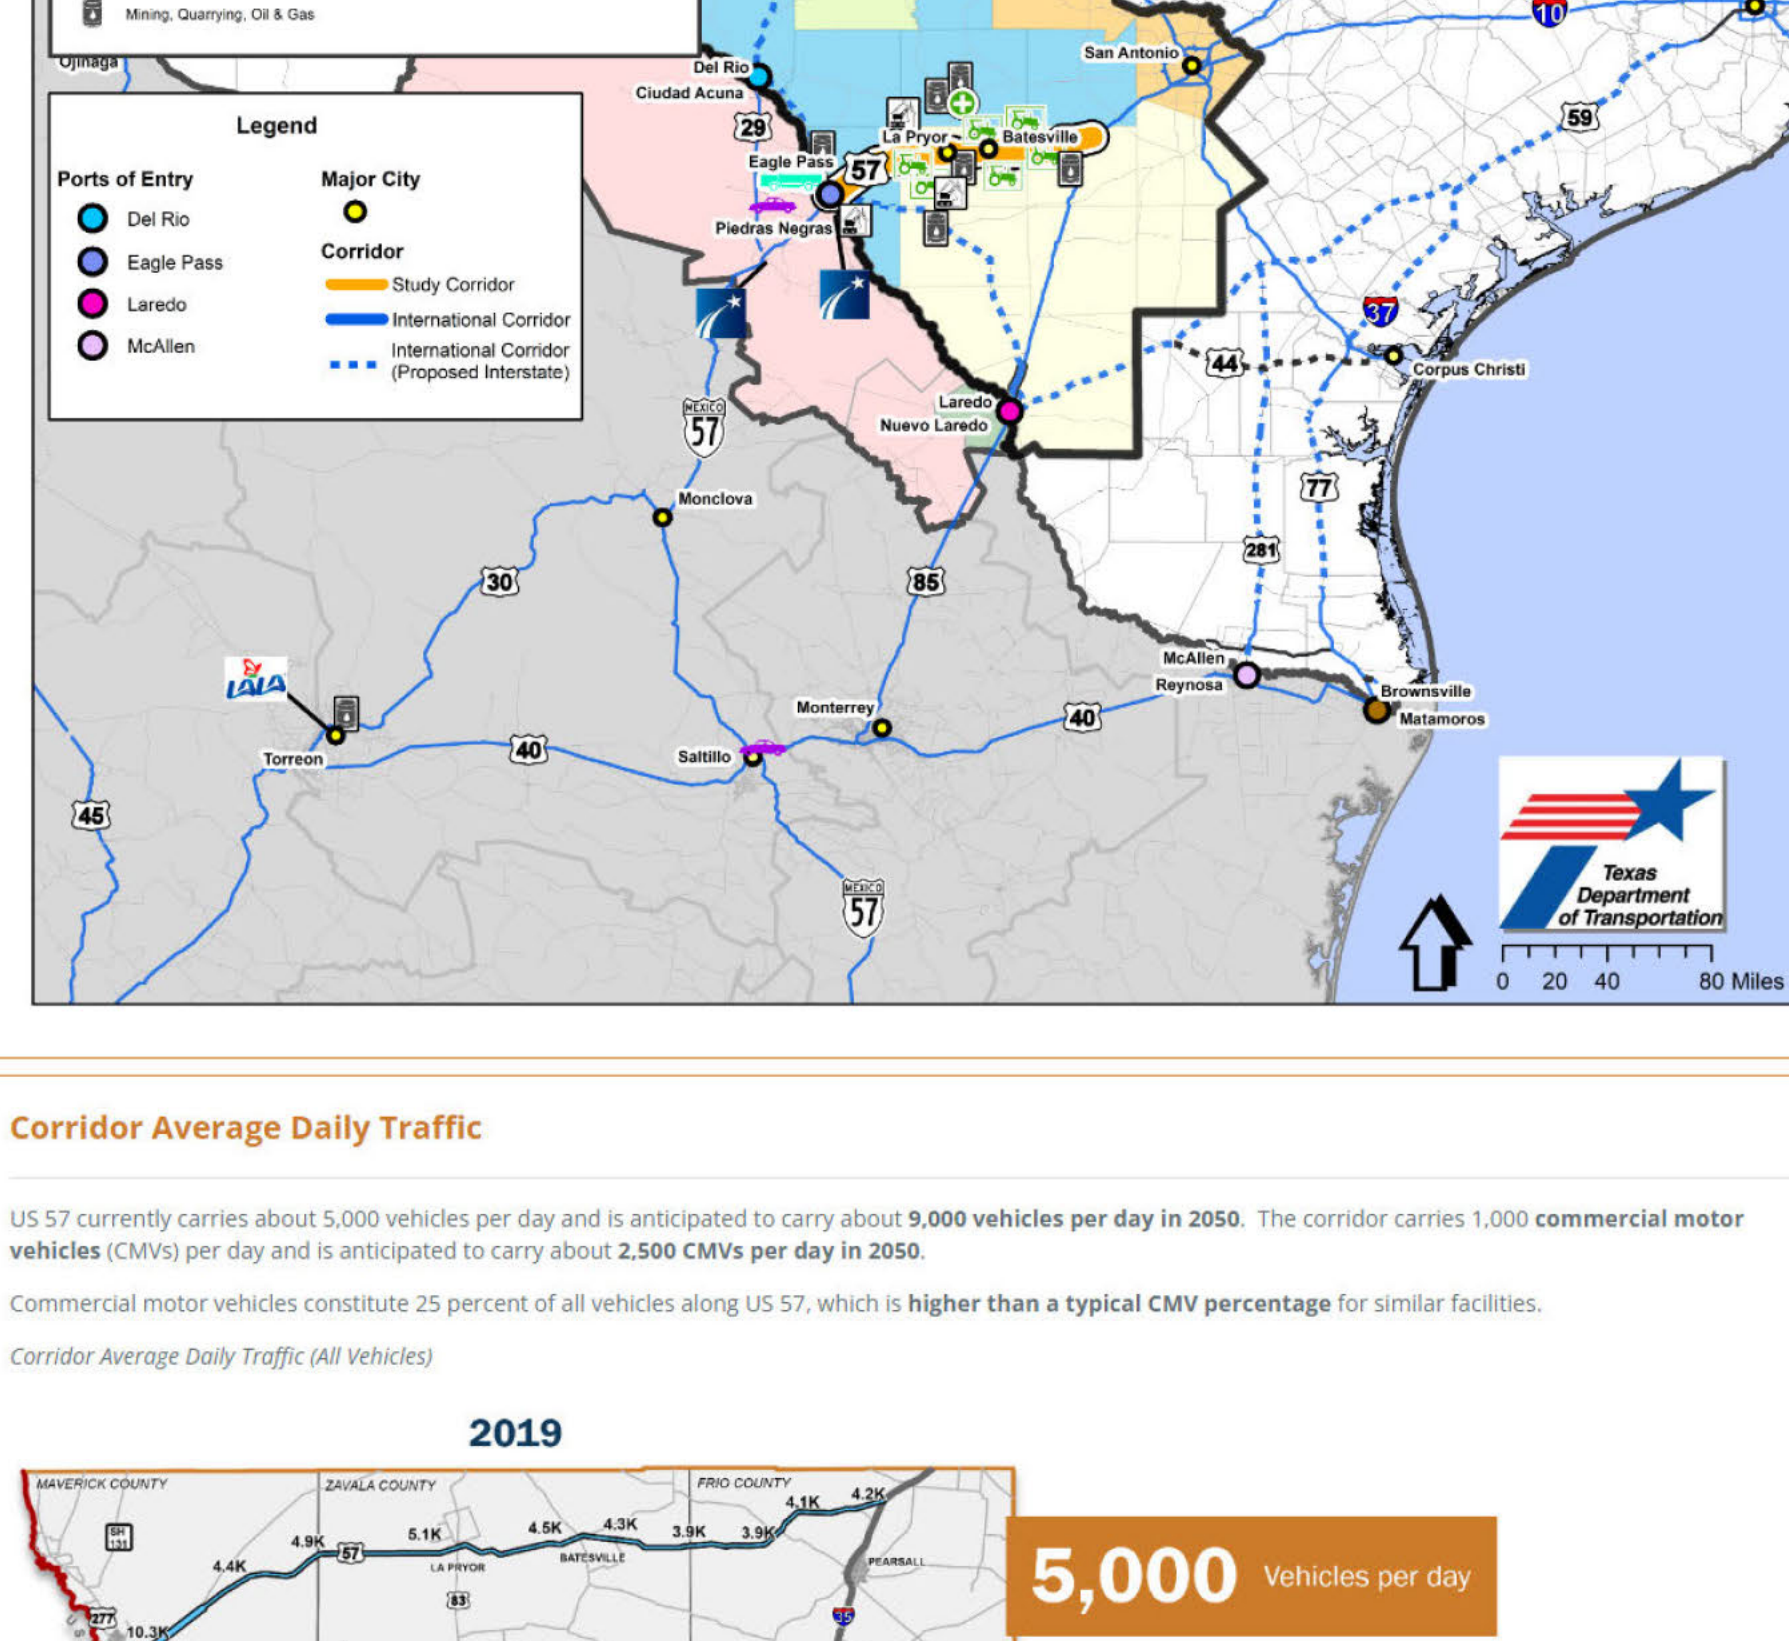

US 57 Corridor GDP Trends, Years 2021-2050

Industry Served by US 57 Corridor

This map shows major industries served in the study area. Several auto manufacturers and beverage industries are located along Federal Highway 57 corresponding to the top imports through the Eagle Pass Port of Entry.

Industry Served by the US 57 Corridor

Corridor Average Daily Traffic

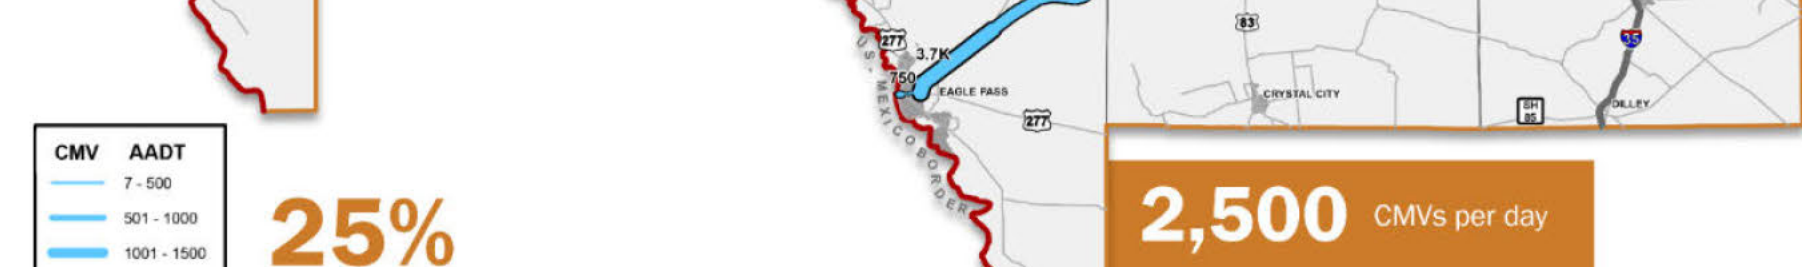

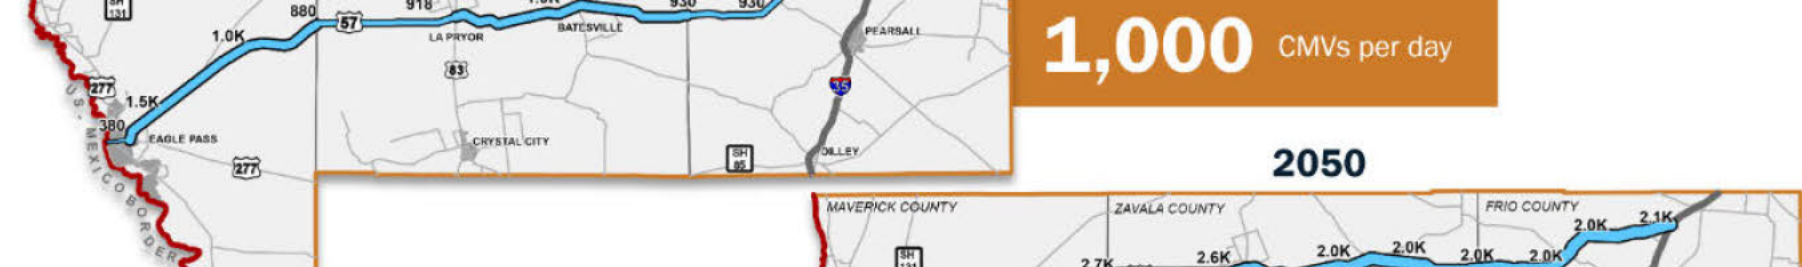

US 57 currently carries about 5,000 vehicles per day and is anticipated to carry about 9,000 vehicles per day in 2050. The corridor carries 1,000 commercial motor vehicles (CMVs) per day and is anticipated to carry about 2,500 CMVs per day in 2050.

Commercial motor vehicles constitute 25 percent of all vehicles along US 57, which is higher than a typical CMV percentage for similar facilities.

Corridor Average Daily Traffic (All Vehicles)

Corridor Average Daily Traffic (CMV Only)

Traffic Analysis

The future analysis of existing and future traffic levels of service along the US 57 Corridor in 2050 if no improvements are made. The data shows acceptable existing and future traffic level of service along the majority of US 57. Level of service refers to the quality of motor vehicle traffic service based on performance measures like travel delay, density, and congestion.

There are a few locations in Eagle Pass, shown in orange and red, that will be at unacceptable traffic level of service in the future. A poor level of service equates to more congestion and density.

Corridor Existing and Future Levels of Service

Safety Analysis

Between 2017 and 2021, two-thirds of all crashes along the US 57 Corridor occurred in Eagle Pass, where the crash rate was more than three times the statewide average.

However, 89 percent of fatal crashes occurred outside Eagle Pass, along two-lane sections of the corridor.

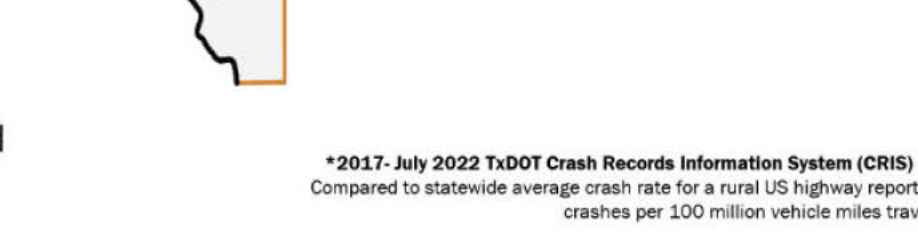

Safety Corridor-wide and in Eagle Pass

Safety corridor-wide

- From January 2017 to July 2022, there were **27** fatalities on US 57
- The majority (**89%**) of fatal crashes occurred along **two-lane** sections of the corridor

Safety in Eagle Pass

- 3x** the statewide average crash rate*
- 2/3** of crashes on the corridor occurred in Eagle Pass, including **all 8** pedestrian and cyclist-related crashes

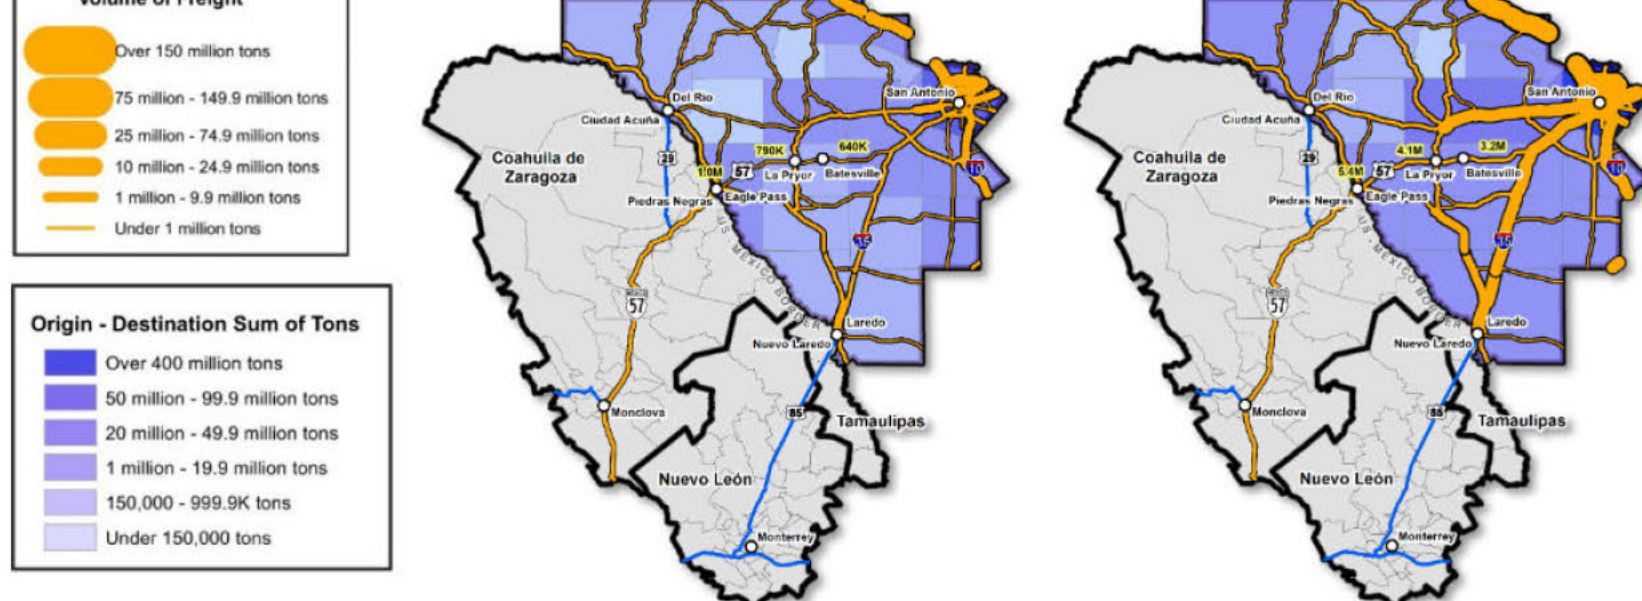

*2017-2021 TxDOT Crash Records Information System (CRIS) Data Compared to statewide average crash rate for a rural US highway reported in crashes per 100 million vehicle miles traveled.

Freight Movement

The US 57 Corridor experiences a relatively high percentage of freight traffic: approximately 1 of every 4 vehicles is a commercial vehicle.

From 2015 to 2045, growth in freight tonnage along the US 57 Corridor is projected to quadruple from 144 to 725 million tons.

US 57 Corridor Freight Tonnage Trends

Development

Continued growth and economic development is anticipated along the US 57 Corridor. Coahuila, Mexico has pledged to invest \$270M to expand the freight bridge at Piedras Negras from 6 to 12 lanes and build six state loops along Federal Highways 57 and 30.

Nearshoring, when companies relocate operations closer to home due to shifts in the global supply chain, is expected to have a significant effect on the study area.

Highlights from Study Team Visit to Coahuila, Mexico

- The Texas-Mexico border is critical for the prosperity and economic competitiveness of both countries
- Eagle Pass POE complements other Ports of Entry, such as the Laredo POE, providing a resilient system
- Cross-border trade has increased, and is expected to continue growing due to plans for mega-industrial developments

\$270M PLEDGED INVESTMENT BY COAHUILA

- Plans to build six State Loops along Federal Highways 57 and 30 from Torreon to the border
- Expansion of freight bridge at Piedras Negras from 6 to 12 lanes

Stakeholder Outreach

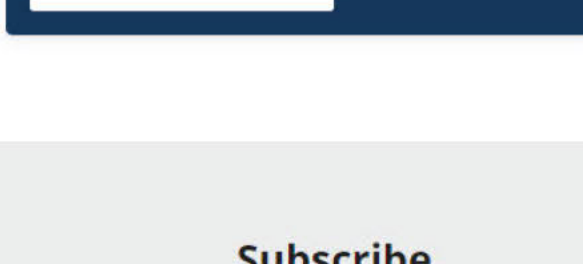

The US 57 Study Team has met with a variety of parties interested in the study, including:

- State Senators and Representatives, County judges and Commissioners, and City Mayors, or their representatives
- Cities of Eagle Pass and Del Rio
- Eagle Pass Chamber of Commerce
- Representatives from the Mexican State of Coahuila
- Representatives from the Texas Freight Advisory Committee and Border Trade Advisory Committee
- Alamo Area Metropolitan Planning Organization (MPO)
- Texas Trucking Association
- Agriculture, energy, and international trade sectors
- Auto and beverage industries
- Private sector representatives

US 57 CORRIDOR INTERSTATE FEASIBILITY STUDY

Improvement Options

The following improvement options were evaluated for the US 57 Corridor east of Loop 480 in Eagle Pass to the I-35 junction in Moore:

- Expanding the corridor to a **four-lane undivided highway**
- Expanding the corridor to a **four-lane divided highway**
- Expanding the corridor to a **four-lane interstate** with two-lane frontage roads in either direction

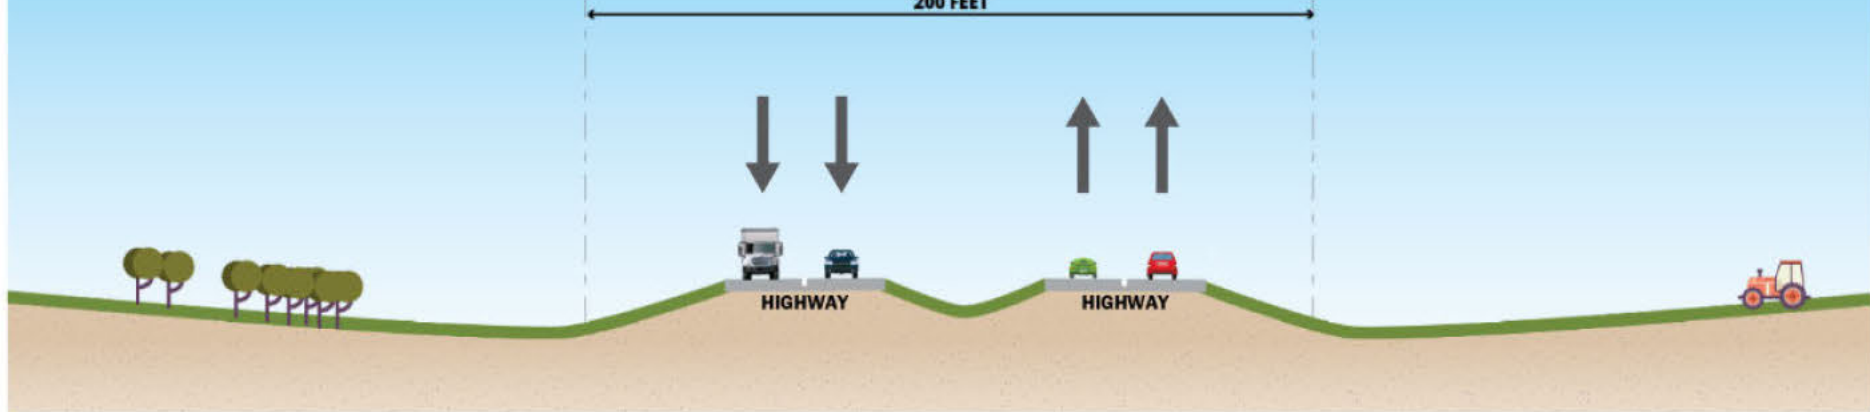

Four-Lane Undivided Highway \$420M

KEY ELEMENTS

- Maintains driveway access to local businesses and residences
- Maintains currently posted speeds
- Requires additional right-of-way, though less than an interstate: 140 feet
- Maintains at-grade intersections with other roadways
- Does not expand shoulders or increase separation of traffic that would enhance safety

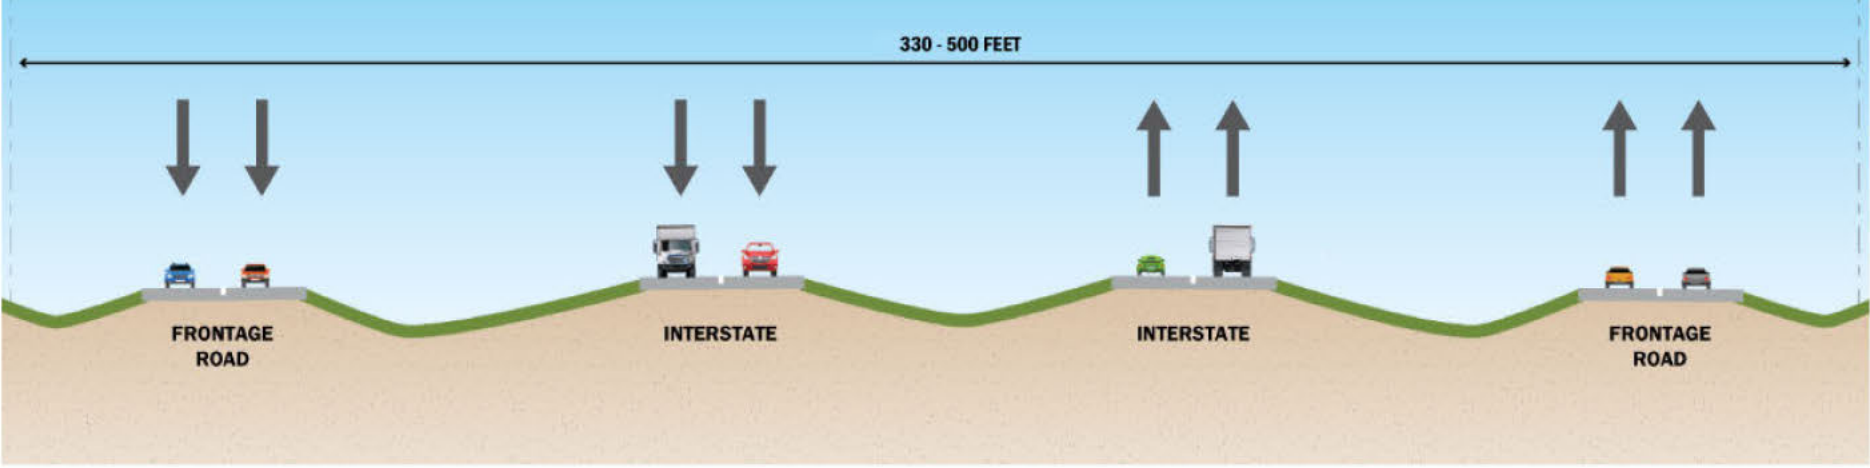

Four-Lane Divided Highway \$510M

KEY ELEMENTS

- Maintains driveway access to local businesses and residences
- Maintains currently posted speeds
- Requires additional right-of-way, though less than an interstate: 200 feet
- Maintains at-grade intersections with other roadways
- Provides additional inside shoulders and separates traffic in either direction by an interior median, enhancing safety

Interstate with Frontage Roads \$2B

KEY ELEMENTS

- Two additional mainlanes and four lanes of frontage roads to increase capacity for anticipated trade growth, requiring between 330 and 500 feet of additional right-of-way
- No driveways connecting to main lanes
- No stop signs or traffic signals on mainlanes
- Traffic would flow uninterrupted from one end of the highway to the other. To accomplish this, overpasses would be necessary
- Provides additional inside shoulders, separates traffic in either direction, and separates vehicles by speed, enhancing safety

Improvement Option Comparison

The four-lane divided highway is the **most cost-effective** and provides **both safety and capacity benefits**.

Option	Four-Lane Undivided Highway	Four-Lane Divided Highway	Interstate with Frontage Roads
Cost	\$420 million	\$510 million	\$2 billion
Benefit-Cost Ratio	1.12	1.30	0.40
Safety & Capacity Benefits	Improves capacity by adding two lanes	- Improves capacity by adding two lanes - Improves safety by separating directions of traffic and adding inner shoulders	- Improves capacity by adding six lanes - Improves safety by separating directions of traffic and adding inner shoulders

Recommendations

Based on the study data analysis, the **US 57 Corridor does not currently meet the criteria to upgrade to an interstate**. However, the US 57 Corridor **should be improved** for the following reasons:

- There are **safety incidents** along the corridor, with **89% of fatal crashes occurring on two-lane sections** of the corridor and areas in Eagle Pass with a **crash rate 3x the statewide average**
- Freight connectivity is currently limited** between the Eagle Pass Port of Entry and major interstates, and providing a **redundant route for freight traffic** would strengthen supply chains and help relieve traffic at other Ports of Entry
- Future population, employment, and trade growth** will need to be accommodated
- To better promote **international trade and improvements** to related infrastructure, especially as more manufacturers relocate operations closer to home due to shifts in the global supply chain, as well as support **economic development** in both the United States and Mexico
- Making improvements to the corridor **aligns with other regional planning efforts**, including the 2023 Texas Freight Mobility Plan and Texas-Mexico Border Transportation Master Plan 2021

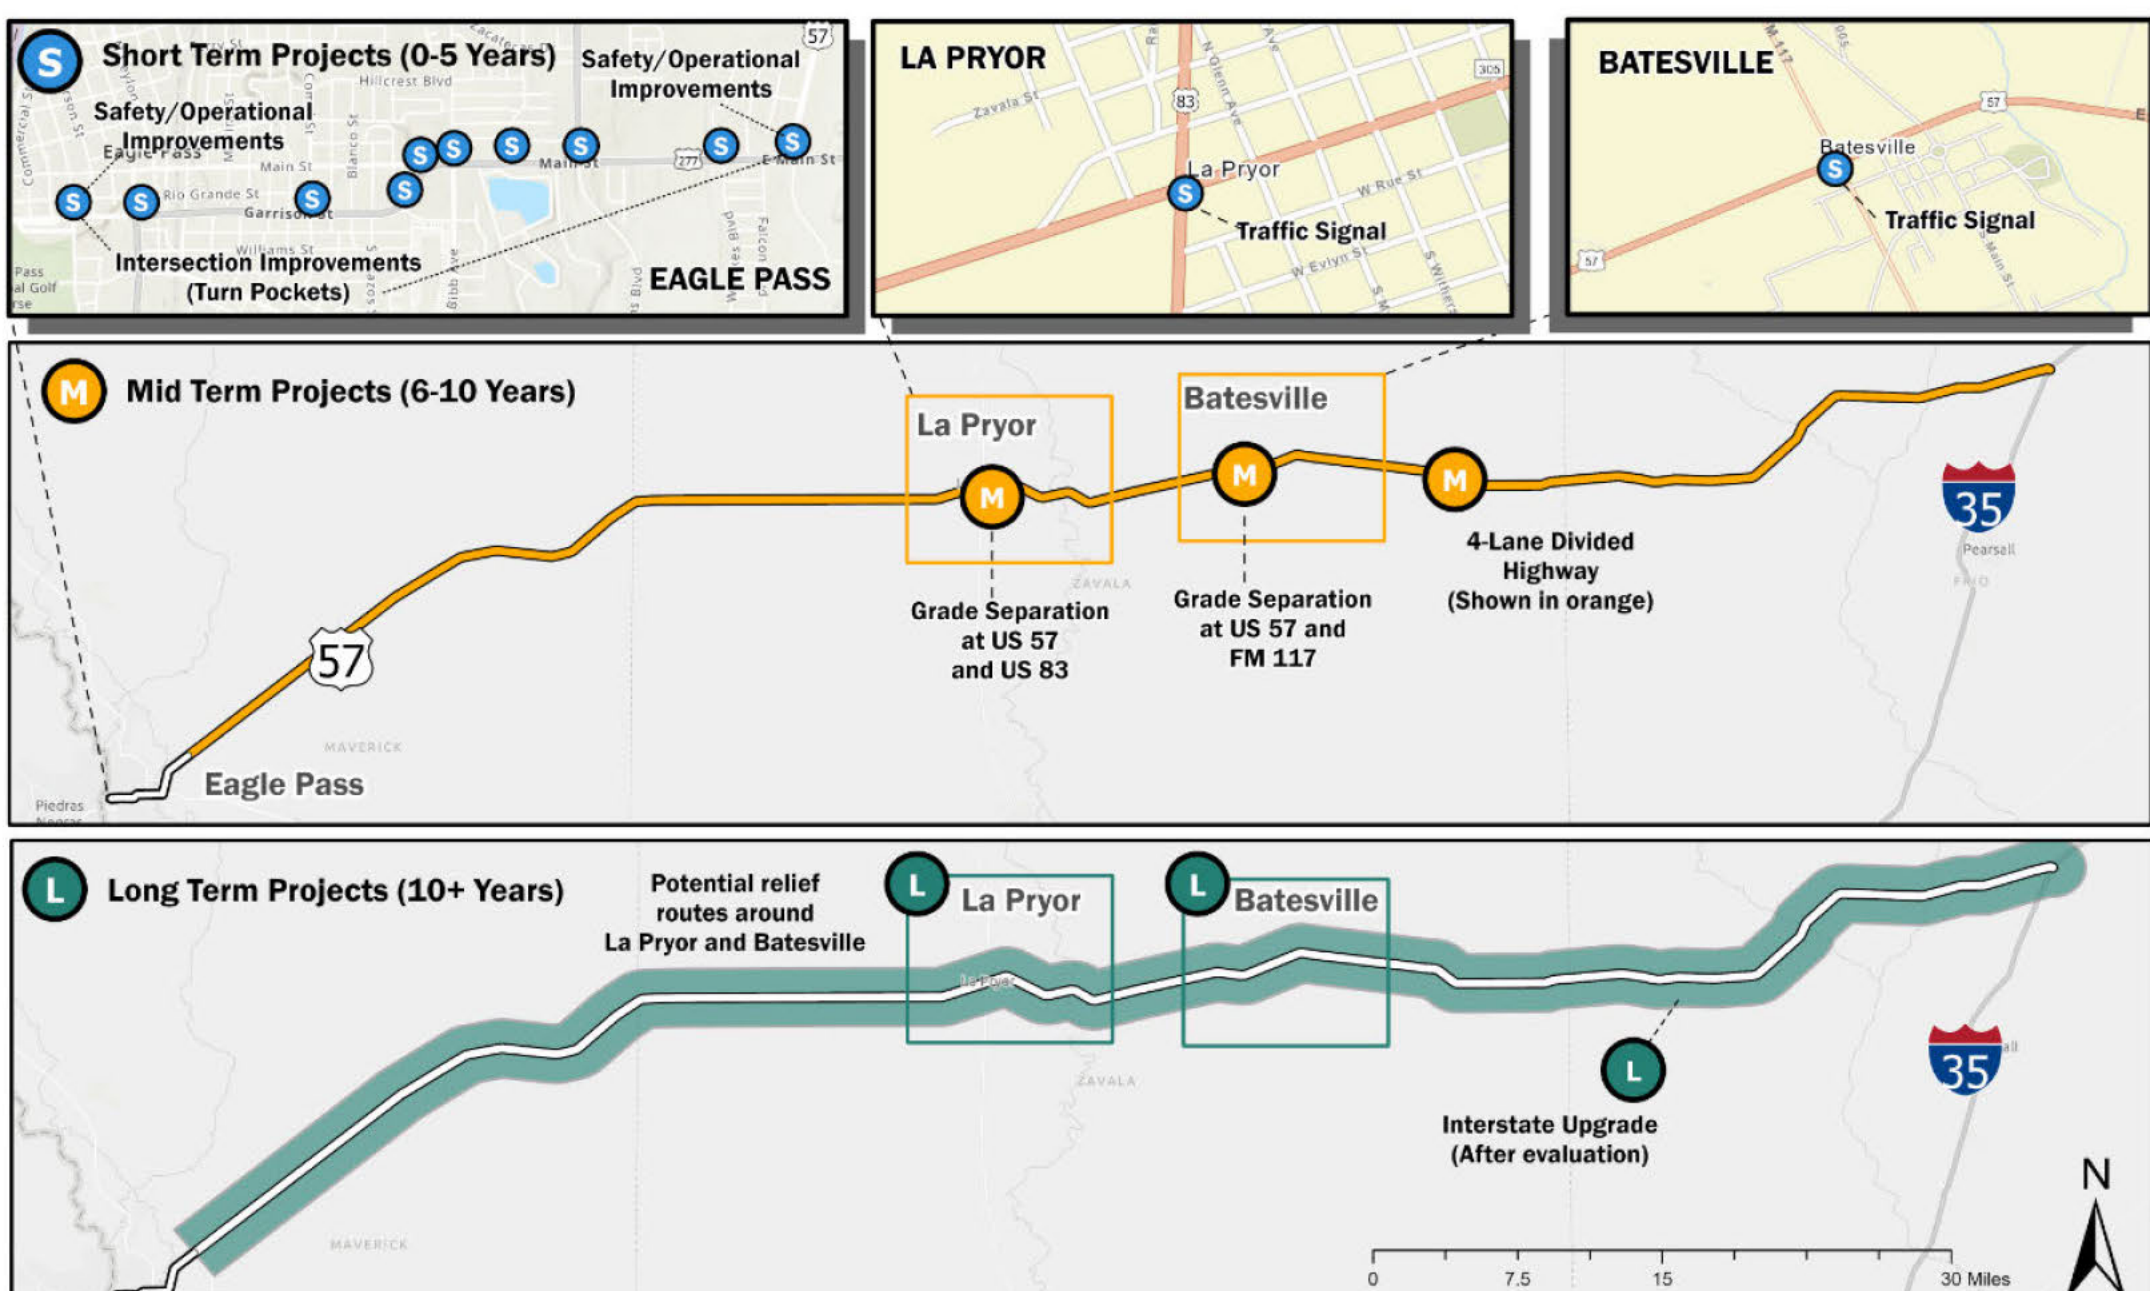

The study recommends that TxDOT:

Plan and implement **short-term spot improvements within the City of Eagle Pass** to improve safety and connectivity

Develop a segmented and phased implementation plan for a **Four-Lane Divided Highway** east of SL 480 to the I-35 junction, that will:

- Facilitate reuse of existing lanes, where possible, to reduce cost
- Enhance safety and operations
- Improve connectivity, freight mobility, and economic vitality
- Consider potential freight relief routes around La Pryor and Batesville
- Minimize impact to adjacent properties
- Serve as a logical progression towards an interstate-level freeway

Implementation Plan

SHORT-TERM (0-5 YEARS)

Safety / Operational Improvements	Within the City of Eagle Pass, \$1M
Intersection Improvements (Turn Pockets)	Within the City of Eagle Pass, \$10M
Traffic Signal	At US 57/US 83 in the City of La Pryor, \$400,000
Traffic Signal	At US 57/FM 117 in the City of Batesville, \$400,000

MID-TERM (6-10 YEARS)

Four-lane Divided Highway	Outside the City of Eagle Pass, \$510M
Grade Separation	At US 57/US 83 in the City of La Pryor, \$20M
Grade Separation	At US 57/FM 117 in the City of Batesville, \$20M

LONG-TERM (10+ YEARS)

Re-evaluate for interstate upgrade	
Interstate Upgrade	Along US 57, \$2B
Relief Route	Around the City of La Pryor*
Relief Route	Around the City of Batesville*

*Cost not yet determined

- ☐ I own property along the study corridor
- ☐ I own a business along the study corridor
- ☐ I am an elected official
- ☐ I am an interested resident
- ☐ I am an interested commuter

2. What is your name?

First and Last Name

3. Address

4. City, State, Zip Code

5. Would you like to subscribe to email updates about the study?

- ☐ Yes
- ☐ No

6. Email Address

7. What challenges, if any, do you experience along US 57?

Please be specific about the location of any challenges.

8. Please rank the following priorities regarding our evaluation of US 57, bringing your highest priority to the top of the list.

Move items here.

Improve east/west connectivity

+

Support freight demand

+

Enhance safety

+

Support future economic growth

+

Other priority

+

9. What other priorities should we consider when evaluating US 57?

Take our survey and share your input on current and future corridor priorities.

Take Our Survey

Take our Survey on the US 57 Corridor Interstate Feasibility Study

10a. Please indicate your level of support for safety improvements to US 57 (center barrier, signs, striping, lighting), with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.

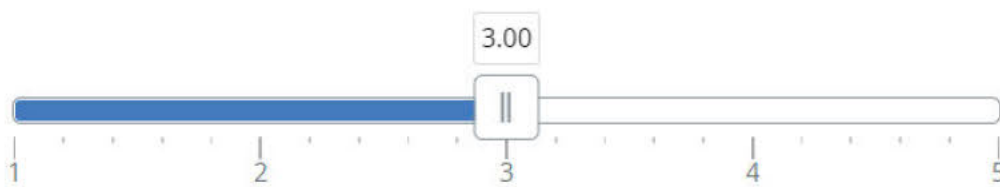

10b. Please indicate your level of support for intersection, signalization, and grade separation (underpass or overpass) improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.

10c. Please indicate your level of support for roadway widening improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.

10d. Please indicate your level of support for alternate freight route improvements to US 57, with 5 meaning you are fully supportive and 1 meaning you are not at all supportive.

11. In which locations would these improvements be most helpful?

12. Please rank the following corridor-wide improvement options to US 57, bringing your highest priority to the top of the list.

Move items here.

Four-lane undivided highway (two lanes of traffic in either direction)

Four-lane divided highway (two lanes of traffic in either direction separated by an interior median and inner shoulders to enhance safety)

Interstate with frontage roads (two lanes of uninterrupted traffic in either direction with two-lane frontage roads in either direction)

No improvements

Esta página web proporciona a los hispanohablantes información preliminar sobre el Estudio de Factibilidad del Corredor US 57. La información adicional del estudio está disponible en este sitio y aparece en inglés de forma predeterminada. Sin embargo, todo el texto se puede ver en español (o en cualquier otro idioma) pulsando alternadamente el botón "Google Translate" en la esquina superior derecha de la pantalla hasta su idioma preferido.

Presentación de la Reunión Pública

El propósito del estudio es evaluar la viabilidad de mejorar el corredor US 57 como una carretera interestatal. El estudio está evaluando cómo

- Mejorar la conectividad y la capacidad este/oeste tomando en cuenta también los planes de transporte locales y regionales
- Mejorar la seguridad del corredor
- Alinearse con el Plan de Movilidad de Carga de Texas, el Plan Maestro de Transporte Fronterizo, y el Plan Estratégico de Seguridad Vial
- Apoyar los planes de desarrollo fronterizo y comunitario, así como las oportunidades económicas

TuDOI está llevando a cabo el estudio por estas razones:

- El corredor US 57 conecta el puerto de Eagle Pass, el cual es una vía importante para el flujo comercial internacional hacia diversos puntos en Texas, el resto de Estados Unidos, y Canadá
- De 1990 a 2019, la población de la región fronteriza creció de 4.37 millones de habitantes a 7.45 millones de habitantes, lo que representa un aumento del 70% y, el empleo creció de 1.19 millones de empleos a 2.93 millones lo que equivale a un aumento del 97%
- El corredor US 57 sirve a las principales industrias y los líderes locales esperan que atraiga futuras oportunidades de desarrollo económico
- Algunos tramos del estudio sobre el corredor US 57, tienen un índice de accidentes de 3 veces mayor al promedio estatal
- El puerto de Eagle Pass ocupa el octavo lugar a nivel nacional, según los cruces fronterizos clasificados por valor, con \$34 mil millones de dólares en 2021. Sin embargo, no hay conexión directa desde el puerto de entrada a una carretera interestatal, lo cual es un factor limitante para el crecimiento en el área de Eagle Pass y el corredor US 57.

Las siguientes encierras se evaluarán para mejorar el corredor IIS 57 al este de la carretera Leon 480 en Eagle Pass hasta el cruce de la carretera I-35 en Moore.

- Ampliar el corredor a una carretera **no dividida de cuatro carriles**
- Ampliar el corredor a una carretera **dividida de cuatro carriles**
- Expandir el corredor a una carretera **interestatal de cuatro carriles** con caminos laterales de dos carriles en cualquier dirección

Mais sobre Ondas de Malware

La carretera dividida de cuatro carriles es la **más rentable** y brinda **beneficios tanto de seguridad como de capacidad**

Opción	Autopista No Dividida de Cuatro Carriles	Autopista Dividida de Cuatro Carriles	Interestatal con Caminos Secundarios
Costo	\$420 millones	\$510 millones	\$2 mil millones
Proporción Beneficio-Costo	1.12	1.30	0.40
Beneficios de Seguridad & Capacidad	Mejora la capacidad al agregar dos carriles	- Mejora la capacidad al agregar dos carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos	- Mejora la capacidad al agregar seis carriles - Mejora la seguridad al separar las direcciones del tráfico y agregar arcenes internos

En base a los datos que ha recopilado TxDOT, el corredor US 57 **no cumple con los criterios para mejorar a una carretera interestatal**. Sin embargo, el corredor US 57 **debe mejorarse** por las siguientes razones:

- Hay **incidentes de seguridad** a lo largo del corredor, con **el 89% de los choques mortales ocurriendo en secciones de dos carriles del corredor** y áreas en Eagle Pass con **una tasa de choques 3 veces mayor al promedio estatal**
- La **conectividad de carga actualmente está limitada** entre el puerto de entrada de Eagle Pass y las principales carreteras interestatales, y proporcionar **una ruta adicional para el tráfico de carga** fortalecería las cadenas de suministro y ayudaría a aliviar el tráfico en otros puertos de entrada
- Será necesario acomodar **el crecimiento futuro de la población, el empleo y el comercio**
- Para promover mejor **el comercio internacional y las mejoras a la infraestructura relacionada**, especialmente a medida que más fabricantes trasladan sus operaciones más cerca de casa debido a los cambios en la cadena de suministro global, así como apoyar el **desarrollo económico** tanto en los Estados Unidos como en México.
- Hacer mejoras en el corredor se **alinea con otros esfuerzos de planificación regional**, incluido el Plan de Movilidad de Carga de Texas 2023 y el Plan Maestro de Transporte Fronterizo Texas-México 2021

El estudio recomienda que TxDOT:

Planificar e implementar mejoras a corto plazo dentro de la ciudad de Eagle Pass para mejorar la seguridad y la conectividad

Desarrollar un plan de implementación segmentado y por etapas para **una autopista dividida de cuatro carriles** al este de la carretera State Loop 480 hasta el cruce de la I-35, que:

- Facilite la reutilización de los carriles existentes, cuando sea posible, para reducir costos
 - Mejore la seguridad y operatividad
 - Mejore la conectividad, la movilidad de carga y economía
 - Considere posibles rutas de alivio para carga alrededor de La Pryor y Batesville
 - Minimice el impacto en las propiedades adyacentes
- Servir como una progresión lógica hacia una autopista a nivel interestatal**

Formas de Compartir Sus Aportes con el Equipo de Estudio

Envíe sus comentarios de una de las siguientes maneras o deje mensaje por correo de voz al (956) 508-3580. Se traducirá al inglés, se transcribirá y se incluirá como parte del informe resumido de la reunión pública. v se considerará en el informe final del estudio de factibilidad.

Estudio de Factibilidad Interestatal del Corredor US 57 - Encuesta

Gracias por su participación en el Estudio de Factibilidad Interestatal del Corredor US 57. Agradecemos que se tome el tiempo para proporcionar información que mejorará la comprensión del corredor por parte del equipo de estudio. Todas las preguntas son opcionales y anónimas.

Si tiene alguna pregunta o inquietud, comuníquese con: Gerente de proyecto de TxDOT Paul Truban al (512) 839-7256 o Paul.Truban1@txdot.gov.

1. ¿Cuáles de las siguientes opciones le aplican a usted? Por favor marque todos los que apliquen.

- ☐ Vivo a lo largo del corredor
- ☐ Trabajo a lo largo del corredor
- ☐ Tengo propiedad a lo largo del corredor
- ☐ Tengo un negocio a lo largo del corredor
- ☐ Soy un funcionario electo
- ☐ Soy un residente interesado
- ☐ Soy un viajero interesado

2. ¿Cómo te llamas?

Nombre y Apellido

3. Dirección

4. Ciudad. Estado. Código postal.

5. ¿Desea suscribirse a las actualizaciones por correo electrónico sobre el estudio?

- ☐ Sí
- ☐ No

7. ¿Qué desafíos, si los hay, experimenta a lo largo de US 57?

Por favor, sea específico sobre la ubicación de cualquier desafío.

8. Por favor, clasifique las siguientes prioridades para su organización/comunidad con respecto a nuestro estudio del corredor US 57. Ponga su prioridad más alta al principio de la lista.

Mueva elementos aquí

Mejorar la conectividad este/oeste

+

Apoyar la demanda de carga

+

Mejorar la seguridad

+

Apoyar el crecimiento económico futuro

+

Otra prioridad

+

9. ¿Qué otras prioridades debemos considerar al evaluar el corredor US 57?

Estudio de Factibilidad Interestatal del Corredor US 57 - Encuesta

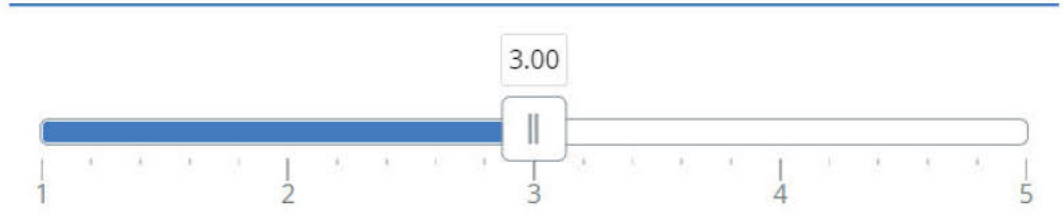

Gracias por su participación en el Estudio de Factibilidad Interestatal del Corredor US 57. Agradecemos que se tome el tiempo para proporcionar información que mejorará la comprensión del corredor por parte del equipo de estudio. Todas las preguntas son opcionales y anónimas.

Si tiene alguna pregunta o inquietud, comuníquese con: Gerente de proyecto de TxDOT Paul Truban al (512) 839-7256 o Paul.Truban1@txdot.gov.

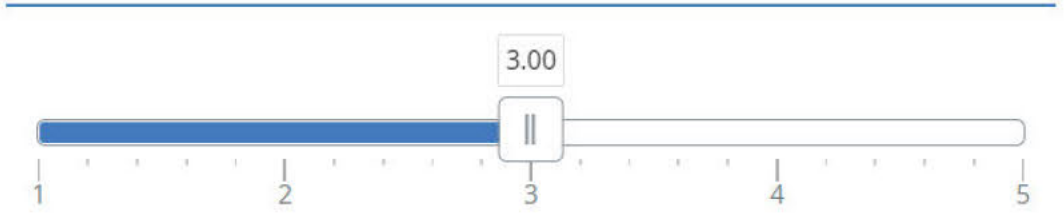

10a. Indique su nivel de apoyo para las mejoras de seguridad (barrera central, señales, franjas, iluminación) a US 57, con 5 lo que significa que usted apoya totalmente y 1 lo que significa que no lo apoya en absoluto.

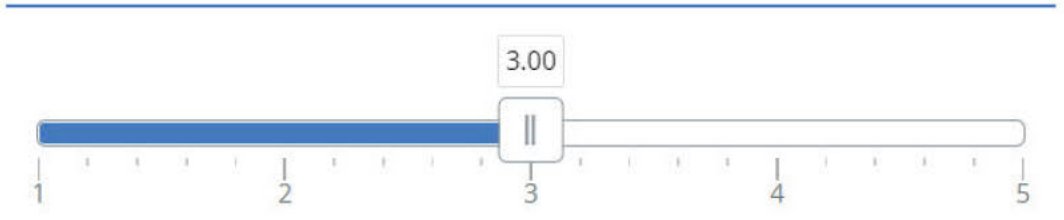

10b. Indique su nivel de apoyo para las mejoras de intersecciones, señalización y separación de niveles (paso inferior o paso elevado) a US 57, con 5 lo que significa que usted apoya totalmente y 1 lo que significa que no lo apoya en absoluto.

10c. Indique su nivel de apoyo para las mejoras de ampliación de la carretera a US 57, con 5 lo que significa que usted apoya totalmente y 1 lo que significa que no lo apoya en absoluto.

10d. Indique su nivel de apoyo para las mejoras de rutas alternativas para carga a US 57, con 5 lo que significa que usted apoya totalmente y 1 lo que significa que no lo apoya en absoluto.

11. ¿En qué lugares serían más útiles estas mejoras?

12. Por favor, clasifique las siguientes opciones de mejora en todo el corredor a US 57, llevando su máxima prioridad a la parte superior de la lista.

Mueva elementos aquí.

Autopista indivisa de cuatro carriles (dos carriles de tráfico en cada dirección)

Autopista dividida de cuatro carriles (dos carriles de tráfico en cada dirección separados por una mediana interior y arcones interiores para mejorar la seguridad)

Interestatal con carreteras de acceso (dos carriles de tráfico ininterrumpido en cualquier dirección con carreteras de acceso de dos carriles en cualquier dirección)

Ningunas mejoras

Otro
